What do you get when you mix a beautiful day, 500 people, the best turfgrass researchers, 46 vendors, a magnificent barbecue lunch, and excellent educational sessions? The 17th Annual SFGCSA Turf Exposition, of course.

**COVER STORY: A TALE OF TWO PALMS**

Monroe Miller, winner of the 2004 USGA Green Section Distinguished Service Award, shares thoughts on surviving gracefully in our profession.

**SPOTLIGHT: SOUTH FLORIDA EXPO ANOTHER HIT**

A pesticide mix/load facility at Camp Creek GC in Panama City prevents potential pesticide mix/load rinse water from contaminating the groundwater.

**HANSD ON: AQUATIC MANAGEMENT**

Superintendents must consider how they can impact water bodies with their turf maintenance programs, and they must be knowledgeable about the basics of aquatic systems so that they can enhance their appearance and quality.

**INDUSTRY: BROWN TURF IS OK**

Even with the most sophisticated irrigation system or water-savvy superintendent, a prolonged dry spell causes some degree of discoloration on golf courses, notes USGA Green Section agronomist Todd Lowe.

**STEWARDSHIP: MULTIFUNCTIONAL Project**

A pesticide mix/load facility at Camp Creek GC in Panama City prevents potential pesticide mix/load rinse water from contaminating the groundwater.

**SUPERINTENDENTS JOURNAL: INSIDE THE ROPES**

Over the years, FGCSA’s local chapters have made connections with NBC Sports and helped to provide spotters and scorers to assist in the televising of the four men’s Tour events in Florida.
