'How often sharpening is required depends on several factors, such as the amount of sand on the leaf, weather, cylinder adjustment, volume of work and the greenkeeper's definition of a good clean cut'

way it will be cut true, sharpened in or out of frame, if they are not. Not all cylinder grinders can undertake in-frame grinding easily, if at all.

The argument on grinding bottom blades is not the same, and of course they have to be removed, nevertheless the frame and stiffener must be seen as an integral part of the blade with 'trueness' applied to the complete unit.

So what is the place of backlapping? Firstly, it is the cheapest, simplest and perhaps quickest means of sharpening a cylinder mower on most golf courses - using grinding paste and running the cylinder in reverse and many courses do it as a weekly routine. What this does is shown in exaggerated form in diagram 3, with both cylinder and bottom blades being 'sharpened' to produce an extended metal-to-metal contact area, and a considerably greater power demand. Obviously no greenkeeper would let his machines get to this state. Best practice must be to use backlapping for no more than honing the shear edges, using no more pressure and paste than are necessary. This way there should be little difference between the life of a bottom blade whether it is backlapped or ground, however in practice backlapped edges with greater contact area, and often greater pressure, generate heat and distortion and so become blunt faster - and a vicious circle starts.

Some courses seldom backlap but rely on regular grinds, for them grinding particular pedestrian mowers is quicker and easier than backlapping. How often sharpening is required depends on several factors, such as the amount of sand on the leaf, weather, cylinder adjustment, volume of work and the greenkeeper's definition of a good clean cut. The advent of hydraulic cylinder drives has been a major spur to backlapping, but it has also led to considerable abuse - simply because it is too easy to do, not that manufacturers complain, it leads to extra blade sales. Some machines have a special backlapping facility giving high torque at a slower speed, not just simple reverse drive.

Another disagreement between makers is over whether it is best to adjust the cylinder to the bottom blade or blade to cylinder, and how to do this. While there are significant differences in theory, in practice this is minimised as the all-important adjustment is height - in essence the relationship between the rollers and bottom blade. More important in practice may well be the ease of removing or changing the cylinder - and resetting it. The form of adjusting also has a theoretical effect on relief angles, for instance where either cylinder or bottom blade pivot, however few if anyone takes note of this although it can make several degrees of difference.

As to the economics of grinding, this is complicated by the circumstances of each club, the sharpness demanded, the abrasiveness of the soil on the grass, the number and type of equipment used and staffing. However with sharpening required probably at least twice a year and costing say £2 per inch, and most golf courses having at least 400 inches of cut, then sending mowing cylinders off-site is likely to cost over £800 a year. Additional factors include the cost of having spare machines while others are off-site being sharpened, possible reduced bottom blade wear and perhaps improved overall sharpness. Having spoken to several greenkeepers who do their own sharpening, the suggestion is that the repayment period is only two or three years, shorter than they first envisaged, while the service and sharpness is significantly better. Of course these clubs have a full-time mechanic - and this puts an additional dimension on the argument.

---

MAKE PEACE WITH YOUR GREENKEEPER...

Order an Atterton for him this season.

He worried the life out of all the committee members and kept on complaining about sending out his cylinders for grinding.

He told everyone about the attributes of an Atterton grinder, how you can grind in-situ with the cutter unit still in the machine.

How you can grind the cylinder separately when the machine's stripped down for maintenance.

How there's a new model out with a relief grinding attachment and an electric drive lifting platform to get those heavy old gang units up onto the grinding table.

How there's a bottom blade grinder that made the ideal pair and how the pair of them would enable him to keep his cutter units and the course in tip top condition.

How they're both the best in the business and he wanted 'em bad!

We made peace with our greenkeeper - do the same and you'll see how an Atterton reduces service account costs and provides real benefits to your greenkeeper and the course!

**Around the Green**

Keeping in touch with news and comment from the regions

**MID ANGLIA**

Next month sees our first golf fixture of the year at Rosston Golf Club, April 25. This will be, as normal, the qualifying event for the Hayter-Beaver competition. Entries should be sent on the appropriate form to our new fixtures secretary, Richard Saunders, and not to Chris Brook. Richard’s address is 55 Leys Road, St Neots, Huntingdon, Cambs PE19 1EP. Please enclose a cheque for £20.

Six people attended our all-day safe-lifting course at the Family Golf Centre. Several people turned up in the afternoon, as they thought it was the usual format of an afternoon talk. Our apologies to these people, as it was not shown in the fixture card that it was an all-day course. Next year we will try to get more details of events in the fixture card so this does not happen again.

