The (not so) elusive butterfly bush

In this latest series of BASIS articles written in association with Sherriff Amenity, Graham Paul looks at the butterfly bush

The most common of the butterfly bushes is Buddleja davidii, which gets its species name from a French missionary and naturalist, Père Armand David. Buddleias are now classified in the Scrophulariaceae family, a large group of plants that includes, figworts, mullein, toadflax and speedwells. Prior to this they were classified in their own family, the Buddlejaceae.

The Butterfly Bush grows to a height of up to five metres. Flowers are borne in dense, spiked panicles that are mauve-purple with an orange centre. A white flowering variety can also be seen growing in the wild but is less common than the purple flowered species. Originally introduced as a garden bush it has escaped and can be extremely invasive given the right conditions.

The potential for spread of this species is due to the large number of seeds produced by each of the tightly packed flower spikes. It is estimated that a single flower spike can produce as many as 40,000 seeds so a full sized bush could generate as many as 3 million in a year. These lightweight, winged seeds are easily dispersed by the wind and are often caught in the slipstream of lorries and railway trains that can carry them onwards for a considerable distance.

The seeds can remain viable in the soil for three to five years, requiring very little in the way of soil or moisture to germinate and hence they can easily establish in barren ground. The butterfly bush occurs in a variety of habitats, growing well on poor soils with a preference for disturbed ground and areas recently damaged by fire. It seems to like chalky and lime soils, waste ground and will also proliferate on river banks. Another favourite habitat is railway property; where it easily establishes in the ballast of the track and cess and any mortar filled brickwork is a definite invitation for disturbed ground and areas recently damaged by fire. It seems to like chalky and lime soils, waste ground and will also proliferate on river banks.

High on the list of new products specifically suitable for controlling the butterfly bush is inadvisable to leave any branches on the ground after they have been cut as they can take root and create a new plant.

Chemical Control Measures

Fluel® a formulation of 250g/L glyphosate and 40g/L diflufenican, gives excellent control of buddleia seedlings. The diffusion in this product helps to prevent germination of seeds long after the spray has been applied.

For young plants, where the stems remain green, glyphosate formulations such as ‘Roundup Pro Bicative’ will provide good control. Mature plants need a brushwood killer such as ‘Timbrel’, which contains 480g/L triclopyr.

However, ‘Timbrel’ and five other approved products containing 480g/L triclopyr are scheduled for withdrawal by 30 November 2014, so manufacturers are providing alternatives with lower concentrations of triclopyr but mixed with suitable co-formulants; e.g. amiprogalid, clopyralid, fluroxypyr, dicamba and 2,4-D, to bridge the gap and provide a similar level of weed control.

The initial approach to curb the spread of this plant using non-chemical means is to control the spread of seeds. Dead-heading plants as soon as the flowers have died back is recommended for garden specimens but on larger bushes this may not be practical. Landscapers and gardeners should be encouraged to choose new dwarf varieties of Buddleia that do not produce fertile seeds; such as ‘Blue Chip’, which is equally attractive to butterflies but does not present any risk of spread by wind dispersal.

Seedlings and young plants can be pulled up relatively easily and established mature plants can be felled and disposed of by burning on site if this is permitted. It is inadvisable to leave any branches on the ground after they have been cut as they can take root and create a new plant.

Biological Control measures

 Authorities in New Zealand have carried out quarantined studies on the leaf eating weevil Cleopus japonicus to ensure it did not harm endemic plants and crops. This insect originates in China where it
feeds on the leaves of the butterfly bush. In 2006, following the success of these studies, the weevil was released on several sites on the North Island and so far results have been encouraging. These quarantine studies would need to be repeated in the UK before we could consider adopting this approach to control. Scientists in New Zealand are also looking at a stem-boring weevil Mecysolobus erro. for Buddleia control, the adults of this insect feed on the tender terminal shoots causing the tips to wither and die.

