The **BIGGA test**

The BIGGA National Championship 2012, sponsored by Charterhouse and Kubota, will be played at the glorious Irvine Golf Club, at Bogsie, in Scotland. In this 25th year of BIGGA, Irvine GC is 125, so the championship in October should be a celebration to remember. Jim Cook returned from the trip north with splendid photography and words to match.

The course offers a behemoth of a challenge and as it has been known to reduce professional golfers to whimpering wrecks is definitely not one for the faint hearted.

Head Greenkeeper, Derek Wilson, said: “The Scottish pro Alan Tait brought three young pros down to play and they were saying ‘it’s only six-and-a-half thousand yards, it must be easy’ then in the clubhouse at the end of the round he said ‘tell them what you scored’ and one, in tears, admitted he hadn’t broken 100!”

A true links challenge, the course sits on sand with fairways divided roughly by thick gorse bushes and heather which lay in wait for any wayward shots.

“If you hit the ball straight you’ll get a good score. Accuracy off the tee is a must because if you end up in the bushes, you’re in trouble,” Derek added.

It was built in 1887 and some of the present character of the course comes from James Braid’s designs in the 1920s. His use of nature as a tool is greatly in evidence around Irvine GC and part of its individualistic charm can be attributed to the great Scottish course designer. The course has not changed much since then and all the bunkers still sit in their original positions. In the past 25 years, new tees have been built at the 2nd, 6th, 12th, 17th and 18th.

Derek said: “The basic shape of the golf course hasn’t altered and with some of the lengthy carries we have around here, you just have to try to hit them with hickory golf clubs! It’s the same with all of the courses down this stretch and you
The BIGGA test

The BIGGA National Championship 2012, sponsored by Charterhouse and Kubota, will be played at the glorious Irvine Golf Club, at Bogside, in Scotland. In this 25th year of BIGGA, Irvine GC is 125, so the championship in October should be a celebration to remember. Jim Cook returned from the trip north with splendid photography and words to match

The course offers a behemoth of a challenge and as it has been known to reduce professional golfers to whimpering wrecks is definitely not one for the faint hearted.

Head Greenkeeper, Derek Wilson, said: “The Scottish pro Alan Tait brought three young pros down to play and they were saying ‘it’s only six-and-a-half thousand yards, it must be easy’ then in the clubhouse at the end of the round he said ‘tell them what you scored’ and one in tears admitted he hadn’t broken 100”.

A true links challenge, the course sits on sand with fairways divided roughly by thick gorse bushes and heather which lay in wait for any wayward shots.

“If you hit the ball straight you’ll get a good score. Accuracy off the tee is a must because if you end up in the bushes, you’re in trouble,” Derek added.

It was built in 1887 and some of the present character of the course comes from James Braid’s designs in the 1920s. His use of nature as a tool is greatly in evidence around Irvine GC and part of its individualistic charm can be attributed to the great Scottish course designer.

The course has not changed much since then and all the bunkers still sit in their original positions. In the past 25 years, new tees have been built at the 2nd, 6th, 12th, 17th and 18th.

Derek said: “The basic shape of the golf course hasn’t altered and with some of the lengthy carries we have around here, only you have to be trying to hit them with hickory golf clubs? It’s the same with all of the courses down this stretch and you
look at the scores they made back then it’s incredible." One man who can imagine this is Derek himself as he often plays in the Hickory Championships.

He started as a greenkeeper at Irvine GC in 1975, went to Turnberry in 1981 and stayed there until 1986 when he was offered the job of Head Greenkeeper back at Irvine. Irvine GC is regularly used by the R&A as a Final Open Qualifying Course and in 2003 the club co-hosted the Amateur Championship with Royal Troon. In 2007, the British Seniors Open was co-hosted with Turnberry and in 2009 the Ladies Home Internationals were hosted at the club.

One of the many pros who have played Irvine was the charismatic Christy O’Connor Jnr, now on the senior tour. “He’s well known for hitting that two-iron on the 18th at the Belfry and he must have sold that two-iron ten times in the club-house here! He qualified no bother by playing conservatively with irons off the tee. He said that you cannot win the Open here, just get into it so he didn’t do anything silly.”

