THE CHIPCO® CHOICE® INSECT CONTROL SYSTEM. Forget the past. There has never been anything like the new CHIPCO® CHOICE® Insect Control System for putting an end — once and for all — to one of the most destructive pests a golf course superintendent has to face: Mole crickets. The CHIPCO® CHOICE® System utilizes an entirely new kind of chemistry that will deliver unmatched control of mole crickets for six full months. WE GUARANTEE IT. We're so confident that CHIPCO® CHOICE® will keep your valuable turf free of damaging mole crickets that we'll make you an offer no one else would dare consider: The CHIPCO® CHOICE® guarantee. If you’re not completely satisfied with the mole cricket control you
receive with the CHIPCO* CHOICE™ System, simply call our 1-800-334-9745 hot line number. We’ll make sure your turf is properly protected for the full six months. **WE’LL EVEN APPLY IT FOR YOU.** Here’s another unique feature of the CHIPCO*CHOICE™ Insect Control System: It’s available only through CHOICE™-certified applicators who will use carefully calibrated slit applicators designed to deliver this revolutionary new chemistry in the most precise and effective manner. So you don’t have to worry about warehousing chemicals, calibrating equipment or timing applications. This year, put mole crickets where they belong with the satisfaction guaranteed control of the new CHIPCO*CHOICE™ System.

GUARANTEED.

Steve Melnyk, second from left, presented Alan MacCarrach and Mike Richards scholarships to Kyle Tapp, David Younger and Matt Durkee all Lake City Golf Operations students. Melnyk, an ABC Sports golf announcer and former PGA Tour player, was also the keynote speaker at the Mike Richards Memorial Scholarship Tournament at the Jacksonville Golf & Country Club. Photo by Joel Jackson

This format provides a great venue for all facets of the superintendent’s business world to get together for some fun and informal education and networking.

This year three Lake City Community College students were awarded scholarships. Wayne Durkee, a third-year student in the golf course operations program was awarded the $3,000 Mike Richards Scholarship. Durkee also holds a bachelor’s degree in business administration from Flagler College. Durkee credits his association with superintendents Frank Sabarro (Sawgrass CC) and Tom List (Ocean City G&YC) as having a tremendous influence on his commitment to the industry and respect for the environment.

David Younger and Kyle Tapp were each presented with a $1,500 Alan MacCarrach scholarship. Younger is also a third-year student in the LCCC golf course operation program and currently holds a 3.8 GPA.

Younger cites gaining valuable experience in his chosen field under the tutelage of North Florida superintendents David Lowe (The Plantation CC) and David Amirault (Deerwood CC).

Tapp will graduate from Lake City’s turf equipment managers program in May. Building on a strong mechanical background, he plans to seek a career in golf course operations where he can apply his collective experience. Tapp garnered high praise from his instructors in the TEM program.

The event was held at the Jacksonville Golf and Country Club under the guidance of host superintendent Greg Tharp and golf professional Chip Dutton. The course and service were exemplary. The kudos for the planning and implementation of the event go to the outstanding committee of Kim Shine, Jim Shine, Tom Brennan, Clayton Estes, Kelli Bohn, Steve Richards and Paul Hamrick.

Keynote speaker was former Gator golfer and PGA Tour star Steve Melnyk. Melnyk is currently an announcer for ABC Sports and also is active in golf course design. Melnyk had high praise for the superintendent profession in general and special kinship with the Jacksonville area association. He helped present the scholarships after the tournament and urged the recipients to stay in the area if possible and to be active in the profession.
Here in Florida, a goosegrass escape isn't exactly front page news. But when a super who I've dealt with for years called me in something close to panic because his goosegrass treatment was leaving ugly brown spots, it got my attention. Seems the problem was caused by an old fashioned herbicide that he'd used for years. I suggested he change to an Illoxan® Herbicide postemergent program to control goosegrass right through the year. He liked the idea, incorporating it into his IPM program. Even sent me a goose call in the mail, just in case the problem should ever reoccur. Fortunately, it hasn't.
Weather.

Rain or shine, GoldCote™ delivers the nutrition your turf needs, when it needs it.

Terra® Fertilizers with GoldCote™ release nutrients based on soil temperature, not moisture. As turf root activity and nutrient requirements increase with soil temperature, the release of nutrients also increases.

Your turf has exactly what it needs when it needs it. You can count on predictable, controlled release, and superior nutrition with fewer applications.
GoldCote

Talk to Terra about the entire line of high-quality Terra fertilizers with GoldCote. There’s one that’s right for your turf.

