"Blazon" is a totally water soluble, non-toxic, non-staining colourant which when added to spray solutions indicates at a glance where the operator has or has not sprayed. "Blazon" can be added to the spray solution of insecticides, fungicides, weedkillers, woodkillers, wetting agents, liquid fertilisers and grass growth retardants. "Blazon", when mixed with spray solutions produces a temporary blue/green colour which dissipates by rainfall, dew or even sunlight alone. "Blazon" is safe to use, indicates at a glance blocked spray nozzles and can be easily washed from hands and clothing.

MAXWELL HART Stand No. B111A
612 Reading Road, Winnersh, Berks RG11 5HF
Tel: 0734-785655 Fax: 0734-785805
Contact: Patrick Lilley
Maxwell Hart will be exhibiting a complete new range of liquid fertilizers and soil conditioners - Quantum Flowable, Ferrus Green, Sane 'N' and new from Ireland Abbey Organic. Also on display will be a completely new range of colourants for turf management. Following the launch of Turfmark spray colourant, Maxwell Hart are pleased to release Green Lawnger, Lake Magic and Mulch Magic. A warm welcome awaits you on Stand B111A.

MULTI-CORE AERATORS LTD Stand No. A95A
229 Higher Meadow, Clayton Le Woods, Leyland, Lanes PR5 2RR
Tel/Fax: 0772-451959
Contact: Ian Waddington
The Palmer Multi-Core range of hollow tining machines can be seen at the BIGGA Exhibition at Harrogate on Stand A95A. Multi-Core Aerators Ltd import the whole range of machines and spare parts. We have two sizes of tractor mounted machine, one contractor self-propelled and two pedestrian, one steering and one with front roller in the range. There are a number of different style heads and tines to suit individual needs. The machinery can also be hired, but as this is very popular an early phone call would avoid disappointment.

NATIONAL TURFGRASS COUNCIL Stand No. C41A
9 Ferrands Park Way, Harden, Bingley, West Yorks BD16 1HZ
Tel: 0535-273188
Contact: John Shildrick
The National Turfgrass Council is the national organisation concerned with all outdoor amenity grass and non-grass surfaces used for sport or recreation. We link together 23 Member Organisations, 40 Patrons and a widespread Associate Membership. Our display shows our current activities on behalf of the industry, our forthcoming events, and our range of publications.

NETLON LIMITED Stand No. A65
Kelly Street, Blackburn, Lancs BB2 4PJ
Tel: 0254-262431 Fax: 0254-660008
Contact: Peter Langley
Netlon Advanced Turf Systems provide natural turf with inbuilt resilience, durability and a unique self-cultivating action. The result is turf which not only withstands extensive use but demands less maintenance. Reducing divot size, halving recovery time and resisting soil compaction makes Netlon Advanced Turf ideal for tees and greens. Grasped parking areas and trolley paths also become more hard wearing. The secret is thousands of 100 mm x 50 mm polypropylene mesh elements blended into a selected rootzone medium. These flex during play and maintenance to create voids that ensure that the surface always drains quickly and the turf remains healthy.

OAKLANDS COLLEGE Stand No. C47B
Oaklands Campus, Hatfield Road, St Albans, Herts AL4 0JA
Tel: 0727-50651
Contact: Ian Merrick
The College offers a wide range of training courses for the profes-
sional greenkeeper.

Full-time courses – 1 year course leading to the National Certificate in Greenkeeping and Sports Turf Management.

Part-time courses – Phase 1 and 2 Greenkeeping and Sports Turf Management; Parts 1 and 2 Horticultural Mechanics; Phase IV Business Management.

Short Course Programme – a full range of short one or two day courses designed especially for the greenkeeper. The College also offers a full training and technical consultancy package. For full details of all our courses and services, please write to the Recruitment Secretary.