The controversy
There is no doubting the attractive power of the Buddleia davidii for butterflies, bees and other insects. The development of our urban environment has depleted the numbers of many butterflies, insects and wild animal species, so it is no surprise that organizations involved in conservation of wildlife are sympathetic to planting the butterfly bush as a means of encouraging some to re-establish. However, we should remember that this is an aggressive invasive plant species which, despite the abundance of pretty, fragrant flowers, contributes very little to the support of the larval stages of these insects. Back in its original native environment, the butterfly bush evolved alongside a host of predatory wildlife that help keep the species in check. It is amazing that despite being resident in the UK for over 100 years it has encountered very few natural enemies - hardly any insects have adapted to feed on the leaves and stems.

In 2006, DEFRA and the country agencies for Wales and Scotland published a new strategy to control invasive species and listed Buddleia on their non-native species website www.non-native species.org. Butterfly Conservation have stated their position with regard to the planting and maintenance of the butterfly bush as follows: “Buddleia provides an important nectar source for adult butterflies, moths and other insects in townscapes and the countryside. This has become increasingly relevant because wildflowers have become so depleted following habitat loss and the general lack of nectar sources in the countryside. It also brings enjoyment to many people, both because of its heavy scented and beautiful blooms but also because of the butterflies and other insects it attracts. It therefore plays a role, alongside other non-native garden plants, in helping to maintain or restore the link between people and native UK wildlife such as butterflies.”

They acknowledge that the butterfly bush can be a problem in brownfield sites and suggest that gardeners should prune the plant in the autumn to remove seed heads and reduce the potential for spread in the wild.

However, Buddleia is not included with the wild invasive non-native plants listed on Schedule 9 of the Wildlife and Countryside Act and is not scheduled for future inclusion.

1) Who was responsible for naming the genus Buddleia?
   a) The Reverend Adam Buddle
   b) Carl Linnaeus
   c) Dr William Houstoun
   d) Père Armand David

2) When did the butterfly bush arrive in the UK from China?
   a) 1896
   b) 1715
   c) 1662
   d) 1789

3) What is the estimated annual seed yield for a full sized butterfly bush?
   a) 40,000
   b) 300,000
   c) 700,000
   d) 3,000,000

4) Which species of insect has been introduced in New Zealand as a potential biological control agent?
   a) Malacosoma Neustria
   b) Cryptolaemus montrouzieri
   c) Cleopus japonicas
   d) Euproctis chrysorrhoea

5) What date has been set for the withdrawal of products containing high concentrations of triclopyr such as ‘Timbrel’?
   a) 30th November 2014
   b) 1st November 2013
   c) 30th November 2013
   d) 1st August 2014

Are you ready for winter?

Stuart Hall, former Workshop Manager at John O'Gaunt Golf Club, urges you to take a few simple steps to ensure your machinery is ready for winter.

It’s strange to think that after the majority of the country has finally enjoyed a good, dry summer we’re now starting to think about winter setting in, but its only round the corner.

Now is the ideal time to start a few pre winter checks, as we enter autumn, leaves and heavy dew start to interfere with early morning mowing. The extra moisture on the ground can find its way into every small space, so it’s time to check your cutting unit’s roller seals are sound to prevent water penetration and lead to further damage, a quick check now could save you the cost of bearing replacement in the near future.

Also as the temperature starts to drop leading to frosts, ensuring your engine coolant has enough antifreeze protection is an absolute must. Protection of your engine’s water jacket now can save you a few minutes but can really save you money.

Lastly we come to fuel. Modern fuels have changed dramatically over the last few years, firstly petrol now has a minimum of 5% bio fuel and as winter approaches, the cold temperatures and frosts – and many of these will take just a few minutes of your time but will save you lots of money and disruption when you least need it in the depths of a British winter.
Are you ready for winter?

Stuart Hall, former Workshop Manager at John O’Gaunt Golf Club, urges you to take a few simple steps to ensure your machinery is ready for winter.