The National Education Conference at Harrogate was a complete success, with varied topics and good speakers, particularly from overseas, ie America and Sweden. The show itself went well although it was disappointing to learn that the English Golf Union is backing an alternative event to be held in London. The general feeling among greenkeepers is one of complete support for the existing event at Harrogate. It was great once again to see so many representatives of the Mid Anglia Section attending, although we could have had a bit more support during the snowball fight which took place at 2am on the Thursday morning against the London section.

**PAUL LOCKETT**

**EAST OF ENGLAND**

Our fixture list for 1995 is nearly complete, and looks like this:

- May 18 – PGM Trophy at Elton Furze GC; June 6 – Purdeys Trophy/Hayter qualifier at Sandlands GC; August 23 – Rigby Taylor Trophy at Carbolime GC; September 28 – Lamb Trophy/Rhône-Poulenc Prize at Spaldings GC; October 10 – Secretaries Association v BIGGA East of England at Sleaford.

Our winter education seminar at Kenwick Park (Louth) was given by John Hacker of PSD Agronomy Ltd. This first-class talk on grasses, irrigation and course presentation was enjoyed by all who attended. I expected about ten to 12 members if we were lucky, but in fact 30 attended (not bad for our small section). Our thanks go to Kenwick Park and Ian Morton for allowing us the use of the club facilities.

I heard recently Don Dykes of Carholme GC in Lincoln is to retire in June after 25 years at the club. I am sure he will be missed, but I hope he can attend our days out, especially the golfing day at Carholme in August.

**GRAEME MACDONALD**

**SOUTH WEST AND WALES REGION**

What a winter wonderland our trip to the BTME at Harrogate turned out to be. We started off in dry weather conditions which was a pleasant change for our part of the world, even the sun shone in places. After one initial hiccup where

our friends from the farthest point south nearly missed the coach – through no fault of their own, I might add – we sallied up to the Fatherland, one minute’s silence was respected. For the first evening, the Leeds v QPR match was on the agenda, and this set the tone for the week when Leeds won 4-0.

What an exhibition! Better than ever and that’s hard to imagine. There is an incredible, almost family atmosphere at Harrogate. Viscount Whitelaw made a point of hoping that it would continue, and that BIGGA was good for golf and golf clubs. The turnout was excellent, and the organisers made sure of continued attendance by having all roads leading from the town closed – due to adverse weather conditions, they said. Seriously though, we were snowed in and could possibly have been home sometime in February.

The seminar programme was the only area which many felt could be improved. It was suggested that maybe we should have the National Education Conference and the exhibition as one, and return to workshops on Monday and Tuesday. This would improve the quality of the seminars even more.

Nothing however could dampen the enthusiasm on the journey home, not even drifting snow and rain. All the talk was about the trip for 1996, a gratifying feeling for those who organise it all. Let us know if you would like to come with us. Get your name down on our list now.

This trip and the conditions for some greenkeepers was a new experience, so please book early.

**KIM BLAKE**

**SOUTH WALES**

The Pyle & Kenfig GC played host, as is the norm now, to our winter competition and AGM. Although numbers were down on last year, some 40 hardened golfers braved the windy, icy-cold conditions to play over the course as they have never seen it before. For the Pyle & Kenfig GC have recently purchased the leases on the land surrounding the course and this has now allowed them (in case you hadn’t noticed) to remove all of the fences that have kept the greens guarded so well for so long against both sheep and cattle. An enormous difference and a great improvement, congratulations!

Congratulations also go to Paul Robinson and his merry team for the condition of the course. It was so refreshing to see so many new members and so many members present from Dyfed. In fact it was the new members who took the honours: Winner of the winter competition and Vitax Shield – John Borgia from the Vale of Glamorgan GC; 2, Graham Lowe of Glym Abbey GC; 3, David Gladwin from Carmarthen GC; longest drive – Huw Thomas, formerly of Pontardawe GC; nearest the pin – Gervyn Price, who seems to be on a roll for he also recently won £600 worth of holiday vouchers in a BIGGA competition.

Our AGM followed the golf and attracted 50 members. The meeting went relatively smoothly taking only 50 minutes and for this we have to thank our chairman, Idwal Morris. New officers are Douge Donne and David Ward who replace the retiring Dennis Archer and Les Hallett.