OTTERBINE AERATORS

3840 Main Road East, Emmaus, Pennsylvania 18049, USA
Tel: 215-965-6018 Fax: 215-965-6050
Contact: Charlie Barebo

Otterbine Aerators can help keep irrigation waters clean. This full-time management tool reduces bottom sludge, algae, aquatic weeds and foul aquatic odours through a process called Aeration. Mechanical aerators pull cold dense bottom waters upward and throw them into the air where they collect atmospheric oxygen. This circulation and oxygenation helps speed biological clean-up process. Mechanical aerators are effective when the stress on the aquatic ecosystem is greatest during calm, still and cloudy days. Otterbine supplies a self-contained compact system with over 100,000 installations throughout the world. Contact Golf Course Services, our exclusive English distributor at 0858-410085 for more details.

PATTISSON & CO LTD

342 Selbourne Road, Luton, Beds LU4 8NU
Tel: 0582-597262
Contact: Peter Dell

On display will be the most up-to-date range of golf course, practice ground, and golf range equipment manufactured in Britain. Pattisson, being Europe’s largest and leading golf accessory distrib-
fessional Sportsturf Design Associates act as Consultant-in-Charge will ensure a high quality, well managed project. Accurate working drawings, tender documents and careful site supervision ensure that you get the best value for money. See Mike Harbridge, John Hacker or Bill Gillespie on Stand A31 to discuss how we can help.

RANSONES SIMS & JEFFERIES LTD ......Stand No.A67
Ransomes Way, Ipswich, Suffolk IP3 9QG
Tel: 0473-270000 Fax: 0473-270032
Contact: Richard Bishop
Ransomes position as a world leader in the production of grass cutting and turf care machinery will be illustrated at the exhibition, where the company will be showing a range of machines. The recently launched Greenspro 56, a highly sophisticated machine designed for precision cutting of fine turf, will be alongside the GT classic which has been developed from the popular Greens Triple Mower and offers high standards of finish with precise hand operated hydraulic controls and a choice of cutting units. Also on show will be one of a range of sweepers available from Ransomes. The Ransomes 250 Pedestrian Sweeper, with three brushes and a sweeping width of 30ins (76cm) will pick up leaves, grass, litter and cores from all areas of the golf course. Also on show will be a three wheel diesel Cushman Turf Truckster, the multi purpose system vehicle available with a range of attachments for all aspects of turf care.

RHONE-POULENC ENVIRONMENTAL PRODUCTS ................................Stand No. A15
Regent House, Hubert Road, Brentwood, Essex CM14 4TZ
Tel: 0277-261414 Fax: 0277-260621
Contact: Sion Price
Rhone-Poulec Environnemental Products has a lot on show at BTME '92 on stand A15. TWISTER is a carbaryl product giving fast control of worms, and is recommended for use on all turf areas. CAST-AWAY PLUS, an established worm and leatherjacket control product is now also available as a CDA formulation. CDA CAST-AWAY PLUS gives an effective answer to the problem of casting worms at a total spray volume of only 10L/Ha. The extensive range of CDA products available from Rhone-Poulec now totals seven including fungicides, selective herbicides, total herbicides and of course an insecticide/wormkiller. Following the development of a novel bleed valve system, the blue LANCELOT CDA lance can now be used to apply the range of CDA products directly from the bottles in which they are supplied. DATACHEM is a computer software programme to aid the amenity sprayer operator. Calibrations, costings, product volume requirements, conversions, data storage, legislative information and much, much more! Come and see all the beneficial features of DATACHEM for yourself.

RIGBY TAYLOR LIMITED .............Stand No. A97
Rigby Taylor House, Garside Street, Bolton, Lancs BL1 4AE
Tel: 0204-394888 Fax: 0204-385276
Contact: Clive Williams
Rigby Taylor will be featuring a product which is proving invaluable to all those involved in the management of sports turf and amenity grassland areas. Mascot Absorb 500 flowable charcoal de-activator can be used to de-activate hydraulic fluid, petroleum product and pesticide spills. It is your insurance against spills and over-application of pesticides, and can be applied to turf areas that have been treated with herbicides, whenever re-seeding is needed earlier than planned. When early germination and grass cover is needed, Absorb 500 can enhance the germination of seed and is also suitable for sprayer cleaning after pesticide use. Visit the Rigby Taylor stand to see another new product!