It’s strange to think that after the majority of the country has finally enjoyed a good, dry summer we’re now starting to think about winter setting in, but it’s only round the corner – and all greenkeepers need to be ready.

Now is the ideal time to start a few pre winter checks, as we enter autumn, leaves and heavy dew start to interfere with early morning mowing. The extra moisture on the ground can find its way into every small space, so it’s time to check your cutting unit’s roller seals are sound to prevent water penetration and lead to further damage, a quick check now could save you the cost of a bearing replacement in the near future.

Also as the temperature starts to drop leading to frosts, ensuring your engine coolant has enough antifreeze protection is an absolute must. Protection of your engine’s water jacket now can save you lots of money and disruption when you least need it in the depths of a British winter.

Overlooking this can lead to costly replacement, Batteries struggle in cooler conditions and frost can wreck them if they’re not in good condition, so now is the best time to check fluid levels. A simple tester is available from most dealers and shows up any weaknesses in bad condition. At the same time you can clean up the terminals and apply a coating of protective terminal spray and show up any cells in bad condition with a damaged seal or a weak spring, it gives the impression that you have an overheating cooling system when actually it’s just a damaged cap.

Another good one to check early is the battery, again a check now could save you having to fork out for a costly replacement. Batteries struggle in cooler conditions and frost can wreck them if they’re not in good condition, so now is the best time to check fluid levels. A simple tester is available from most dealers and shows up any weaknesses in bad condition. At the same time you can clean up the terminals and apply a coating of protective terminal spray or electrical grease, then once complete why not check your charging system with a volt meter (normally around 13.8v) and the condition with a damaged seal or a weak spring, it gives the impression that you have an overheating cooling system when actually it’s just a damaged cap.

Lastly we come to fuel. Modern fuels have changed dramatically over the last few years, firstly petrol now goes stale in around three to six weeks and can really catch you out over the winter period as machines are used less frequently. You can either use a fuel additive, or a cheaper option is to drain petrol out of the tanks and carburettor bowls so when you go to use them next fresh fuel goes in and starting isn’t an issue. Secondly as diesel now has a minimum of 5% bio fuel in it there is a greater chance of water build up and fuel freezing in your tanks, so if you don’t top your machine fuel tanks up after each use, start doing so now as it helps keep condensation to a minimum and helps reduce bacteria build up.

All these tips will allow you to approach autumn and winter with your machinery ready for the freezing temperatures and frosts – and many of these will take just a few minutes of your time but will save you lots of money and disruption when you least need it in the depths of a British winter.

about the author

Stuart Hall is a fully qualified Greenkeeper having started his career with Asco College. He covers Bedfordshire, Hertfordshire, and surrounding area with many golf clubs, sports grounds, schools and colleges, supplying Ground Care professionals with performance and economy John Deere machinery and later for P Tuckwell Ltd, a John Deere machinery dealer as Groundcare Services Manager for 14 years, this year he accepted a role at O’Gaunt Golf Club, earlier Stuart was Workshop Manager at John O’Gaunt Golf Club. Earlier he was workshop manager at the University of Hertfordshire a huge area for machinery near Stevenage. He also moved to machinery maintenance, and became a tutor at Asco College. Stuart began his working life in greenkeeping before performing as window cleaner, and became a tutor at Asco College. O’Gaunt Golf Club, before he was awarded a top job at O’Gaunt Golf Club earlier he was workshop manager at the University of Hertfordshire a huge area for machinery near Stevenage. He also moved to machinery maintenance, and became a tutor at Asco College. O’Gaunt Golf Club, before he was awarded a top job at O’Gaunt Golf Club.
What does FEGGA mean to you?

Newly elected FEGGA Board Member Paul Worster takes a look behind the scenes at FEGGA

Until recently, I was aware of the existence of the Federation of Golf Greenkeepers Associations or FEGGA, but like many had little idea what it did, what its mission was, and who ran or participated in it.

