"TURF THIS GREEN? ARE YOU DREAMING?"

Liquid Ag now delivers the green from five locations across Florida – one near you.

- Tampa
- Ft. Myers
- Pompano
- Orlando
- Ft. Lauderdale

Toro BioPro offers a complete line of liquid, organic-based products, including soil conditioners, NPK blends and wetting agents.

LIQUID AG® DELIVERS THE GREEN OF YOUR DREAMS.

At Liquid Ag, we’re proud to distribute Toro® BioPro® products. For more than 25 years, our resident expert in turf management and fertigation, Dr. Max Brown, has known that blending high-impact, organic nutrients results in peak performance. And that’s exactly what Liquid Ag and Toro BioPro deliver.

BioPro’s unique blend of premium quality ingredients and organic supplements is what sets Toro apart from the rest. It’s what we call the BioPro balance, providing essential nutrients for optimum growth while cultivating a stable, fertile, biologically active soil.

But Toro doesn’t stop there. Toro's diagnostic service allows you to easily monitor your turf’s nutritional needs. Just send us your grass clipping sample and we’ll identify any nutrient imbalances through our exclusive testing method which utilizes NIRS (Near Infrared Reflectance Spectroscopy), the most advanced tissue testing in the industry.

Liquid Ag can even formulate prescription nutrient blends to correct turf imbalances, maximizing the health, consistency of color and overall playability.

You can have the green of your dreams. Call Liquid Ag today at 1-800-375-5274.
Full-floating single-reel pick-up, non-scalping, high-lift hydraulic dumping, big full-loading hopper.

Picks up everything, everywhere.

Now, golf course superintendents can change the course of turfgrass disease control with HERITAGE, a completely new fungicide with a novel mode of action. HERITAGE will give your golf course round-the-clock protection against devastating diseases. With its powerful combination of preventative and curative activity and its high level of effectiveness against 18 of the toughest turf diseases, HERITAGE will make an outstanding difference in the quality and health of your turfgrass.

The active ingredient in HERITAGE is based on naturally occurring fungicides, called strobilurins, which are found in certain mushrooms. HERITAGE has a novel mode of action which is different than any other fungicide now on the market. It has both preventative and curative activity and is absorbed into the leaf blades and stems as well as taken up by the roots. This ensures that your golf course is protected from the devastating effects of turfgrass diseases.

HERITAGE is the only fungicide available that controls both brown patch and Pythium, as well as take-all patch, summer patch, anthracnose and snow mold—an unprecedented advantage for the turf professional’s disease program. HERITAGE is also effective against certain fungicide-resistant pathogens, making it an extremely useful tool in resistance management strategies.
Superintendents will find that HERITAGE is exceptionally compatible with the environmental balance of their courses. HERITAGE poses minimal risk to birds, mammals and fish, and its low use rates and extended application intervals mean less active ingredient is released into the surroundings.

For more information on HERITAGE Fungicide and how it’s changing the course of disease control, contact your Zeneca Sales Representative or call Zeneca Professional Products Toll Free at 1-888-617-7690.

Once you learn about the powerful, round-the-clock protection this new fungicide offers, you’ll agree that it’s time to change the course of your turfgrass disease management program, with HERITAGE.
CONTENTS

FALL 1997

FOREWORDS, PRESIDENT’S, VICE-PRESIDENT’S MESSAGES ........................................ 6
President Joe Ondo asks for more superintendents to get involved in FGCSA activities
and VP Mike Perham says the FTGA deserves support from superintendents.

SPOTLIGHT, CROWFOOT, FTGA SHOW ................................................................... 10
The Central Florida GCSA’s annual Crowfoot Open has been renamed to honor Larry
Kamphaus. Superintendents who attended the FTGA Conference and Show got their
money’s worth.

COVER STORY, THE PEOPLE’S CHOICE .................................................................. 22
Joe Ondo is a classic working superintendent whose staff of eight at Winter Pines Golf
Club accomplishes tasks that would daunt crews twice as large. They do it by taking one
thing at a time.