Our sincere thanks to all at the Pyle & Kenfig GC for allowing us courtesy of the course for this annual event, but especially their captain, Glyn Charles for his kind words during his presentations, Roger Thomas, the secretary, and Don Booth, the chairman whose company I sincerely enjoyed throughout the whole day. I would also like to thank Pat Coombes and her catering staff for what can only be described as a superb Christmas dinner and, most importantly, our sponsors. Our main sponsors were Vitax with Celtic Mowers sponsoring the longest drive and nearest the pin competitions.

There was a good attendance of over 30 for health and safety adviser Richard Monk’s lecture.
At Pencoed College. His paper outlining recent updates in the Health and Safety at Work Act provided a good, informative evening for all.

Congratulations are in order, firstly to Mr and Mrs Malcolm Rees, owner of Power Cut of Car- 

January 23. We wish him well with his new 

of Pontardawe GC, on his appointment as sales 

keeper of Pontardawe. Well done!

It is with great sadness that I have to inform you of two tragic events. On January 8 John 

was only 20, a student at Pencoed 

house. He was only 20, a student at Pencoed 

Season's fixture card. sponsored by Tacit. If you haven't or need 

Bucks, Berks and Oxon

Firstly my apologies for the lack of reports during 

January and February, but the section was 

fairly quiet and there was no juicy gossip to 

write about.

The opening event that did take place was the Turkey Trot, followed by the AGM. This 

was held at Mapledurham GC near Reading. The 

format, again, was a Texas scramble. Results: 1, G 

Walsh, R Lucas, A Cooper; 2, D Childs, D Good- 

child, T French; 3, P Reeve, G Patient, B Wall. 

Thanks to Lachlan Morrison and staff for preparing 

the course under difficult weather conditions. 

Thanks also to the catering staff for a 

splendid meal afterwards.

Two football matches have taken place recently - and once again Berks beat Bucks (6-5) with man of the match Chris Saunders scoring a hat-trick. In the second match Berks/Bucks greenkeepers beat Ellesborough golfers (7-4). Poor old Dale Childs got knobbled and had to come off. Apparently the team played better with Dave sidelined! Man of the match was 

Gareth Austin (a rock at the back). Once again anybody wanting to represent Oxon phone me 

on 01494 457120.

The next golfing event is the Spring Tournament at Beaconsfield GC on April 5. This is an 18-hole event to be played in the afternoon. It is also the Hayter qualifier so there is lots to play for. The invitations will be posted along with the season’s fixture card.

Peter Lacey

South west

Having just returned from the 1995 BTME at Harrogate, I would like to say that what we 

welcome this appointment and look forward to closer ties between the SGU and BIGGA, which 

can only be good for all.

Harrogate '95 was a great event as ever. This was my first National Education Conference and I would certainly attend again, but the general feeling from the section is a return to the workshops next year. The exhibition was first-class and the seminars very enlightening. As to my own talk, it was fine for me, how was it for you? One of my highlights of the week, apart from meeting old friends, was the hastily arranged 'Burns Night' on the Wednesday. Next year I will bring my kilt if there is a repeat. Thanks to Cecil, Jimmy and Harry for their organisation at such 

short notice. Thanks also to the FA Premier 

League for arranging a Leeds home game during the week so that I could take a few lads along to see my idols! Roll on next year!

Finally, I know of two or three qualified greenkeepers looking for employment, so if any-

one has a vacancy they should get in touch with me on 01862 894402 and I will pass 

the information. These are lads who, at the time of writing, are out of work after finishing their college education.

Iain Macleod

North west england

The BTME at Harrogate was once again a great success with all the halls full to capacity with 

exhibitors. It is hoped that the companies which exhibit at Harrogate will continue to do so in 

future. The EGU, it appears, will be supporting the P&O show at Olympia in 1996, after a 

change of mind, but this does not necessarily mean that others will follow suit. Speaking to 

many companies at Harrogate, they feel that BTME has a personal touch that does not exist 

anywhere else, and I totally agree.

Whilst at BTME I met Andy Peel, a former 

N/W section member who moved to Bull Bay 

GC in Anglesey, and he asked me to inform his old mates that he now has a son, William, 

born November 22. Congratulations to Andy and 

Sarah.

Chris Haspel is returning to greenkeeping this 

month. Chris, who has worked for Richard 

Campey for the last couple of years after leaving 

Oaklands GC, is moving to an 18-hole golf 

course in Denmark as head greenkeeper and 

his wife Kay will also be involved with the business 

organising golf holiday packages etc. Good luck 

in your new venture.

This year's regional seminar will be at The 

Tytherington Club on Thursday March 16, so if you have forgotten please ring me and I will 

fit you in.