ROLAWN (TURF GROWERS) LTD............Stand No. A61
Elvington, York YO4 5AR
Tel: 0904-608661 Fax: 0904-608272
Contact: Rachel Semlyen
Rolawn supplies hundreds of golf courses in the UK and exports to Europe and Ireland. A unique background of research and development has resulted in turf specifically for the golf course of today, supplied throughout the year from local depots or from our headquarters.
ROLAWN ADVANTAGE – grown from exclusive seed mix, Poa free and closer mown to come into play early (within weeks depending on time of year).
ROLAWN SELECT – a fine, non-ryegrass turf for budget greens, surrounds
ROLAWN OLYMPIC – well-known for tees.
ROLAWN MEDALLION – our most popular landscaping turf for hard-wearing tees.
NEW on the stand: FREE LOAN of Laying Equipment for turf cut in BIG ROLLS. See it and try it!

RUFFORD TOP DRESS SUPPLIES LTD ...Stand No. A91
Acton Grange Quarry, Birchwood Lane, Moore, Warrington WA4 6XE
Tel: 0925-232476 Fax: 0925-574004
Contact: Peter Jefford
Rufford Topdress Supplies Ltd are leaders in the field of supplying golf courses and sportsgrounds throughout the U.K. with a superior range of topdressings and construction rootzone mixes. All Ruffords materials are produced from their own quarries. Working closely with prominent soil scientists and agronomists has enabled Rufford Topdress to set very high standards within the industry. A warm welcome awaits old and new customers.

SAKER LEISURE LIMITED .................Stand No. A81
Unit 42, Weston Industrial Estate, Honeybourne, Evesham, Worcs WR11 5QB

Irrigation System Service

For the installation, maintenance and repair or irrigation systems on golf courses, bowling greens, tennis courts and any playing areas, farms and garden sites.

Unit 18, Camphill Close, Dallamires Lane, Ripon, N. Yorks HG4 1TT
Tel: (0765) 602175. Fax: (0765) 603488. Directors: Eddie and Linda Simms

Suppliers of galvanised PVC and polythene pipes and fittings, valves, pumps, agricultural and pop-up sprinklers and associated equipment.

Area dealer for
Troubled waters?

**Otterbine Aerators**
The prescription for troubled breathing, poor circulation, and changing temperatures in ponds and lakes is practical engineering that is esthetically pleasing.

These aerators range in power, circulating from 600,000 to 20 million gallons of water in a 24-hour period. Each complete, turnkey system is delivered fully assembled; no special pumps or foundations are required.

Striking patterns begin with the Starburst, Rocket, Sunburst, Constellation, or Phoenix working alone or mingled together. Add the Otterbine Fountain Glo™ lighting system for spectacular evening display as well as security or the Rock Float Cover for the illusion of natural spray.

Otterbine Aerators meet the water management needs of golf courses, parks, recreational lakes, office developments, and residential condominiums. Call or write for more information:

Supaturf will launch their new reformulated spreadable soil wetting agent - Aqua-Gro 20:S, a more concentrated product that costs less to use. Restructured and with a higher active content, Aqua-Gro 20:S now offers a spreadable Aqua-Gro as effective as Aqua-Gro liquid at equivalent rates, with the added convenience of applying through a spreader, or by hand for spot treatment. The product is supplied in easy open weatherproof 20kg bags. View also the Aqua-Gro Advantage system, using Aqua-Gro in a pellet form through a conventional hosepipe, and Cyto-Tuf, a solution for the treatment of thatch and the promotion of healthy growth in turf, greens and tees.