Out on the course itself, the greens consist of around 60% bentgrass and 40% Poa annua and the fairways are mainly bentgrass with small bits of fescue. “We say around here that you don’t play fairway shots from grass, you play from turf,” added Derek.

He explained the reasons as to why sleepers were installed on the faces of several bunkers around the course: “The ones on the 18th fairway have been in over 20 years and the reason we put them in is because they last longer. It’s normally very windy here and the wind erodes the turf. Then you have under-hanging lies in the bunkers, so we went with an experiment with sleepers after we had seen them at Prestwick Golf Club. For a traditional golf course like ours, it suits it because they are fitted into the banking.”

Earlier this year, sleepers were installed into the large bunker in front of the green on the par-three 16th. This work was done in-house by the six staff on the course and took about two weeks.

“All the front sleepers have wires attached to ones at the back so they can’t fall, so there’s a lot of work in it. If one fell it could cause serious injury so we’ve got to make sure they can’t move at all. We decided to use traditional rail sleepers rather than new ones as it looks better when they are weathered. New sleepers just tend to look like plywood,” said Derek.

The only maintenance the sleepers require is a coat of creosote once-a-year.

When playing the course, each hole offers unique challenges and it is interesting to note that there is just one par-five and two par-threes at Irvine. Five of the par-fours are over 400 yards and the overall yardage is 6423 yards from the white tees.

The 4th hole runs parallel to the main West Coast railway line which also acts as out of bounds to the left. The raised green can be tricky because a long approach may find the River Irvine and a short one will leave a difficult chip.

Number five is menacingly called ‘Sandface’ and lives up to its name with a gigantic bunker set at the foot of an incline in front of the green. This 279 yard par-four requires a 250 yard carry in the air if a player wants to be bold and go for the green.

The 7th hole runs alongside where the old Bogside racecourse used to be. The racecourse was one of the oldest in Scotland with a history dating back to the 17th century. It was the home of the Scottish Grand National until it was moved, due to the closure of Bogside railway station, to Ayr Racecourse in 1966. Of the 119 bunkers on the course, the 8th boasts six of them. This, one of the two par-threes, is 180 yards and once again demands an accurate tee shot.

The only maintenance the sleepers require is a coat of creosote once-a-year. When playing the course, each hole offers unique challenges and it is interesting to note that there is just one par-five and two par-threes at Irvine. Five of the par-fours are over 400 yards and the overall yardage is 6423 yards from the white tees.

The 4th runs parallel to the main West Coast railway line which also acts as out of bounds to the left. The raised green can be tricky because a long approach may find the River Irvine and a short one will leave a difficult chip.

Number five is menacingly called ‘Sandface’ and lives up to its name with a gigantic bunker set at the foot of an incline in front of the green. This 279 yard par-four requires a 250 yard carry in the air if a player wants to be bold and go for the green.

The 7th hole runs alongside where the old Bogside racecourse used to lie. The racecourse was one of the oldest in Scotland with a history dating back to the 17th century. It was the home of the Scottish Grand National until it was moved, due to the closure of Bogside railway station, to Ayr Racecourse in 1966. Of the 119 bunkers on the course, the 8th boasts six of them. This, one of the two par-threes, is 180 yards and once again demands an accurate tee shot.
The par-four 14th is called ‘The Specs’ because of the resemblance of two bunkers in front of the green to spectacles. This golf course demands accurate shot-making and nowhere is this fact more apparent than on the final three holes. The par-three 16th has the large bunker, complete with new sleeperers, guarding the front whilst a slope at the back means recovering from a long shot is tricky.

The par-four 17th is probably the hardest hole on the course. Off the tee, heavy rough and gorse awaits a shot leaking to the right, whilst a sloping fairway punishes shots which are even slightly too far to the left. A tee shot hitting the left side of the fairway is destined for the rough or heather, so an accurate iron shot to the right hand side of the fairway is required here.

