WESSEX AND SNOWEX AT SALTEx

Whilst the country is bathed in sunshine and enjoying a heatwave it seems hardly the time to be thinking about winter maintenance for snow and ice. Planning ahead however pays dividends and it’s worth looking at the wide range of the SnowEx spreaders that were on show at SALTEx, from the 2300 litre capacity V-Maxx SP-9300 to walk-behind pedestrian models. The versatility of SnowEx spreaders is demonstrated with a trailer mounted SP-8500 and an SP-6000 rigged on a Navara pick-up. The Bulk-Pro and Mini-Pro utility spreaders are ideal for councils, contractors, farmers and estates with the facility to mount them on commercial vehicles, 4x4’s, ATV’s, ATVs, tractors and fork-lifts.

The use of brine solutions for winter maintenance is an increasingly popular practice and many operators are making the switch from salt. The SnowEx VSS liquid de-icers are available in two sizes, the machine being made possible by adding a hand and grass box hop in places of arms. This new grass hopper system has also been extended to the rest of the buffal0 range.

BUFFALO HUNTING AT SALTEx

Atlet Mowers launched their latest Buffalo 345 all-purpose petrol driven cylinder mower at SALTEx. Known as the all-rounder in the Atlet line-up, the heavy duty twin cutters have large diameter cutting cylinders which give them the ability to cut longer grass, even in wet conditions. The new Buffalo 345 sees a range of improvements to a machine developed primarily as a sportsground mower. The engine is now centrally mounted on the chassis, giving the user a better view of the cutting grass. There is a larger diameter front roller to give straighter lines and higher mowing pressure. One handed fitting and removal of the grass box hop in places of arms and grass box hop in places of arms. This new grass hopper system has also been extended to the rest of the buffal0 range.

KUBOTA JOIN FORCES WITH BROWNS AND LISTER WILDER

Kubota teamed up with two of its dealer partners at SALTEx 2013 to demonstrate its market leading and high performance range of tractor and groundcare solutions.

The company joined forces with George Browns and Lister Wilder on stand 1220, giving visitors the opportunity to see Kubota’s extensive range of solutions for the groundcare sector, including some of the latest introductions and innovations for 2013.

New solutions for 2013 that featured on the stand included Kubota’s recently launched RTV400CI utility vehicle and the M6000 wide range tractor. Kubota also displayed a number of its popular compact tractors and ride-on mower solutions at the show.

GROUNDSCARE AT SALTEx

GroundsCare Products, sole UK importers of TurfTec and ZipLevel products, ran live demonstrations of these unique landscape maintenance and survey products.

The TurfTec range consists of:
- Edger/Trencher
- Power Broom
- Rough-cut Mower
- Surface Preparation Rake

Snow Plough – ...powered by the hydrostatically-driven TurfTec walk behind tractor with 13hp Honda engine.

New for this year is the revolutionary ZipLevel high precision survey level for landscapers, civil engineers and the construction industry. Easier to carry, set up and use than a laser or automatic level, the 5x16 level does not need line of sight, and reads out results on a digital display: no maths needed. Also on display was the Rotowash walk-behind, flat surface pressure washer. Now available in two sizes, the machine offers working widths of 530mm (21”) or 2800mm (15”). Model 600 is ideally suited to cleaning large areas such as car parks or multiple tennis courts. Model 400 is more manoeuvrable and easier to use in restricted areas such as domestic patios. Both are supplied with a 9m hose and lance so they can be used as a traditional, static washer if required.

VAST ARRAY OF PRODUCTS FROM CHARTERHOUSE

SALTEx is always a good opportunity to update yourself on what products are available – and there was no better stand to do that than Charterhouse Turf Machinery.

The company has a vast array of equipment to maintain natural surfaces and grass grown synthetic ones. With end of season maintenance in mind turf managers’ attention will turn to aeration, scarifying, top dressing and reseeding of grassed areas or rejuvenating synthetic ones.

