"Now instead of fixing sprinkler heads, our irrigation specialist is helping us mow."

Dale Davenport, The Golf Center at Kings Island

After attending a GCSAA seminar on irrigation efficiency, Dale Davenport was convinced that Toro could take his productivity to new heights. "All I could say was 'Wow!'" recalls Davenport, V.P. of Grounds & Course Conditioning for The Golf Center at Kings Island. Today, the Toro 750 and 780 sprinklers he chose "...are saving us a lot of hours because they're so dependable. Now, instead of fixing sprinkler heads, our irrigation specialist is helping us mow." With fewer parts, simple maintenance, and 35 years of field experience built in, Toro sprinklers deliver peace of mind. In fact, Dale Davenport describes them in two words: "No problems."

For more information see your Toro distributor or visit www.toro.com.

The Golf Center in Mason, Ohio uses a Toro irrigation system with 750 and 780 sprinklers exclusively because, as Dale Davenport puts it, "Seeing the reputation of Toro and the distributors in my area, and how it compared to other systems, I had to choose Toro."
IRRIGATION RENOVATION IS HIS SPECIALTY
BUT LISTENING IS HIS STRONG POINT

Toro distributors are experienced renovation specialists. And with experience comes the knowledge that listening is the most important part of a system renovation. After all, you know your course better than anyone. Once you've shared your plans, goals and concerns, your Toro distributor will work closely with you during every step of the renovation process. Then, you can count on them to be there throughout the life of your irrigation system. The world's number one irrigation renovation experts are ready to listen when you're ready to talk.

Call your Toro distributor today.
TORO NATIONAL SUPPORT NETWORK
DEDICATED IRRIGATION SUPPORT FOR SUPERINTENDENTS

We're always prepared to answer your call for help. With 17 licensed irrigation experts on staff, the Toro National Support Network (NSN) offers fast system troubleshooting, problem-solving, remote diagnostics, or just friendly advice. Enroll your course today. Call 800-ASK-TORO, or contact your Toro distributor. With NSN, there's always help at the end of the line.

My hat is off to the FTGA Board of Directors and its staff for presenting the professionals of the turfgrass industry such a wonderful opportunity for education, fellowship, and networking at the FTGA Conference and Show at Gainesville in August.

The Board and the various committees involved with the event listened to suggestions and desires from industry and certainly made every attempt to appease the masses.

Were they successful in their attempt to pump new life into the annual conference and show? Well, if you go strictly by the number of attendees, they probably were not. However, those who took the time and made the effort to take part in this outstanding event were treated to a first class affair that certainly was as good as, and — to most attendees — probably better than any previous FTGA Conference and Show.

Once again, the excuses for choosing not to attend will be rampant and, while some will definitely be legitimate, others will be almost humorous not to mention “old” and overused. Yes, I said “choose” because it is after all a choice for most people to attend just as it is a choice for most golf course superintendents whether to be a member of a professional association like the FGCSA.

I have heard, “Isn’t it enough that I send in my dues each year? After all, by paying my dues I am supporting the association, right?”

Well, it would undoubtedly benefit us all if we had every individual in our profession who resides in Florida as a member of the FGCSA, but being a dues-paying member is not enough. Associations such as the FGCSA do not make a profit on dues. In fact, the money raised from dues covers only a fraction of the expenses required for the association’s day-to-day operations. Obviously, since dues do not even cover expenses, they are not being used to pay for research, public relations, or other services the FGCSA and the FTGA provide their membership that allow superintendents to do a better job and gain respect in their chosen profession.

Where does this extra money come from? I hate to say it but to be blunt... vendors, from direct donations, participation in trade shows, sponsorship of events or rebates. And, just as dues do not provide profit, the entrance fees for our meetings and golf outings in most situations merely cover the costs associated with the event. The money raised from these events and subsequently donated to the various associations in most situations comes from support by vendors.

The bottom line is vendor participation for most Superintendents is a double-edged sword.

Just like most of you, I have said, “Isn’t this supposed to be a golf course superintendents’ association”? Or, “It seems like the majority of the people at these events are vendors!”

Well, like it or not, we need and rely on vendor support to raise money for advancements in the profession and vendors are going to attend meetings, golf outings, and trade shows in order to associate themselves with their customers... you!

You should be asking yourself, “How long will vendors continue to support our associations if their customers (you and I) do not attend the events that allow them to come in contact with us. Is it enough to just send in your dues check every year? That is a question that only you can answer.

I would like to thank the vendors that have been longtime supporters of the association and especially those who made the effort to sponsor and support the recent FTGA Conference and Show. The money raised by the FTGA is used for turfgrass research that directly benefits the members of the FGCSA. I would also like to thank the countless volunteers of the FGCSA, the local chapters and the FTGA for devoting your personal time to provide quality education, and events in an effort to entice your peers to attend these extracurricular outings that benefit them and the profession as a whole.

Thank you and I look forward to a productive year as president of the FGCSA.
We'll keep your grass Out of trouble!

We have the products, the people and the experience to help you keep your grass out of trouble. These are what have enabled us to provide you with Quality, Value & Service for over 40 years. Textron is the largest manufacturer of turf care products in the world, and Kilpatrick Turf Equipment has the most extensive product line of turf care products in the world. INTRODUCING
THE SYSTEM DESIGNED TO PUT
MOLE CRICKETS
WHERE THEY BELONG.