However – all that has changed now as I’m a newly elected Member of the FEGGA Board and I would like to share the aims and ideas of the organisation with you.

FEGGA was formed in 1996. It actually augmented, and eventually replaced, a ‘European Greenkeepers Association’. Dean Cleaver – former Course Manager at Gay Hill GC and BISGA Chairman in 1996 – was the first FEGGA Chair- man, and is currently the organisation’s Executive Officer. FEGGA is registered in Sweden and currently has 23 members.

“Only 23?” I hear you ask. That’s correct – because it is the actual Greenkeeper Associations that are the members, and those 23 member associations represent the interests of around 13,000 greenkeepers in Europe. Impressively by any standards.

So what does FEGGA do exactly?

Well – we in BISGA are perhaps spoil’d. The UK has 2,500 golf courses which is by far the highest density of golf courses anywhere in Europe. We have our own very strong association which now employs 17 people. No other Euro- pean country has a similar number of courses, and their greenkeeper associations are virtually all volunteer- led, and volunteer-adminis- tered – not many other European Greenkeeper Associations have any paid employees.

So, FEGGA, with its links to GTC, EGA and the EGA (European Golf Association) brings training, education, development and encouragement to the greenkeepers profession in the smaller golfing nations where in some cases there are actually very few golf courses. Of course, despite a low number of courses, well educated, well led, and well motivated staff teams are a primary requirement, and there is the familiar pressure to improve and develop.

Now I’m still learning, but already I’ve discovered that there are at least three different scenarios within FEGGA. There are the Northern European Courses, for example in Scandinavia where some people actually have two jobs. They have a summer job when the golf course is open, and a winter job somewhere else when the golf course is frozen over and closed.

In general the Superintendent and his Deputy are retained, but most other staff are released to go to other jobs. Many return to greenkeeping year on year and often to the same facility. Compare that with Southern European greenkeepers, whose courses are open all year round, but of course face extremes of a completely dif- ferent type in mid-season when heat and drought are significant factors. Then there are courses in the mid-zone which are more akin to the UK. So, a pretty broad canvas on which to base training aims and objectives.

Don’t underestimate this - coun- tries such as Slovenia, Slovakia and Bulgaria have only a handful of golf clubs – less than ten per cent. But this doesn’t stop the greenkeepers and Superintendents from being hugely keen to learn and very proud of their achievements. These people are part of our community, part of our profession. They deserve our respect and our support. In giving support and making connections, the BISGA Board and I firmly believe that by helping FEGGA and getting involved we can also open doors and create opportunities for our own members to find advance- ment within Europe, which is why I’ve come across so far. Currently we are working to update the Constitution of FEGGA (the rules and regulations that give the framework for business). After that review, the business plan will be upgraded to map out how to meet revised aims and objectives (as outlined in the new Constitu- tion).

FEGGA holds an annual con- ference which incorporates the AGM. This is sponsored by patron member and is an opportunity for Member Associations to meet with sponsors and carry the sponsors’ message back to greenkeeper members within their own coun- tries. I spoke at this year’s confer- ence in Switzerland, the opening day of which was held at Syngenta’s European HQ in Stein. Stein was a fascinating place showing the tre- mendous research into the develop- ment and safety of pesticides for use in golf and agriculture.

Next year the FEGGA Conference is in Girona (in the Catalan region of Spain) and the learning subjects will appeal to a broad cross-section of greenkeepers.

In short – FEGGA has much to offer greenkeepers in Europe and, through supporting it, can help make opportunities in Europe more available to British greenkeepers. I’m supporting FEGGA – I hope you will also.

This doesn’t stop the greenkeepers and Superintendents from being hugely keen to learn and very proud of their achievements. These people are part of our community, part of our profession. They deserve our support and our input. In giving support and making connections, the BISGA Board and I firmly believe that by helping FEGGA and getting involved we can also open doors and create opportunities for our own members to find advancement within Europe, which is why I’ve become so pleased to be working with the FEGGA Board.