The 18th poses a formidable test of golfing skills. From the tee the player is greeted by the sight of two very ominous looking bunkers with gorse jutting out to the right and the rail track to the left. The blind tee shot to reach the fairway must carry 190 yards from the back tees to clear the bunkers. A good target to aim for off the tee is the right hand side of the clubhouse. Even after breathing a sigh of relief due to an accurately placed tee shot, the golfer will notice a green guarded by seven bunkers and a gully at the front.

Even under calm conditions these holes require precision, but imagine the golfer approaching these final holes with a good score under their belt, perhaps with the nerves jangling and palms sweating. Add blustery conditions into the equation and the perils are heightened to a frightening level.

As BIGGA celebrates its 25th year what better way to mark this than to have the National Championship at a course celebrating its 125th year. The record of previous successful National Championships combined with the challenges of the fabulous links course that is Irvine GC make this year’s competition, on 8 – 9 October, one not to be missed.

Charterhouse and Kubota, joint sponsors of BIGGA’s premier golf event, the BIGGA National Championship 2012

The BIGGA National Championship 2012, once again, comes to you courtesy of Charterhouse Turf Machinery and Kubota, who have a long history of working together. This amalgamation of Power Source and Implements is enhanced in their joint sponsoring of BIGGA’s premier golf event.

Kubota has been established for more than 30 years in the UK. Their world class excellence ensures they are at the forefront of innovation and one of the leading manufacturers of tractors, ground-care equipment, utility vehicles and mini-excavators.

The company is constituted into three main product categories of Engines; Construction Equipment; Tractor & Groundcare. Earlier this year the company completed a restructuring of their management team with the creation of a new role for Dave Roberts. Dave left the company in 2010 after 21 years of service and has been enticed back to head up Kubota’s three product sectors as Sales and Marketing General Manager.

In addition he has direct responsibility for the tractor division, which has a Kubota Compact Tractor to perfectly suit every need. The ‘B’ series covers the range 12 to 32HP, with the ‘L’ series and ‘STV’ series covering the range 32 to 41HP. They deliver exceptional power output, a host of performance enhancing features, untrivalled reliability, durability, and economy. They exhibit consistent performance in all seasons over all applications, both in confined and open areas.

With optimum reliability, proficient fuel economy and outstanding versatility, the Kubota range of ‘F’ series out-front rotary mowers and ‘U’ series ride-on cut and collect Mowers are of particular interest to Greenkeepers. In particular, the G26 mower finds application in mowing high presentation areas like the front of golf club houses and entrances. These areas demand a clean, slip-free finish and for this purpose a ride-on rotary mower with an efficient collection system is the ideal solution. Kubota’s G26 is the ultimate grass cutting machine for this type of work, with its 25.5hp Kubota three-cylinder ETVCS water-cooled diesel engine and 20.5 litre fuel tank, offering exceptional power and efficiency for demanding mowing operations. The 1.37m (54in) deck offers great productivity for open spaces and larger lawns. The G26 is simplicity itself for any member of staff. Featuring a single pedal operated HST transmission with a top speed of 17kph, it can travel quickly between mowing sites whilst the hydrostatic power steering optimises performance to reduce fatigue during a long day’s operation.

Joint sponsor, Charterhouse Turf Machinery, has also been providing Grounds Professionals with Redexim maintenance machinery for the last 30 years. Probably best known for its iconic Verti-Drain™ aerator, the company’s range is constantly evolving and expanding to not only offer aerators, but also top dressers, overseeders and scarifiers for natural turf.

Together, they suit the needs of all Greenkeepers from pedestrian units to treat small areas economically, to PTO driven commercial units for larger spaces.

The newest product to come out of the Redexim stable is the Verti-Drain 1517, larger sister to the 1513. It is a high speed Verti-Drain offering increased output to ease busy workloads. With a working width of 1.76M, it can handle depths of up to 50mm (2”), but weighs in at only 520kg so a small tractor from 28hp is man enough to pull it.

It is small enough to find an application on golf courses where it can reduce the need for expensive drainage works and offers uninterrupted year-round play without resorting to temporary greens.