The Spring Tournament is at Wilmslow GC on 

Thursday April 13. This tournament is also a 

qualifier for the Hayter Regional Final. Entries, 

including £10 deposit, must be in by Saturday 

April 8. Send them to: Paul Pears, 1 Swan 

Close, Poynton, Stockport, Cheshire SK12 1HX. 

Proper dress is essential both on the course and 

in the clubhouse. The N/W v N/Wales clash of the 

titans is at Northop GC on Tuesday May 2, 

tee-off 1.30pm. I require a team dedicated to winning (and enjoying a good day out), so if you fit the 

description ring me on 0151 7246121.

Bert Cross

Cleveland

The new 9-hole course at Hallthorpe Golf and 

Country Club near Darlington opens for play on
May 15. This pay and play course will be open to everyone. By the time it opens £200,000 will have been spent on it. New tees have been added, three greens have been relaid, six bunkers have been added, and the lake around the 5th enhanced. A new drainage system has also been installed because the potential for flooding.

Welcome to new member John Ball from Castle Eden GC. Two new committee members are Ian Pemberton of Bedale GC and Chris Fiddell of Billingham GC. Middleborough Municipal have obtained BSS750. Congratulations to Ian Holloran and his team.

The quiz between Cleveland BIGGA and Teeside IG at Durham was excellent, resulting in a good win by Cleveland led by Kevin Heslop from Brancscept GC. Thanks to Terry Charlton and Barry Glennell and all the staff from sponsors Turfcare of Leadgate, Co Durham.

The Spring Tournament at Wearside GC, Sunderland, is on April 27.

BRUCE BURNELL

LONDON

I would like to thank the GTC for organising the effective speaking course that was held at Porters Park GC. The two-day course was conducted by Frank Newberry and was extremely informative and enjoyable. I would like to thank Frank for all his help and congratulate Jim Cassidy for his presentation at this year's BTME. It was evident that Jim had understood Frank's training concepts and it was a pleasure to see Jim (The Axeman) perform so well. It was nice to see such a good turnout from the London Section at this year's show. The quality of speakers at the conference was excellent and the evening entertainment was equally good. The weather turned very cold midweek and the heavy snow that fell caused quite a few problems for the town centre. The main one being no taxis to the nightclubs! The music pumped well into the early hours at Jimmies Bar and was the haunt for many a greenkeeper. A good snowball fight occurred after the Wednesday night visit and I don't know if the London Section beat the Mid-Anglia Section, so it will have to be decided at this year's annual golf team event.

The week was excellent and the company even better so make a date for next year and I will hope to see you all there.

Finally, I would like to say that all the golf venues for 1995 have been set and we are looking forward now to 1996 and 97. If anyone can help in finding a venue, then please contact Don Wilson on 0131 4490541.

TONY DUNSTAN

SURREY

Firstly, a thank-you to Ian Kerry from the Surrey section for supplying one of their engineers for our section semi-final held once again at the superb venue of Fingle Glen. Only a dozen members took to the course for the morning's Zeneca Challenge competition which was played over the well prepared 9-hole course.

As usual, the trade supported the section by taking up stands in the reception area which proved very successful once again. Our thanks to Avoncrop, Barenburg, Devon Garden Machinery, Fisons, PJ Flegg, MST, Rigby Taylor, Roffeys, Vitax and Willcocks for taking trade stands.

After an excellent lunch, Richard Minton of Zeneca presented the golf prizes to: T Gooch (Toringdon) 21pts; C Rawlings (Padbrook) 19pts; E Barber (Teign Valley) 16pts.

Our afternoon seminar was held in the Zeneca sponsored conference room, with members being treated to two excellent papers – Jim Arthur on 'Grass Identification' and Jenny Rolfp on 'Dealing with pressure at work'. Question time finished the afternoon programme which was of great educational value to all who attended. Our thanks to Jim Arthur and Jenny Rolfp for their papers, to Bill Pile, Fingle's course manager, and his staff who made our day so successful, and to Zeneca and the other companies which sponsored the day.

On behalf of all the section members who took advantage of this year's regional package to BTME at Harrogate, I would like to thank Gordon and Marion Child for once again organising a superb educational trip. I would like to hear your views on the package you would like to see the range arrange for next year.

Members, please note our last meeting of the season will be held at Mullion on Wednesday March 22. This will also be our Hayter qualifier so please make sure your entries are returned to me with correct monies by the closing date.