Work on this Board is very different. Firstly, there is the language issue. All meetings have been conducted in English as are the conferences. I am really impressed with the command of English displayed by the vast majority of people I’ve come across so far.

Currently we are working to update the Constitution of FEGGA (the rules and regulations that give the framework for business). After that review, the business plan will be upgraded to map out how to meet revised aims and objectives (as outlined in the new Constitution). FEGGA holds an annual conference which incorporates the AGM. Contact your Section correspondent with news, events or anything else for Around the green...

Events Coming Up

Central - Next event on the calendar is the Section AGM at Elmwood training room on 29 October. This will be preceded by a presentation from Lynn Johnson of SIGG. Details for this were e-mailed out at the beginning of October.

Follow on from that is the 2-day “Train the Trainer” course to be held at St Andrews Links on 19/20 November.

West - Coming up is the AGM on the 24 October at Hagg Castle GC followed by a short talk from a couple of different suppliers on what’s new in the industry.

Central - Work is still progressing at a considerable speed on the new course being constructed at Feddinch just outside St Andrews. Not so much in the news lately though about the proposed development just along the coast from Elie.

West - A report on the Autumn outing will follow next month but I would like to take this opportunity to ask if any member has a subject they might wish to raise at the AGM please contact any member of the committee before the event to allow a full and frank discussion to take place.

The blog is available for members to look at and obtain information or the magazine, failing that contact myself on 0141 9425554 or 07790823914, or e-mail me at stuart.taylor@glasgowgolfclub.com.

East - Our recent Willie Woods tournament went well with a good attendance on the day, held at Mortonhall GC that was in its usual fantastic condition.

The scoring was good with Graeme Davidson and Martin Fith returning the best nett on the day. "The coffees and lunch at the irrigation course."

Thanks to Sponsors

Central - A special thanks to Otterbine, Toro and Lely for providing the coffees and lunch at the irrigation course.

East - Thanks must go to Gary Smith (Sherriff Amenity) for a very informative educational topic in the form of ‘Nutritional Movement Through the Plant’, this topic went down well and was delivered superbly.

Welcome New Members

Kjell Torbjornberg – Trump Golf Scotland, Iain McFarlane, Gavin Millar – Elderslie GC, Barry Munro, Peter Munro – Zoar Golf Club, Martin Chesney – Soar Millenium

Events Coming Up

Sheffield - Christmas Competition on 11 December at Wedskop GC, tee times from 10.30am followed by AGM, meal and presentation sponsored by Mike Brear of Bigga. Also remember to book your place for the trip to St Georges Park on 16 October.

North East - We’re hoping to organise a couple of course walks in near future, more details soon.

North West - Bert Cross Trophy and AGM at the Walsworth GC on 12 November. Contact Phil Dewhurst on 07768 180864 if you wish to attend.

Cleveland - Boulby Patishe Mine Visit Thursday 3 October. Eight places only, so get in touch asap to reserve your space. Contact me (Peter) 07791 695768

Cleveland - Autumn Tournament Wednesday 9 October tee off 1.00pm till 11am at Sharpey Springs GC. For just £16 you will get the usual bacon sandwich and coffee, 18 holes of golf followed by a two course meal and rolls. Limited to 24 spaces.

Cleveland - The annual dinner and challenge match at my place Cleveland GC on Tuesday 10 December 10-45am tee off.

Northern - Our final golf day of the year is the Xmas bash at Balgonid GC in Bradford on 11 December.

North Wales - The autumn tournament took place at Royal St David’s GC on 18 September - results next month. The Christmas tournament is at Royal Liverpool GC, Hoylake on 25 November, all entries and monies to be returned asap.