TILLYERS ................................................................ Stand No. C79
Castlethorpe, Brigg, South Humberside
Tel: 0522-650555 Fax: 0522-650064
Contact: Tim Fell
Tillers Fibreturf are major suppliers of top quality turfcare products to golf courses. They will be demonstrating their fibre-positioning system, which when used in conjunction with the built-in spirit level enables quick and easy installation and the ability to re-site the machine without worry. Supreme Mowing claim to provide a machine to suit every size of operation, with the facility to upgrade the machine as needs dictate.

TORO IRRIGATION LTD (UK) ................................ Stand No. A53
Unit 7 Millstream Trading Estate, Ringwood, Hants BH24 3SD
Tel: 0425-476261 Fax: 0425-472380
Contact: Peter Roberts
Main attraction for greenkeepers on the Toro Irrigation stand at Harrogate will be the new Network LTC golf course irrigation control system. Designed especially with Europe in mind, Network LTC software uses everyday irrigation terminology, can be programmed in metric or imperial and can speak six languages — including English! Not only does Network LTC provide step-by-step, on-screen operating messages, its point-and-shoot mouse reduces key board operating to a minimum. In addition to controllers, the full range of Toro gear driven pop up sprinklers — headed by the new 730 Golf Head — will be displayed.

LELY (UK) LTD ..................................................... Stand No. A15
Station Road, St Neots, Huntingdon, Cambs PE19 1QH
Tel: 0480-76971 Fax: 0480-216167
Contact: David Boothby
Toro Commercial Products will be exhibiting 2 exciting new models for the 1992 season. The proven Reelmaster 216 is now powered by a 16 hp three cylinder water cooled diesel engine to
provide ample power for all mowing conditions. Key improvements include faster transport speed and better engine access for serviceability along with increased fuel capacity and operating economy. An addition to the greenmaster range is the new lightweight GR3100 which features a patented hydraulic oil leak detection system. Other features are power steering and adjustable steering arm which combined with Toro’s excellent quality of cut make the Greenmaster range the leader in greens mowing.

TURFCARE

98 Durham Road, Leadgate, Consett, Co. Durham DH8 7RB
Tel: 0209-505837. Contact: Terry Charlton
Exhibiting for the first time Turfcare will be showing some products including the TOURNAMENT range of top dressings. These superb dressings feature the highly rated new Platt Wood sands and they will complement the TURFCARE TOURNAMENT range of fertilizers and grass seeds. The stand will also display the range of BOYD golf course accessories. The ergonomic ELETE hole cutter in conjunction with BOYD hole cups and the unique puller setter trimmer make the chore of changing the holes a pleasure. Ask for a demonstration on your own course. The staff of TURFCARE will be pleased to discuss vertidraining Coremaster hollowtowing with customers old and new.

TURFMACHINERY LTD

Butts Farm, Great Haywood, Staffs ST18 0TF
Tel: 0889-881611 Fax: 0889-882819. Contact: Clive Carter
Turfmach will be showing for the first time in the U.K. the new 1 metre Rotadora- lizr Soil finisher and stone burier. This new addition to the Turfmach machine range gives the 18 hp compact tractor operator the ultimate seedbed preparation tool. By burning stones, clods and surface debris, and placing the fine soil particles on the surface, the new RD130 leaves an unbelievably fine level seedbed in one pass. Turfmach staff will also be available to discuss other machines from their range of debris vacuums and blowers, high capacity tri fin tri-deck rotary mowers, and their unique fairway scarification service.

UNIVERSAL MATERIALS

5/7 High Street, Dorchester-on-Thames, Oxon OX9 8HH
Tel: 0865-341580 Fax: 0865-341575. Contact: Geoff Russell
We are showing the original and only authentic AstroTurf golf mat which is ideal for use on both golf courses and ranges. The easy Picker Range Ball Harvesters and Washers have unquestionably proved their reliability and performance and remain outstanding value. Midgley Nicholls Ball Dispensers, manufactured in Britain by Heritage Fairway, are designed in modular form which allows customers to add on as demand grows for extra capacity. Fully programmable electronic coin mechanisms allow for flexible pricing with any denomination of coin or token. The Club Car Carryall vehicle is a general purpose, petrol driven utility vehicle available with a number of optional extras and is an ideal power source for the Easy Picker Range Ball Harvester.