Your help is needed to promote this year's Westurf Trade Show on Wednesday April 26 at Long Ashton GC, Bristol. Many of you will know groundsmen and committee members of your local sports clubs, so why not invite them to the show? Anyone in the turf care industry will be most welcome. We also need your support at Westurf so I look forward to meeting you all on our stand.

RICHARD WHYMAN

AYRSHIRE

Our AGM saw the end of Derek Wilson's two-year reign as chairman. Derek reflected on the continuing rise in our membership and the renewed interest in attending not only the golf outings but also other aspects of section business such as the STRI day at Ayr College and the AGM. He then invited new chairman Ian McNab from Dunfries and County GC to take over the chair. Ian thanked Derek on behalf of the section for his efforts of the past two years, then spoke about his hopes for his term of office, particularly in the field of more training lectures during the winter and better communication with our members within our very spread-out area.

We had a tenpin bowling night at Saltcoats for the Christmas get-together and although the turnout wasn't what we hoped for, everyone enjoyed it. The winner was Ian, just scraping home from Harry 'What are these holes for?' Diamond, with several others just behind. This was great entertainment, with fabulous prizes, so don't miss the next one.

An excellent turnout of over 70 greenkeepers and club officials attended our STRI day at Ayr College and certainly got their money's worth as the talks were well presented, informative, and sometimes contentious, which certainly got the audience flowing. Although not agreeing with many of the points made by the speakers, it still made for a very good day.

I've just returned from the BTME and, as usual, thoroughly enjoyed it, with the only reservation being the lack of choice at the meals on Sunday and Monday nights. Thanks again though to all those involved in the organisation and here's hoping it continues for many years to come.

Our spring outing this year is a first-time visit to Kestor, a short drive from Trenance and a 18-hole parkland course on the Salway Firth with some great views if you're not playing well. Details will be out shortly, so let's have a good turnout.

DUNCAN GRAY

NORTHERN REGION

Having just returned from Harrogate, I would like to take this opportunity to thank everyone from the Northern Region for their help on the regional stand and also door duty. Special mention must be given to David Milbourn, Andy Smith and Mick Hannam who 'mucked in' when I was struggling to find staff due to the weather.

The regional stand proved very popular as a meeting point and also for our patrons to meet members. It was also good to see David Hannam over from Switzerland and Alan 'Lofty' Lofthouse who is returning from exile to work at Fisby.

International relations were also fostered with the presentation of a flag from the Swedish Greenkeepers Association and also an approach from the Ontario Greenkeepers Association who are seeking to twin with our region.

Once again BTME was an excellent and very well-attended show (especially considering the weather). I look forward to seeing everyone again for many years to come in HARROGATE!

BOB LUPTON

NORTHERN SECTION

The Spring Tournament is our first golf competition of the year and is also the Hayter qualifier. Any member wishing to take part should contact me as soon as possible as numbers are limited. To all new members wishing to take part it will be held at Hessel GC on April 12.

One of our sponsors, Rhône-Poulenc, has told me it will be providing fleecy jackets as nearest-the-pin prizes for all our tournaments this year. Our thanks to them.

I would like to congratulate Pat Murphy on his 25 years' service at Shipley GC. I hope they appreciate your hard work over the years!

Together, we're building a great future for golf club, greenkeeper and game

For details of how you can support the Education and Development Fund, contact BIGGA at Aldwark Manor, Aldwark, Aline, York Y06 2NE.
Telephone: 0347 838881 Fax: 0347 838864

★ Remember: BIGGA now accepts credit cards - the convenient way to pay membership subscriptions or to buy BIGGA merchandise
moved from his post at Brough and taken up his new job with Turf Grass Services International, the position of section correspondent has fallen to yours truly and I will try to keep members up to date with all section news. If any member has any information they want mentioning please contact me on 01405 765322. We at the Sheffield section wish Ian all the very best and thank him for all his work on the committee in the past.

At our February meeting members had the pleasure of having Neil Thomas, executive director, give a very interesting talk on BTME and the Association in the past seven years and hopes for the future. The education officer, Ken Richardson, talked about the Master Greenkeeper Certificate, Zeneca and Toro awards, BIGGA videos, the library, management courses and the N/SVQs. The attendance was quite good but could have been better.

I have spent a lot of time arranging speakers for lectures next year and have got some excellent people lined up, ie Jon Allbutt, Nick Bissett, Duncan McGilvray, John Hacker and Inturf. All the committee asks is that members support these lectures.