News

Cleveland - I’m submitting the monthly notes so if you have any news let me know. Even small bits of info are good, like trying to ﬁnd the greenkeeper from our area that was spotted at a local bus stop and now has a modelling contract with Vogue magazine. Pembroke

Cleveland - Well done to Lee Cameron from Teesside GC in completing the coast to coast bike ride raising over £3000 for the Great North Air Ambulance, a fantastic achievement.

North East - Jimmy Richardson has retired as section secretary after 31 years service. The section wouldn’t have operated to the level it has without Jimmy’s time and commitment. On behalf of the section we wish him well in his retirement. We plan to give him a well deserved send off at our Autumn tournament at Wetherhope GC on 9 October and it would be great if you could attend.

Sheffield - On 13 September Ashley Brear married Grace. Ashley is Mike Brear’s son of Bigga and we wish them all the very best and hope it all goes well for Ashley in his new post at Luffinham Heath GC. Can members please send any news items to the NEW SECTION MOBILE NUMBER 07944 392155.

Northern - Best wishes to Stu Mason from Woolley Park GC in Wakefield on his forthcoming marriage.

North East - Congratulations to Brian Hughes of "Hullingham GC", who after 36 years of loyal service to Royal St. David’s GC we wish them all the best in retirement.

Movers and shakers

North East - Well done to Lee Cameron from Teesside GC in completing the coast to coast bike ride raising over £3000 for the Great North Air Ambulance, a fantastic achievement.

North-West - A special thanks to Otterbine, Toro and Lely for providing the coffees and lunch at the irrigation course.

Best Gross - J Hogg, Dir One – 1 8 Oliver, 2 J Donaldson, 3 J Friar; Dir Two – 1 S Pope, 2 B Brown, 3 D Thompson; Trade – G Baxter; Nearest Pin 10th - J Friar, 14th - V Cox; 3 J Friar; Div Two - 1 S Pope, 2 B Brown, 3 D Thompson; Trade – G Baxter; Nearest Pin 10th - J Friar, 14th - V Cox; 3 J Friar;

Poster Matt Minto retiring from his job as course and deputy course managers on the 31st of this month, after 36 years of loyal service to Royal St. David’s GC we wish them all the best in retirement.

Results

North East - New summer competition held at Percywood GC, massive thank you to Simon Oliver and the club for the course condition and hospitality shown, it was also nice to see a lot of new faces at the event.

Best Gross - J Hogg, Dir One – 1 8 Oliver, 2 J Donaldson, 3 J Friar; Dir Two – 1 S Pope, 2 B Brown, 3 D Thompson; Trade – G Baxter; Nearest Pin 10th - J Friar, 14th - V Cox; 3 J Friar; Div Two - 1 S Pope, 2 B Brown, 3 D Thompson; Trade – G Baxter; Nearest Pin 10th - J Friar, 14th - V Cox; 3 J Friar; Div Two - 1 S Pope, 2 B Brown, 3 D Thompson; Trade – G Baxter; Nearest Pin 10th - J Friar, 14th - V Cox; 3 J Friar;

Thanks to Sponsors

North East - Rigby Taylor for sponsoring prizes at Percywood and to Loylds for sponsoring the food.

North East - Thanks to Paul and Freddie Wade and our chairman John Watts for setting the day at Cockridge - a great addition to our golfing calendar. Also thank you to Sandra our RA for all her help at our golf days, they would not be the same without her.

Central - The turnout for the autumn outing at Stirling GC on 4 September wasn’t so good with only 28 people in attendance. On a glorious sunny day, those who did come along enjoyed playing a course that was excellently presented by James Lindsay.

Our thanks to James and his team and all at Stirling GC for their assistance. Kevin Webster of Leven Links was a new name on the Scratch trophy while Graeme Bolton of West was a clear winner of the best nett on the day.

A full list of prize-winners can be found on the website www.bigcitycentrelinks.org.uk or by liking us on Facebook. From next year the prizes will all be based on Stableford scores apart from the Scratch prize.