PROFESSIONAL DEVELOPMENT, COMPUTING, ADMIN AIDES, PR ........... 42
You don’t have to revert to your childhood to master a computer, but it helps to keep
your mind open; how to justify an administrative assistant; public relations is part of
your job!

INDUSTRY NEWS, ADVISORY BOARD, GCSAA SHOW, GOLF ALLIANCE .... 56
Two Florida superintendents will advise the videomagazine, “Golf & Environment;”
the cast for the 1998 GCSAA show in Anaheim is set; FGCSA is playing a key role in the
formation of the Florida Golf Alliance.

HANDS ON, ‘RE’BUILD IT AND THEY WILL COME; SUPER TIPS .................. 92
Tear up the whole course and rebuild it; do your own projects, one at a time; restoring
a classic; recovering from year-around bentgrass greens. Darren Davis launches a new
feature by discussing ways to clean up fairway clippings.

STEWARDSHIP, KIDS, SANCTUARY CERTIFICATION ................................. 64
Environmental education at three elementary schools has been enriched by superinten-
dents; Bonita Bay has three courses certified as wildlife sanctuaries and a fourth is on its
way.

RESEARCH, PURE LIVE SEED ............................................................................. 77
Calculating the pure live seed ratio before you buy can help you save money on
overseeding.

AFTERWORDS, PHOTO CONTEST, LETTERS, JARRELL & JACKSON ........ 82
Florida’s superintendents have taken some stunning photos; Vilma Kamphaus re-
sponds to the outpouring of support in the wake of Larry’s death; Mark discusses unity
and division within our ranks; Joel isn’t thrilled with the idea of hand-mowing fairways.

information and does not imply endorsement of the products named nor discrimination against similar unnamed
products. It is the responsibility of the user to determine that product use is consistent with the directions on the
label.
You've got Poa on 3.

Fire Ants on 8.

Pythium on 13, 16, 17 and 18.

You may be managing your course one problem at a time.

Summer Patch on 7, 8 and 9.

Crabgrass on 6.

Turf Stress on the back 9.

And a Board Member on the first tee.
At Novartis, we're committed to continually bring you innovative products. And now we'd like to introduce an entire series of products — the Novartis Total Turf Program.

Finally, all the tools you need to manage your course from tee to green and all season long can be found in one total program.

**Primo® The ultimate foundation for turf.**

The Novartis Total Turf Program begins with Primo for Pre-Stress Conditioning. That's because extensive testing has proven that treating with Primo is the best way to prepare a golf course and strengthen turf in advance to cope with extreme conditions such as drought, heat and disease, that make up a typical season.

**Barricade® Crabgrass control for the entire season, North and South.**

Simply put, Barricade is the longest-lasting and best-performing preemergence herbicide for the control of Crabgrass, Goosegrass and Poa Annua. That's because Barricade has low solubility and volatility, meaning it stays where you put it in the weed germination zone.

Plus, it won't stain your golf course.

Finally, a disease management program that lasts all season long.

In a revolutionary water-based microemulsion formulation, new Subdue® MAXX® systemically and effectively combats Pythium and Yellow Tuft. Plus, Banner® MAXX®, using the same formulation technology, controls Dollar Spot, Summer Patch and Anthracnose, as well as 15 other turf diseases.

For additional protection against diseases, the Novartis Total Turf Program also includes Sentinel® for the longest-lasting protection against 14 major turf diseases including Brown Patch and Dollar Spot on fairways.

**We combine even more protection.**

Like Alamo®, a systemic fungicide for the prevention and treatment of Oak Wilt and Dutch Elm disease.

And for insecticides, there's Award® an unstoppable insect growth regulator that controls Fire Ants.

The Novartis Total Turf Program. An entire program to help you manage the entire course.

To start your Novartis Total Turf Program, call 800-395-TURF for the name of your Novartis sales representative or your nearest Novartis distributor.
NOVARTIS

THOROUGH WAY TO PROTECT YOUR COURSE.