Congratulations go to Robert Needham on his appointment as head greenkeeper of Hickleish GC in the Lothian section. Other new members include Paul Bentley (Dere House), Willy Holden has taken early retirement. From Foxton Hall to Almouth Village GC, where I was head greenkeeper, but diligent detective work and a nose for a good ale enabled me to find the Pump Room. I shall refrain from mentioning any incidents directly but suffice it to say the scope for bribery is enormous, especially amongst those hardy members, both greenkeepers and trade alike.

On a more serious note, I thought that the exhibition was excellent being well supported by both greenkeepers and trade alike. Let's hope that it can continue as an independent entity.

I have not as yet received any details of either future BIGGA events or news from around the region and so it only remains for me to wish everybody well with the current inclement weather and hope that by the time this appears all thought of floods etc are gone.

RICHARD PAGE

CENTRAL SCOTLAND

It is my sad duty to report that John Henderson, the only life member of the Central Section, died last month. John worked for many years at Canmore GC in Dunfermline before moving to Dunfermline GC, Crossford, where I was head greenkeeper and he became my first assistant. He remained there until his retirement in 1987. He was a strong supporter of both SIGGA and BIGGA and until recently attended a good number of section events. He is survived by his wife, Margaret, son, daughter and four grandchildren.

On a happier note, with another successful BTME and AGM behind us we can look forward to the challenge of the golf course.

Entry forms for the Spring Tournament and the Inter-Club Tournament (which is being reintroduced this year) should be with everyone shortly. As these events are becoming ever more popular, please return your entries as early as possible in case a limit is put on the numbers. The Spring Tournament is also the qualifying event for the Hayter Challenge Tournament. To qualify for this event a national handicap is required, so, if you don't have one, get three cards in before April 13. Due to the ever increasing numbers at our golf events, it has been decided to have an additional category, which means we now have 1st, 2nd and 3rd class sections. (With a bit of luck we might start a women's section, then I might stand a chance!)

While I am on about golf, here's a date for your diary: the Autumn Tournament will be held on Thursday October 12 by courtesy of Muckhart GC. Details of other section events will be circulated as soon as dates are confirmed.

Membership of the section is still on the increase and it is a pleasure to welcome Kenneth McIntosh, Kenneth Harper and James McLean as our newest members and I look forward to meeting them at some of our section events in the near future.

Following the huge success of our five-a-side football tournament last year, word is out that another section wishes to challenge us to a full 11-a-side match. (Did they have a spy at our event?) Hopefully this can be organised and if it is I will report on the outcome as soon as possible.

JOHN CRAWFORD

NORTH EAST

Firstly, I would thank Terry Charlton of Tufnol for laying on the coach for BTME. It was good to see a lot of members from this section in attendance, and the feedback from them was that it was the best show yet. Again, it was good to see one of our members, Mai Lathan, at the seminars. The message is slowly getting through that these are an important factor and not to be missed.

The Spring Tournament will, we hope, be held at Newbiggin in April and the Autumn Tournament at Garesfield, but details have yet to be finalised. The autumn match against the East Lothian section will be held over the border this year and the match against Cleveland is also being played away.

Congratulations to Barry Weddell on his move from Foxton Hall to Almonoth Village GC, where Willy Holden has taken early retirement.

Two new members to welcome to the section are Albert Davis and Andrew Bowes, both from Matfen Hall GC. They are currently in the process of planting 18,000 trees and shrubs, mostly hard woods such as oak, yew, beech, lime and some not so hard silver birch, rowan and aspen etc plus shrubs of various types. The club is expected to open 18 holes between April and May and a further 9-hole par 3 course later in the year.

JIMMY RICHARDSON

EAST MIDLANDS

Hands up all those members of the section who didn't attend this year's BTME. It really is a great show and should not be missed by anyone. Apart from the seminars and stands there is an excellent social programme with comedian Tom O'Connor and singer Linda Nolan entertaining us all in great style. Despite some awful weather, it didn't stop Dave Leatherland making the most of all the snow and coming off by far the worse in a snowball fight. On behalf of all section members who did attend, I would like to thank staff at HQ for their hard work in making this show for us.

Congratulations go to Nick Root of The Leicestershire Golf Club on completing 25 years of service. The club presented him with a gold watch.

Thanks go to Pete Jefford of Ruffords Top Dressing for his recent entertaining talk on top-dressing. Thirty-one members attended, but we still need more support from all our members. I would also like to thank Charnwood Forest GC for the use of their facilities on this evening.