Central - Work is still progressing at a considerable speed on the new course being constructed at Feddinch just outside St Andrews. Not so much in the news lately though about the proposed development just along the coast from Elie.

West - A report on the Autumn outing will follow next month but I would like to take this opportunity to ask if any member has a subject they might wish to raise at the AGM please contact any member of the committee before the event to allow a full and frank discussion to take place.

The blog is available for members to look at and obtain information or the magazine, failing that contact myself on 0141 9425554 or 07790823914, or e-mail me at stuart.taylor@glasgowgdflh.co.uk

East - Our recent Willie Woods tournament went well with a good attendance on the day, held at Mortonhall GC that was in its usual fantastic condition. The scoring was good with Graeme Davidson and Martin Pithe- eridge (both Mortonhall) lifting the trophy with a superb 62 in a betterball format, with Alan Campbell and Dougie McVie (both Edinburgh Leisure) coming second with a 65 (bi). The nearest the pin winner was William Kelly (Mortonhall) and our longest drive went to Craig Hemspeed (Mortonhall).

Thank you to all that came along.

Thanks to Sponsors

Central - A special thanks to Otterbine, Toro and Lely for providing the coffees and lunch at the irrigation course.

East - Thanks must go to Gary Smith (Sherriff Amenity) for a very informative educational topic in the form of ‘Nutritional Movement Through the Plant’, this topic went down well and was delivered superbly.

Welcome New Members

Events Coming Up

Central - Next event on the calendar is the Section AGM at Elwood training room on 29 October. This will be preceded by a presentation from Lynda Jackson of ROG. Details for this were e-mailed out at the beginning of October.

Following on from that is the 2-day ‘Train the Trainer’ course to be held at ST Andrews Links on 19/20 November.

West - Coming up is the AGM on the 24 October at Haggs Castle GC followed by a short talk from a different supplier on what’s new in the industry.

Also, the social night is on 29 November at Quiet Italy near Cad- dergorg or the old Glasgow Herald building, this is similar to last year with a pre-theatre meal and then onto a few pubs or nightclub.

The section would appreciate your support in both of these events as last year they had a very good turn out.

The section would appreciate your support in both of these events as last year they had a very good turn out.

North East - Jimmy Richardson has retired as section secretary after 31 years service. The section wouldn’t have operated to the level it has without Jimmy’s time and commitment. On behalf of the section we wish him well in his retirement. We plan to give him a well deserved send off at our Autumn tournament at Westerhope GC on 9 October and it would be great if you could attend.

Shffield - On 13 September Ashley Brear married Grace. Ashley is Mike Brear’s son of Rigby Taylor and we wish them all the very best and hope it all goes well for Ashley in his new post at Luffinham Heath GC. Can members please send any news items to the NEW SECTION MOBILE NUMBER 07944 392155.

Northern - Best wishes to Stu Mason from Woolley Park GC in Wakefield on his forthcoming marriage.

Northern - We recently played a fantastic competition of greenkeepers vs trades at Cocklefield Hall in Leeds. A great day but unfortunately apart from myself and Joe Walsh destroying Nick Bissett and Simon Hardcastle in the last match we lost 3-1.

North Wales - Arthur Esoons, Head Greenkeeper at Abercrombie GC, celebrated 25 years at the club in September; we wish him many more happy years in greenkeeping.

Movers and shakers

North East - Congratulations to Brian Hughes of Whitley Bay GC, who after his hard work and dedication in his senior role has been promoted to Head Greenkeeper.

North Wales - Roger and John Kenny retire from their jobs as course and deputy course managers on the 31st of this month, after 36 years of loyal service to Royal St. David’s GC we wish them all the best in retirement.

Results

North East - New summer competition held at Percywood GC, massive thank you to Simon Oliver and the club for the course condition and hospitality shown, it was also nice to see a lot of new faces at the event.