On stand was the recently launched Redexim Verti Drill. 15:1 part of the new high speed 15 series that feature lighter weight machines. Suitable for use with a tractor from as little as 20hp, the 15:17 working in at just 50kg but offers a productive 1.76m working width together with a depth of up to 150mm (6”). Alongside were examples from Charterhouse’s extensive range of oversenders, from pedestrian splined units to high capacity disc senders, and the company’s track topdresser line.

Continuing the theme of lighter units, the new Redexim Verti-Top 1200 for synthetic turf maintenance is a physically smaller machine that will be of particular use in more confined spaces. It is a still a high work rate machine, but has a smaller footprint. Where required it can be restricted to use in only 360kg. It has all the features to maintain synthetic turf by removing, cleaning and redistributing the dirt material, but with only the need for a 2hp tractor with a 400kg lift capacity.

TORO LAUNCHES PREMA AT SALTEx

Two mowers, the first for the amenity and landscape sector, and another for golf, headlined the Toro exhibit on the Leihy Partners in Turfcare stand at SALTEx. In addition, Toro launched PREMA – a brand new programme for quality pre-owned Toro turf machinery.

Pride of place on Stand No A05 was the LT3340 heavy-duty triple mower. Designed for high-productivity grass-cutting on jobs from parks and roadside verges to schools and caravan sites, this machine also gives a great finish. Optional all-weather cab and high levels of comfort keep operators working longer. While easy access service areas help reduce running costs and increase productivity.

Next up was the new Toro Reelmaster 3550-D. Weighing in at just 900kgs, Toro claims it’s the lightweight fairway mower on the market, and have dubbed it the lightweight fairway champion. It floats effortlessly over contours without leaving any unwelcome impressions on the turf.  

GI SEPTEMBER 2013

18 SEPTEMBER 2013
WESSEX AND SNOWEX AT SALTEX

The versatility of SnowEx products, sole UK importers of TurfTeq and ZipLevel products, ran live demonstrations of these unique landscape maintenance and survey products. The TurfTeq range consists of:

- Edge/Trencher
- Power Brooms
- Rough-cut Mower
- Surface Preparation Rake
- Snow Plough
- ...all powered by the hydrostatically-driven TurfTeq walk behind tractor with a 13hp Honda engine.

New for this year is the revolutionary ZipLevel high precision survey level for landscapers, civil engineers and the construction industry. Easy to carry, set up and use, a laser or automatic level, the ZipLevel does not need line of sight, and reads out results on a digital display; no maths needed.

VAST ARRAY OF PRODUCTS FROM CHARTERHOUSE

SALTEX is always a good opportunity to update yourself on what products are available - and there was no better stand to do that on than Charterhouse Turf Machinery.

The company has a vast array of equipment to maintain natural surfaces and green synethetic ones. With end of season maintenance in mind turf managers’ attention will turn to aeration, scarifying, top dressing and rejuvenating of grassed areas or redeveloping synthetic ones.

On stand was the recently launched Redexim Verti-Drain, 1517, part of the new high-speed 15 series that feature lighter weight machines. Suitable for use with a tractor from as little as 28hp, the 1517 working width of 530mm (21”) or 380mm (15”) Model 600 is ideally suited to cleaning large areas such as car parks or multiple tennis courts. Model 400 is more manoeuvrable and easier to use in restricted areas such as domestic patios. Both are supplied with a 9m hose and lance so they can be used as a traditional, static washer if required.

KUBOTA JOIN FORCES WITH BROWNS AND LISTER WILDER

Kubota teamed up with two of its dealer partners at SALTEX 2013 to demonstrate its market leading and high performance range of tractor and groundcare solutions.

The company joined forces with George Browns and Lister Wilder on stand D20, giving visitors the opportunity to see Kubota’s extensive range of solutions for the groundcare sector, including some of the latest introductions and innovations for 2013.