This month we welcome the following new members to our section: Ian Marshall of Kirby Muxloe GC (not to be confused with the Ian Marshall of Wellingtonborough GC), Christian Harrison and Stephen Priestley of Branson GC and Robert Woodside of Holsey Lodge GC.

One more date for your diary is this year's AGM and Texas scramble at Kirby Muxloe GC on November 8.

ANTONY BINDLEY

SOUTH COAST

I have just got back from the 1995 BTME at Hartogate. What a splendid show this is with the opportunity to meet fellow greenkeepers from all over the world. With Tom O'Connor to entertain us at the banquet and Dr James Beard to update us on the future trends of the industry, it was a memorable event. It is now up to all of us to ensure that it remains so!

We had a good meeting at Brockenhurst Manor GC on January 12 when John Pemberton from HQ came down and gave an update on the Association. Being an afternoon meeting it was noticeable that everyone was relaxed and a lively discussion took place. Also, our February meeting at Alresford GC was very well attended and the AGM and Texas scramble in April was well augured for in such poor weather. Ian McMillan gave a good talk on Hankley Common Golf Course and the conservation policies adopted there.

It has come to the committee's attention that membership cards are still being used fraudulently by non-greenkeepers to obtain courtesy of golf courses. It must be emphasised again that there is a tradition of greenkeepers being allowed courtesy of the course but this is not a right. Anyone fraudulently using a card or allowing one to be misused is putting this tradition in jeopardy. Please ensure that this does not happen.

This month sees us throwing off the winter blues and launching into the spring programme - no more peace for some time now. But we will be pausing on March 14 to enjoy the section seminar at Sparsholt College.

This year's golf fixtures will be starting soon with the Spring Tournament at Corhampton Golf Club. Please send entries early this year as we will be closing the list ten days before the event so that players can be contacted prior to the day. Send entries to new tournament organiser, Mark Webb of Alresford Golf Club, at 12 Lime Road, Alresford SO24 9LD or phone 01962 733061.

THE WINNING CHOICE IN SPORTS FIELD IRRIGATION

RAIN BIRD

PREFERRED BY PROFESSIONALS WORLDWIDE

There is no specific system that meets the demand for every sports field. That's why Rain Bird offer a choice of systems to meet the individual requirements of your sport, local conditions, budget, water and manpower.

As professional distributors and installers of irrigation equipment for over 23 years we will put our experience behind you.

So make our reputation your choice.

Irrigation at its best

TURF IRRIGATION SPECIALISTS

We supply:
• Manual or automatic pop up installations
• Mobile or static sprinklers
• Subterranean porous hose systems

Irrigation for:
• Golf Courses • Bowling Greens • Football Pitches
• Cricket Squares • Riding Areas
• Public Amenities and Gardens

We offer full Design, Installation and After Sales Service

FOR ADVICE AND NO OBLIGATION QUOTATIONS PLEASE CONTACT:
Hortech Systems Ltd,
Hallgate, Holbeach,
Spalding, Lincs PE12 7LG

On Site with Hunter Golf

Gear-Drives That Go The Distance

Planning a new course or upgrading your existing system? Hunter now has a complete line of reliable golf rotors that are fully compatible with all irrigation systems, and ready to perform in the toughest conditions.

Hunter’s exclusive Pure Flow filtration valve handles the dirtiest water, and our proven gear-drives deliver years of quiet, trouble-free operation.

All Models Feature:
• 80mm pop-up
• Easy, through-the-top servicing
• Built-in recess for yardage markers
• Adjustable arc and full-circle
• Check-O-Matic, Hydraulic and Electric Valve-In-Head

The right selection and spacing of sprinklers is critical if a course's irrigation system is to be efficient. To understand that, you need to remember that a single rotating sprinkler will distribute progressively less water per square metre to its maximum radius and that is why, even if it were practical in golf, you do not see one sprinkler in the middle of the green. The problem though is often seen on tees where for misguided reasons of economy one sprinkler is positioned in the middle of a tee (there are other factors which effect the performance in this case which I will discuss later). How then do we achieve a reasonably uniform application of water?

Initially, let's take the case of two sprinklers overlapping each other. As we move them closer together to the point where the radius of one reaches the other, one can see the resulting improvement in the uniformity of coverage to a point where theoretically it is 100%. Now take four sprinklers, typically used on say a 500m$^2$ green. It is probably not difficult to imagine that within the spacing the uniformity is as near as possible to 100%. Usually, because of sprinkler design and the distance across the diagonals, 80-85% can be achieved.