Alamo®
Award®
Banner® MAXX®
Barricade®
Primo®
Sentinel®
Subdue® MAXX®
Formed by the merger of Ciba and Sandoz, Novartis Turf and Ornamentals is dedicated to becoming the most innovative company in the golf course management industry today.

Our commitment is to bring new skills, new technologies, and new services to the industry, providing more solutions more of the time.

Our people include 25 dedicated field sales representatives and 8 experienced R&D representatives nationwide.

Our products are new, leading-edge, environmentally sound formulations like the low-rate chemistry of Banner® MAXX® and Subdue® MAXX® plus many new products on the way.

Our Distributor Partner System provides an industry-wide network of local technical and product support when and where you need it.

We support the goals of the Golf Course Superintendents Association of America, and are proud of our charter membership in the Platinum Tee Club, the highest level of corporate support of the GCSAA Foundation.

I want you to feel free to call me if there is something going on you don’t like or understand.

It seems like only a few years ago that I began attending state board meetings and listening to what was going on in our state and the GCSAA. I had volunteered to be the external vice president for the Central Florida Chapter. I remember attending FGCSA meetings when Bill Wagner was president, so it has been over 15 years ago.

As your president this year, I am looking forward to working with Mike Perham, Darren Davis, Dale Kuehner, Association Manager Marie Roberts, Florida Green editor, Joel Jackson and all the board members to keep the association growing and informed of all industry-related news and activities. We will try to provide education and seminars that will benefit superintendents, assistant superintendents, and their employees.

I would like to see more superintendents become involved in local and state association activities. I would like to see more superintendents write more articles for the Florida Green to tell your story to everyone who reads the magazine. I enjoy reading the magazine and everything it has to offer and I hope you do too.

I would like to congratulate Gary Grigg on winning the 1997 FGCSA Distinguished Service Award. Having served in all offices of the GCSAA, Gary additionally gave his time to keep the FGCSA informed of all GCSAA-related activities. He also has done a great job of improving the image of superintendents nationally and here in Florida.

I want to thank each chapter in our state for the great job they do in fund raising each year. I encourage them to keep up the good work. We will all benefit from the money spent for future research. Hopefully, by the time you read this, the University of Florida will have named the new Turf Coordinator so more research can be done in the turf program to benefit all of us.

I have met many superintendents in my 18-plus years at Winter Pines and I hope that you will call me if there is something you would like to see done. Also, I want you to feel free to call me if there is something going on you don’t like or understand.

Here’s looking forward to another successful and productive year.
Is he thinking about drainage, compaction, CEC and moisture retention?

Probably not...

but you ought to be!

SOIL AMENDMENT & TOP DRESSING

Benefits of Ecolite:

- Improves infiltration and percolation rates
- Increases the retention of plant-available water
- Remains stable in soil
- Boosts soil cation exchange capacity
- Increases nitrogen retention and uptake
- Improves the utilization of potassium
- Dramatically reduces nitrate leaching to ground water
- Particle size falls within USGA specification for greens
- High in potassium, low in sodium
- 100% natural, ecologically safe

Better than peat or sand, providing adsorption, absorption and optimum drainage

Implements playing surface
Balances air & water
Prevents nutrient leaching
Increases N efficiency

Western Organics Inc.

It is incumbent upon all of us to offer our suggestions on what can be done to improve upon the Conference and Show schedule to attract FGCSA members. We are well represented within FTGA.

It is with great pride and pleasure that I address the membership of the FGCSA as your vice president. As is the case with many of my predecessors, I am starting off on the wrong track by writing this days after the deadline! Perhaps more than many others before me, I am distinctly aware of what goes into the making of each issue. I had the pleasure of serving as Dan Jones' assistant during part of his fine tenure as editor of the Florida Green Magazine. I have vowed to Joel that this will be my only tardy submission. I hope the next two years during which I will be addressing you will enable me to hold true on that promise.

**FTGA**

What do those letters stand for to the majority of us? After the poor attendance by FGCSA members at this year's conference, some may say that it stands for the Forgotten Turfgrass Association.