New solutions for 2013 that featured on the stand included Kubota’s recently launched RTV400CI utility vehicle and the M6000 wild ride-on tractors. Kubota also displayed a number of its popular compact tractors and ride-on mower solutions at the show.

BUFFALO HUNTING AT SALTEX

Allett Mowers launched their latest Buffalo 345 all-purpose petrol twin cylinder mower at SALTEX. Known as the great all-rounders in the Allett line-up, the robust twin cut mowers have large diameter cutting cylinders which give them the ability to cut longer grass, even in wet conditions.

The new Buffalo 345 sees a range of improvements to a machine developed primarily as a sportsground mower. The engine is now centrally mounted on the chassis, giving the user a better view of the cutting area. There is a larger diameter front roller to give straighter lines and a larger, front mounted fan to give more pressure. One handed fitting and removal of the grass box has been made possible by adding handles and a grass box hoop in place of arms. This new grass box hoop has also been extended to the rest of the Buffalo range.

THE WORLD’S FIRST UTV WITH POWER TAKE OFF

Leading off-road vehicle manufacturer Polaris has announced the BRUTUS range, the world’s first purpose-built side-by-side utility vehicle with front-end Power Take Off.

Based on the Polaris RANGER, BRUTUS comprises three models – BRUTUS HD, BRUTUS HD PTO, and BRUTUS HD PTO. The line was built to be the most versatile, most capable and most comfortable side-by-side utility vehicles ever created, enabling users to complete more tasks without spending more time and energy. The new BRUTUS models are specifically engineered for individuals and businesses that seek durable all-terrain vehicles.

The ability to operate several front-end attachments provides users with new levels of versatility, and ultimately, a cost-effective and more productive work solution.

The Pro-Tach™ attachment system, standard on the BRUTUS HD and BRUTUS HD PTO, delivers the capability to change from one attachment to the next quickly and easily. Creating levels of productivity never before seen in its class, a revolutionary, front-end PTO system on the BRUTUS HD PTO draws power directly from the vehicle’s engine. The high efficiency, mechanical PTO maximizes power to a line of purpose-built, out-front commercial attachments. Featuring in the complete line of attachments are three PTO-powered attachments – angle broom, snow blade, and pallet forks.

“The introduction of the BRUTUS product family is part of our commitment to offer customers innovative and relevant vehicles that best suit their needs.” David Longens, Polaris Vice President, Off-Road Vehicles (ORV) and ORV Engineering said.

“Through our 60 years of engineering experience, strategic alliances with other industry leaders and our incredible network of dealers, we are able to provide the commercial market with the most productive, reliable and versatile vehicles.”

The BRUTUS models offer a 24-horsepower diesel engine with hydrostatic transmission which delivers all the torque and power needed to get the job done. An innovative treadle pedal allows travel in forward or reverse without shifting gear, providing an ideal setup for commercial applications. BRUTUS vehicles provide a class-leading six inches of suspension travel, which combined with On Demand True All Wheel Drive, allows for safe and comfortable transportation of passengers and cargo over virtually any terrain.

BRUTUS models are the first side-by-side utility vehicles that use a multi-link coil over De Dion rear suspension to deliver superior ride quality.

The rear suspension supports a 566.9kg (1,250lb) cargo capacity and minimizes suspension sag when fully loaded.

EXCLUSIVE DJ TURFCARE MACHINES HIT WINDSOR

DJ TURFCARE showed their exclusive range of fine turf, golf and sportsturf machinery on stand K55 at IOG SALTEX.

The PLUGGER BLISS Pro HD aerator features hydrostatic-drive and uses both solid and hollow tines. It is highly maneuverable and is ideal for superior grass maintenance in more difficult areas, being easy to transport and handle. It is particularly useful for large areas of fine turf, and cricket and bowling clubs have found the Plunger invaluable in retaining compacted squares.

The second-generation ATOM EDGER, both professional and domestic, with new Mitsubishi engines – were also on show. They are tougher, easier-to-use and have improved controls.

