A masterful month

We also came across one of my bug bears on the final days, one that makes life a lot easier for the "pampered pros" - dropping zones! On the final day when David Duval found the creek on the 13th he was able to use a dropping zone way left of where the ball found the water and faced a chip which gave him all of the green to work with. If we amateurs had done the same we would have dropped directly in line with where the ball had entered the creek and been faced with a hellishly difficult chip to a pin on the front right of the green.

The week after the Masters I was down to Fiji.

Despite the busy life I've currently enjoying as Chairman I found myself with more time on my hands than usual to watch Masters on television. We must all admire the way Vijay Singh held himself together on the final round and, in the end, he won comfortably. It was a superb performance from a dedicated, hardworking and talented professional from one of golf outposts - Fiji.

The downside of it all, and it may have contributed to another regular element of the Masters that we didn't see this year. I'm talking about those huge swinging putts on the 16th green that make life a lot easier for the "pampered pros" - dropping zones!

The reputation of a 100 years may be determined by the conduct of one hour.