Working with you.

The Seven Rivers GCSA, in conjunction with the Florida Turfgrass Association, awarded $72,000 from Envirotron Classic proceeds to the University of Florida for a three-year light/shade study on putting greens. On hand for the presentation are, from left, Scott Wahlin, CGCS, president of the FTGA; Mike Swinson, CGCS, president of the Seven Rivers GCSA and Dr. Grady Miller of UF. Photo by Joel Jackson.

Dr. Jerry Sartain, also received a grant of $26,000 from the Envirotron Classic Research fund to continue his turf fertility studies at the University of Florida. Scott Wahlin, CGCS, left and Mike Swinson, CGCS, make the presentation on behalf of the FTGA and the Seven Rivers GCSA. Photo by Joel Jackson.

From UF President John Lombardi...

I want to thank you for your efforts on behalf of the University of Florida earlier this year. I am humbled and inspired by your support throughout the difficult period we experienced. Your hard work during this time is a tribute to the love many share for the university, and you have my sincere gratitude.

As you are all aware, turfgrass plays an important and vital role in the state of Florida and the nation. Turfgrass is among the top environmental resources we have today, from providing a safe and comfortable setting for athletics, as well as a lush, attractive carpet for home lawns, business, and educational institutions.

The Envirotron Research Laboratory at the University of Florida provides scientists with a first-rate facility through which to study the entire turfgrass system and develop new growth and maintenance procedures. At the University of Florida we feel that 1999 will bring positive results from new and innovative ideas and concepts as well as a positive movement forward with administration changes. Your support of the Envirotron Golf Classic will help perpetuate this progress. We greatly appreciate your effort for this tournament.

I am as ever committed to the University of Florida, and look forward with excitement to the future.

All of us at the University appreciate your generous investment of time and effort. The University of Florida is fortunate to count you as a friend and supporter.

Sincerely yours,
John Lombardi

by golf construction company, Barbaran, Inc., the Champion Sponsor, the 1999 event topped the $50,000 mark in proceeds.

The Seven Rivers Chapter goes about their daily work quietly and each year throws a blockbuster event that pumps much needed funding into the University of Florida. The hard work that goes into this event and the superb results did not go unrecognized by Dr. John Lombardi, president of the University of Florida. A letter from Lombardi to the Seven Rivers Chapter Lombardi accompanies this article

29th Annual POA Annual Classic

Naples Gathering Becoming FGCSA Family Reunion

Over the years we have watched the Naples Beach Club grow and renovate as we make our way each May to Naples for business, golf, education, networking and

No event just happens! Key members of this year’s successful Poa Annual Classic weekend included (l-r): Odell Spainhour, Jim Osburn, Steve Durand and Mike Smith. Photo by Joel Jackson.
REWARD® Herbicide Works Really Fast.

REWARD herbicide brings precision and speed to your weed control program.

- Works faster than other commonly used landscape herbicides
- The least expensive non-selective herbicide
- Can be used in grounds maintenance, landscape and aquatic areas
- Broad-spectrum — broadleaf, grass and aquatic weed control
- Easy on surroundings
- User friendly
- Low use rates
- Reduces inventory

History of the Poa Annua

The Everglades Chapter of the Florida Golf Course Superintendents Association was two years old when it invited the South Florida Chapter over to Marco Island for a casual get-together. It was 1970 and Stan Clark along with a few other superintendents decided to set up a golf match after the meeting. Things went pretty well and the following year Dwight Wilson suggested that a bucket of Poa annua be given as a gag prize to the winners of the golf match. Since then “Poa” has been associated with the annual meeting.

Around 1972, Doc Anderson offered to supply a meal at the meeting. He left nothing out. Roast pig, sweet corn, ribs, and almost anything anyone wanted was served up barbecue style. In 1975 the get-together was officially dubbed the Poa Annua Golf Classic. As it continued to grow, other chapters were invited and the location of the event was changed to other courses like Lehigh, Mirror Lakes, and Oxbow. It was while the tournament was at Mirror Lakes that the FGCSA Board of Directors decided to have one of its biannual business meetings at the Poa Annua Classic.

The event was held for several years at the Oxbow GC until 1980, when a permanent home was found at the Naples Beach Hotel and Golf Club. The Poa Annua Classic has matured into one of the most enjoyable events of the year. We wish to thank all those who have helped make the Poa Annua Golf Classic what it is today.