Outside the spacing there is a limited distance where sufficient water will be applied for the operating times required to be the same as the area within the spacing.

If spacings are stretched (or for that matter compressed) the result will be uneven applications with the result that the operator will have to operate the sprinklers for longer than necessary to ensure the under irrigated area receives sufficient water, therefore water will be wasted, adding to operating costs and quite probably causing agronomic problems through run off, puddling and soil saturation.

Before we move onto specific applications for golf course irrigation equipment there are further aspects which must be discussed which have a major bearing on system efficiency.

Firstly, wind. The theoretical situations I have explained so far assume a still air situation (and this is the basis of all catalogue information). If we introduce the wind factor to the single sprinkler situation more water per m$^2$ will be deposited on the windward side, therefore the more the site is exposed to strong prevailing dry winds the more the designer must take this into account. Incidentally, it is an accepted fact that the triangular spacing of sprinklers is better than square in helping to combat the effects of wind.

To promote a better understanding of golf course irrigation techniques, design and cost factors, the British Turf & Landscape Irrigation Association (BTLIA) is considering opening its membership to club secretaries and course managers.

"Experience has shown that the majority of UK golf club officials, committees or managers have little idea of the deeper considerations of the use of irrigation equipment in the long term," says Philip York, BTLIA chairman. "By joining our Association they will become much better informed. This, in turn, will assist developers, architects and golf club officials to appreciate just what they are buying, and why.

"At present, purchasers of irrigation systems are largely influenced by cost factors. Price alone should not form the ultimate decision-making process.

"Membership of the BTLIA will help golf club officials by educating them in the technicalities, finer points of design and operating costs and standards of workmanship."

For further information write to the BTLIA c/o Myerscough College, Billborow, Preston, Lancs PR3 OYE. Tel: 01995 640611.
Efficient Irrigation

wind, as there is within reason better coverage of the area equidistant between heads.

Secondly, the typical application rate of sprinklers in a square or triangular configuration is between 12-18mm/hour. Other than on extremely well constructed greens or tees, it is unlikely that the absorption rate of the soil in the rootzone will be equal to this, therefore if there are any slopes, high points etc – and usually there are – the surplus will run to the low points and again there will be a tendency to over irrigate to compensate. This can to some extent be overcome by aeration and the use of wetting agents.

Sprinklers which are not operating at the correct pressure will not distribute water efficiently; under pressurisation will result in too large a droplet, over pressurisation will result in too fine a droplet too easily disturbed by the wind.

We advocate the use of pressure regulated valves on even the simpler systems. The flow control device on basic solenoid valves is only of use when the upstream pressure is constant and in case it is usually unwittingly altered after (if it ever was!) calibration. To know how much water you are applying see the formulae in last month’s magazine.

Now let us look at some typical practical applications.

Greens
Sprinkler selection for the putting surface will be determined by the overall dimensions and shape. The objective should be to place the sprinklers – all must be of the same configuration – in a uniform square or triangular spacing at the edge of the putting surface so that even with a minimal specification no part of the putting surface is more than the equivalent of 25% of the radius outside the spacing.

Approaches
Except in exceptional circumstances, two full circle sprinklers should be used of the same configuration and spacing (extended from the greens sprinklers) as the greens sprinklers.

Tees
Many budget proposals for tees feature a single sprinkler or single row of sprinklers (depending upon tee size). We do not recommend this layout as, inevitably, disappointment will result through a combination of unfortunately mis-specifying, wind and mis-management.

Far better to go for a double row either side of the teeing surface, preferably using full circle sprinklers.

The current general practice in the British Isles is to irrigate once per 24 hour period to replace the losses by evapotranspiration during that period. Some agronomists would argue that this encourages surface root growth and therefore thatch. Therefore it is better to irrigate an 18-hole course over a 48- or even 72-hour period, watering 9 or 6 holes per night.

We are irrigation engineers, not agronomists, but do know that providing the control equipment is correctly programmed the losses by evaporation will be reduced.

A normal irrigation cycle should always be at night, not only to avoid inconvenience to players and other maintenance practices but also because wind speeds are typically lower and ambient temperatures are lower, therefore evaporation losses are less.

Some controllers have a syringe (or soak cycle). This permits a full cycle (or partial cycle on selected areas) of the system, wetting the surface which will encourage better percolation of water when the full irrigation

Weathermatic has developed and manufactured specialist turf irrigation quality products for 50 years.

This wealth of practical experience and product, through local dealers, offers those in the sports turf industry the very best irrigation system design, installation and service.