THE CHIPCO® CHOICE® INSECT CONTROL SYSTEM. Forget the past. There has never been anything like the new CHIPCO® CHOICE® Insect Control System for putting an end — once and for all — to one of the most destructive pests a golf course superintendent has to face: Mole crickets. The CHIPCO® CHOICE® System utilizes an entirely new kind of chemistry that will deliver unmatched control of mole crickets for six full months. WE GUARANTEE IT. We're so confident that CHIPCO® CHOICE® will keep your valuable turf free of damaging mole crickets that we'll make you an offer no one else would dare consider: The CHIPCO® CHOICE® guarantee. If you're not completely satisfied with the mole cricket control you
receive with the CHIPCO CHOICE System, simply call our 1-800-334-9745 hot line number. We'll make sure your turf is properly protected for the full six months. **WE'LL EVEN APPLY IT FOR YOU.** Here's another unique feature of the CHIPCO CHOICE Insect Control System: It's available only through CHOICE-certified applicators who will use carefully calibrated slit applicators designed to deliver this revolutionary new chemistry in the most precise and effective manner. So you don't have to worry about warehousing chemicals, calibrating equipment or timing applications. This year, put mole crickets where they belong with the satisfaction guaranteed control of the new CHIPCO CHOICE System.
Machine-Gun Al Asks Questions in Rapid Fire

Dedicated S. Fla. Superintendent Receives FGCSA President’s Award

BY ROBERT G. KLITZ, CGCS

So who is Al Ross? When asked directly he said, “Al Ross is a realist who says what’s on his mind. Hopefully people will view this as honesty. He is loyal, sincere, and helpful.” He gave a very accurate self description.

Here is a man who has dedicated the past 19 years of his life to the Sunrise Country Club and at least 14 years of service to the South Florida GCSA. I will not be discussing the mowing height of Al’s greens; his weed-control program; or what color annuals he plants at the clubhouse. I will be providing some insight into the real person that we in South Florida affectionately call “Machine-Gun Al.”

When you meet Al in person, he is friendly but somewhat distant. He will shake your hand, grunt a greeting acknowledging of your presence, and then look away if not immediately engaged in a conversation. But, if you possess information that interests him, be prepared for an interrogation of rapid-fire intensity.

Al will stare at your face, study your expressions, and pump every last bit of information out of you until every important aspect has been revealed, and you have strongly stated your case.

Al’s interrogations approach the intensity of a detective grilling a perpetrator. Your voice will tremble, beads of sweat will roll and accurately, and be prepared to support your statements. Don’t be surprised. This is actually how Al treats all of his friends!

Al’s experience in turf

So, how Al treats all of his friends!

Machine Gun Al’s Bullet Points for Young Bucks

Work Ethic
- Take your time and enjoy your experiences
- Don’t expect to go anywhere fast.
- Be loyal to your employer.
- If your job performance and results impress your boss, greater opportunities will develop for you.
- Focus on the benefits of long term employment.

Association Involvement
- Fellowship and relationships.
- Education.
- It is your duty to make a commitment to your local chapter, and to help out in any way possible.
- If you are a veteran superintendent with years of experience, you have a responsibility to help out the assistants and inexperienced superintendents by sharing your knowledge and experiences.

Most Significant Accomplishments
- Tree Program - Removing exotics such as Australian Pine and melaleuca and replacing them with native trees.
- Installing computer controlled irrigation system.
- Greens renovation and development of a master plan in 1994 with golf course architect Chuck Ankrom.
- Negotiations with developer of surrounding property which resulted in drainage enhancements, additional waterways and a long term financial commitment.
- Installation of two extra holes that permit 18 holes of golf to be played, when any other two greens are under renovation or aeration.

Al left Long Island on a Saturday, arrived in Florida on Sunday, closed on a house on Monday, started looking for work on Thursday, was hired at Beacon Woods on Friday and started work the following Monday. That is typical Al Ross intensity.

Al started at Beacon Woods as the assistant superintendent and worked there for five years. Beacon Woods was at the early construction stage, so he had the opportunity to work through grow-in. Al received his first superintendent’s job at Inverness where he stayed for two and one half years. Al then moved to Sunrise C.C. as superintendent and has remained there for the past 19 years.

and then decided on golf course turf management. During summers Al worked at the school for faculty members, Drs. Bing and Hyde. After receiving his degree, Al decided to move to Florida and get a job on a golf course.

When informed that Al was moving to Florida, his mother was obviously concerned that he might move in with her in New Port Richey. So she visited Fred Tucker at Timber Oaks Golf Club and told him that Al was moving to Florida with a degree in turf and that he was looking for a job on a golf course.

Tucker contacted Harvey Phillips at the Biltmore Belleview G.C., Dan Hall at Countryside C.C, and Chuck McCracken at Beacon Woods.

Al started at Farmingdale State University in Long Island, N.Y. He was searching for a major that would include his love for working outdoors. He tried horticulture and sod production, and started at Farmingdale State University in Long Island, N.Y. He was searching for a major that would include his love for working outdoors. He tried horticulture and sod production,
Al refers to himself as “The Certified Golf Course Superintendent at Sunrise Country Club,” but over the years his responsibilities have grown to include serving in a general manager’s capacity. While he oversees all aspects of the golf operation, his focus remains on the golf course itself.

Al’s commitment to the South Florida GCSA began in 1986. He was offered the glamourous role of chapter shirt salesman for his first year of duty. He dragged the big cardboard boxes to every meeting, set up his display table, sold one or two shirts, and then dragged everything back to the car. He did all this without a single complaint. This was his assignment, his duty, and he performed it to the best of his ability. Al moved forward through all the officer positions and served as president of the SFGCSA in 1991-92.

He continues to serve on the board, currently assisting with education, and will remain as long as his services are requested. Al feels a need to contribute to an organization that has provided such a positive influence on his career, and his performance as a superintendent. He feels that the exposure to new ideas at the monthly meetings are an invaluable source of information. He has consistently returned to his club after chapter meetings with money-saving ideas

Computer-Exact Custom Mixes. Every Order. Every Time.