Best Gross - J Hogg, Die One – 1 St Oliver, 2 Donaldson, 3 J Frair; Tie Two – 1 S Pope, 2 B Brown, 3 D Thompson; Tie Three – Barns (10th), J Frair, 14th. V Cnc; Longest Drive – S Oliver. The best score of the day was by S Pope who is 82 years old – putting all us young guys to shame. Well done Steve!

Thanks to Sponsors

North East - Rigby Taylor for sponsoring prizes at Percywood and to Loyds for sponsoring the food.

North East - Thanks to Paul and Freddie Wade and our chairman John Watts for sorting the day at Cocklefield - a great addition to our golfing calendar. Also thank you to Sandra our RA for all her help at our golf days, they would not be the same without her.

**East Midland**  
You should have received your invitations to our AGM Competition at Lutterworth GC on 31 October. Exclusively sponsored by Parrys there will be some tremendous prizes on offer and of course the usual top quality nuzzle. In addition there is the Midland Region Education Seminar on 10th November held again at Forest Hill GC, remember to check your tee times soon via www.biggamidlandsection.co.uk.

**Midland**  
The Autumn golf tournament is to be held at North Warwickshire GC on 16 October, starting at 12. Get your entry in to Rhyss Thomas as soon as possible on 01978 164173 and check your tee times soon via www.biggamidlandsection.co.uk.

**Midland**  
Our Autumn education day is a visit to Villark Park, kindly sponsored through Everris on 23 October. If you’re interested and would like further details please visit www.biggamidlandsection.co.uk to book your place to visit the world’s most famous football club!

**Midland**  
The Midland Section AGM will be held following the golf at North Warwickshire GC on 16 October at 6.30pm before the evening meal. All members are welcome.

**Mid Anglia**  
Autumn Golf Day at Berkhampsted GC on 16 October. Get your entries in asap to avoid missing out. AGM to follow.

**Movers and Shakers**  
**East Midland**  
- A very warm welcome to the section for Simon Graham who has taken over the role of Midland Greenkeeper at Lingdale GC. Simon joins Lingdale from The Buckinghamshire and I’m sure I speak for Mid Anglia and secondly David Purdue has been appointed at The Buckinghamshire GC as Club Mechanic.

**Events Coming Up**

**London**  
- Next is the Xmas tournament at Versant Golf Club on 12 December sponsored by Everris. Hoping for a good turn out as Xmas is such a good time to come together after a hard year’s work and enjoy some good greenkeeper company. This will be followed by the AGM. Entry forms will be posted out or you can email Lee Cox on l.cox15@btinternet.com.

**Kent**  
- Our annual Turkey Trot where a good time is pretty much guaranteed followed by the AGM to moan about it if you don’t shall be held at Redknots GC on 28 November. You all know how enjoyable this event is so be sure to get your entries in asap.

**Kent**  
- We are very proud to be hosting the South East Regional conference on Tuesday 19 November at Hadlow College. News on times and speakers to follow next month but visit our website for updates.

**News**

**East Anglia**  
- Lovely day at King’s Lynn GC. I think it’s the first time the Section has been there and it was terrific sponsored kindly to Colin Robinson and his team. Sixty souls turned up – results below.

**East Anglia**  
- I heard a rumour that a golf club has a member who has been at the club for 80 years, continuous membership. It was suggested that it would be nice to give them lifetime membership as a reward. No problem you might think. Three committee meetings later they decided against the idea as it might set a precedent! You could not dream it.

**London**  
- The summer tournament was played at Sidcup GC on a wet sunny day but Jim Easton had the course in excellent condition and very much appreciated by the guys from Stanmore GC as they claim it’s the first 3 places with Mark Lambert first followed by Jack McCormack and Daniel Cowley.

**Kent**  
- Many thanks to everyone who made our Autumn event at Cheerorne Manor GC a tremendous success. It was a great pleasure to welcome new attendees to our events too so a warm welcome to our fold to James Boorman and Jamie Tommsett of Lydd GC.