VITAX

Owen Street, Coalville, Leicester LE6 2DE
Tel: 0530-51-60 Fax: 0530-510299. Contact: Trevor Holmes
VITAX Gro-Cover has proved to be the ideal product for today’s turf manager, whether it is used to cover newly seeded or oversown areas of sport and amenity grass, where it has been proved to increase the speed and percentage of germination by 4 to 7 days, or regenerate growth on golf course walkways or other areas of stressed existing grass. Two new sizes of Gro-Cover are now available. Featured alongside Gro-Cover will be Vitax Weedblock, a highly porous landscape mulch fabric, plus the full range of Vitax Sport Amenity Chemicals and Key Range fertilisers.

WATERMATION

Tel: 0759-304101 Fax: 0759-305229
WATERMATION Stand No. B59A
Tongham Road, Aldershot, Hants GU12 4AA
Tel: 0252-336838 Fax: 0252-336808
Contact: Eileen Hawthorn
Watermation – Remote Control Watering. Don’t miss the opportunity to see the new Watermation Remote Control. This clever piece of equipment is a handset the size of an average portable telephone, capable of turning the TW2 controller on and off at any given location on the course. This gives greenkeepers the opportunity to observe and run the irrigation at any station and at any distance, without interfering with the pre-set programme – something wanted by greenkeepers for a long time. Two other new innovations for Watermation are the Aquaterr soil moisture meter. This gives an accurate reading of the irrigation penetration, and the Aqua-Master range of beautiful aerators and pumps.

WIEDENMANN (UK) LTD

Enjoy the show!

The annual BIGGA Turf Management Exhibition is recognised as the premier exhibition for the fine turf industries and forms part of BIGGA's defined role to assist and encourage its members. Together with the Educational Seminar Programme, the January event forms part of an unbeatable package for greenkeepers and everyone associated with the industry. Other major events include the National Education Conference, the National Tournament and a key role in the prestigious Open Championship. You can join the Association as a Greenkeeper member or as a Company or Associate member. See the postcard in this magazine for more details, or chat to BIGGA staff on Stand C27 at the BTME. Join BIGGA - and grow with us into 1992 and beyond.

Join BIGGA - and grow with us into 1992 and beyond.
Think Fertilizer, Think

All 'Longlife' products are organic based mini-granular fertilizers. As a result the granules do not stay on the surface for weeks, but breakdown within a few days, so reducing the risk of scorch and mower pick up. They are all true compounds and not blended fertilizers, each granule containing the desired spread of nutrients so that speckling, which can occur with blends, is prevented.

All the Fine Turf and Sports Turf fertilizers contain seaweed extract to provide a source of trace elements. Six of the products also contain the unique ingredient DIDIN. This reduces the growth flush and gives a controlled release of nitrogen, thus extending the grass feeding period from one application. DIDIN has the added benefit of reducing nitrate leaching.

The use of 'Longlife' fertilizers should be considered an integral part of any turf management programme, giving effective results at a very reasonable cost.

Simply drop the packets into the solution. Packets dissolve quickly and completely!

Turf Mark® is the professional's way to apply liquid pesticides and fertilizers. Turf Mark shows you exactly where you've sprayed. The distinctive blue color helps to eliminate skips and overlaps, saving you time and money.

Now Turf Mark is available in convenient, water soluble packets. Turf Mark WSP is a dry flowable formulation of liquid Turf Mark. It is the most convenient and easy-to-use blue spray pattern indicator available. Turf Mark WSP dissolves quickly and completely in the spray tank, leaving no residue to clog screens or nozzles. With Turf Mark WSP, you virtually eliminate applicator contact, container disposal, mixing and handling problems. It is completely compatible with liquid pesticides and fertilizers. And, it cleans up easily from equipment.