The Atom Professional Edger Pro 580 is aimed at local authorities for kerb use and the Atom 450 Deluxe is designed for gardeners with large areas of lawn to edge. Also on the stand was the updated ATOM BUNKER EDGER - new celebrating its seventh year as a leading product for the golf industry from the DJ golf and groundcare range. It has a powerful easily-maintained Mitsubishi two-stroke engine.

The BUSHRANGER EDGER (seen for the first time at IOG SALTEX two years ago) made another appearance. Aimed primarily at local authorities and those looking after large landscaped areas, the Bushranger Edger is ideal for producing neat sharp edges, especially up close to raised paving because of the drop-down wheel.

The Pro-Tach™ attachment system, standard on the BRUTUS HD and BRUTUS HD PTO, delivers the capability to change from one attachment to the next quickly and easily. Creating levels of productivity never before seen in its class, a revolutionary, front-end PTO system on the BRUTUS HD PTO draws power directly from the vehicle’s engine. The high efficiency, mechanical PTO maximizes power to a line of purpose-built, out-front commercial attachments. Featuring in the complete line of attachments are three PTO-powered attachments – angle broom, snow blade, and pallet forks.

NEW FROM RJ

Ranomes, Jacobsen returned to SALTEX with a host of new products for both the municipal and golf sectors. The Ipswich-based manufacturer launched the Ranomes Spider Mini II, a smaller version of the unique remote-controlled mower for mowing steep banks.

From the heki brand comes the all-new TJX 8080 and 8100 comprising of models rated at 80 PS and 100 PS respectively. These powerful and versatile workhorse are suitable for landscape and groundcare contractors, farmers and local authorities, where a range of implements can be used for a host of tasks.

Also making debuts at SALTEX were the Turbo Wildspur 1550 top dresser and the Turbo TriWave 40. The 1550 is the most advanced addition to Turbo’s Wildspur family, offering unprecedented control and precision. It has more capacity, is easier to load, has programmable presets, rate calculation and can tackle a wider range of applications. The new TriWave 40 trailed overseeder can be towed behind a utility vehicle, quad bike, barker rake or tractor, providing added versatility and is the easiest to operate of any overseeder on the market.

The Stihl Snow blower 2000 was another SALTEX debutant; this dedicated spray vehicle features an ultra low-profile 757 litre (200 gallon) capacity tank, hydrostatic drive and a liquid-cooled diesel engine.

GLOBAL TURF EQUIPMENT OFFER SUPERCAR PRIZE

Global Turf Equipment (GETE) – the UK branch of the world’s largest independent seller and exporter of pre-owned golf course equipment – offers a supercar experience as a prize at SALTEX.

“We met golf course owners, operators, superintendents and others at SALTEX,” says Jim Sartain, President, GETE. “As we now warehouse and service products in the UK, it’s easier than ever for European courses to take advantage of our exceptional value propositions.”

In addition to receiving the latest company information, visitors to GETE’s stand will be invited to enter a prize draw. One lucky person will win the opportunity to drive a luxury supercar (Lamborghini, Ferrari or Aston Martin) for two hours around a famous track like Silverstone, Goodwood or Thruxton.

If you were unable to stop by the GETE stand you may still enter by sending an email with full name, company name, address and telephone number to Kasey@GlobalTurfEquipment.com before Sunday September 15.

TJM DEBUTS AT SALTEX WITH LELY

A new addition to the leading turf machinery distributor’s portfolio, Lely UK has exhibited TJM tractors at IOG SALTEX for the first time.

On stand K55, as part of its Lely Partners in Turfcare exhibit, which also includes Toro, and Soka outdoor maintenance equipment, Lely displayed a number of TJM tractors.

“The TJM tractors are fast becoming the tractor of choice for golf clubs, sports stadiums, local authorities and landscape contractors,” says Jeff Augugie, turf products national sales manager at Lely UK.