We must not allow this to happen!

The FTGA must remain a viable entity in Florida. This organization has taken tremendous strides to improve the position of the turfgrass industry in the state. Ladies and gentleman, we are the most important component of the turfgrass industry.

This organization has repeatedly altered its schedule and programs to address the concerns of the golf course superintendent in Florida. It is time for the FGCSA membership to show its support to our sister organization. Three of the four members of their Executive Committee are golf course superintendents. The president, David Barnes, represents a sod producer whose primary customers are golf course superintendents.

It is incumbent upon all of us to offer our suggestions on what can be done to improve upon the Conference and Show schedule to attract FGCSA members. We are well represented within FTGA.

The vendors upon whom many of us rely for the majority of the year deserve our attendance. This is their opportunity to visit with each of us on a one-to-one basis. Due to the sheer size of the GCSAA show, personal contact is often not feasible there.

The FTGA relies upon the support of these vendors in order for the Conference and Show to be a success. Without our members' attendance and support, the vendors will not be there to support the show, which will have a negative impact on FTGA.

We must rally behind this organization. Lend your support, and attend next year's Conference and Show!

**Ready or not, here they come!**

The winter masses have undoubtedly descended upon us by now. I hope that all our members are prepared for another season. Summer projects are a forgotten dream. The days are shorter, and the nights are cooler. Let's all take time to privately rejoice in our accomplishments. No one knows better than ourselves the fruits of our toils, which will become our golfer's reward for the coming season.

Finally, let us not forget our support at home. The holiday season will be rapidly approaching. We all deserve some Holiday Cheer!
There's more than fertilizer in this bag.

There's a total resource. One that can help you grow healthy, green turf with a strong root system and a solid base. Turf that's healthy and better able to fight disease, pests and everyday wear and tear. That resource is Terra. You'll find a complete, new line of Terra Professional Fertilizers — with primary, secondary, micronutrient and pesticide packages available. Plus, you can count on the support, service, assistance and expertise it takes to select and use the right fertilizer. The product that will do the job for you. For fertilizers, turf seed, plant protection products and a whole lot more — work with Terra. You'll get more.

Working with you.

The 21st Crowfoot Open weekend began Saturday, August 2, 1997 with the Summer FGCSA Board of Directors meeting and FGCSA Annual Meeting for election of officers.

The new officers for 1997-98 are Joe Ondo, CGCS, president; Mike Perham, CGCS, vice president; and Darren Davis, secretary/treasurer. Other highlights of the meeting included:

- Adoption of the 1997-98 operating budget
- A report from Roy Bates, president of the FTGA on the final stages of the IFAS Turf Coordinator selection
- Roy also gave an update on the movement to found a Florida Golf Alliance of all major golf entities in the state. The FTGA and FGCSA remain key players in this endeavor.
- Golf Agronomics donated $6,000 from proceeds of their rebate program. This makes six straight years of participation by GASH. Their donations have exceeded $30,000.
- Review of the 1997 Florida Legislative session by consultant, Mike Goldie.

The Fall FGCSA Board Meeting is scheduled be a two-day affair, Nov. 7-8, at the Grenelefe Resort in Haines City. The meeting will feature Joe O’Brien of the GCSAA as facilitator of a one-day planning and organizational assessment session on Saturday following the regular board meeting on Friday. All chapters should send their representatives to this informative working session.

Sunday, Aug. 3 was spent in practice rounds and theme park visitation as superintendents’ families took advantage of the Crowfoot Open’s proximity to Disney World, Sea World and Universal Studios. Later that evening, the traditional banquet got a new look as a casual pool party held at the host Grand Cypress Villas. After a sumptuous buffet dinner, the crowd was entertained by a Polynesian revue complete with hula dancers who selected willing subjects from the audience.

Host Tom Alex announced that the Crowfoot Open will be known as the Larry Kamphaus-Crowfoot Open in honor of Walt Disney World superintendent Larry Kamphaus who served as chairman of the event for the past 17 years.
