The Critics Have Spoken.

These are actual superintendent quotes from early demos of Jacobsen’s new **Eclipse 122 F** walking greens mower.

"Much better than our current walking greens mower. I like the simplicity of the reel and traction drives."
– Current John Deere Customer

"Excellent quality-of-cut."
– Current Toro Customer

"I like the command center and onboard computer. The clip rate is superior."
– Current Toro/John Deere Customer

"I like the floating cutting unit and that the electric reels can run at 2220 RPM. I plan on buying this mower!"
– Jacobsen Customer

"This unit is superior to other units we’ve demoed. I like the on-demand reel speed, floating cutting unit. SOLD!"
– Current John Deere Customer

"I like the option of gas or battery. The unit has a more flexible head and more decks per cut than our current walking greens mower. I will probably buy this mower."
– Current Toro Customer

"I like the adjustable reel speed. I plan on buying this mower."
– Current Toro/John Deere Customer

Spring into Action

Are you ready for spring? I’m sure all your courses are beginning to look their best as you get ready for those end-of-season member-guest tournaments. I’m just ready for some warm weather.

With the warm weather comes our “favorite” time of year: time to start cranking up those verticutters and aerifying machines that golfers think we just love to run. The warm weather also brings out our favorite little bug – the mole cricket. Right now there is a full-court press on the subject as EPA is looking at possibly canceling the temporary registration of broadcast friponil (Top Choice®).

While there are baits and other insecticides, I do not think there is one that works as well and is as safe as friponil. While they say they are looking at the broadcast application for fire ants, what about broadcast of granular Top Choice applications for mole crickets? Insiders think if we lose one, the other will likely follow, based on EPA’s history.

Out of all the products that have been on the chopping blocks the past few years – Mocap, Oftanol, Nemacur, Methyl Bromide and MSMA – all are gone or going away. So with this latest notice I just would like to put it out there that we must get involved on the chapter and individual level.

When sample letters and talking points are sent out to the chapters everyone must take personal responsibility to draft comments and submit them and not expect that someone else will do it for you. In order to get EPA’s attention there needs to be a significant show of concern on our part about the consequences of losing these products. Silence is consent to allow yet another product cancellation. Our position and concerns are based on science, peer reviewed studies, and real-world experience; the opposition often uses emotion and limited computer models to make their case.

We must show them that we practice what we preach and, for the third time I am pressing that we all sit down and do our BMP manuals. A lot of people worked hard to get these done but they are not doing us any good if we are not using them.

If you do not have the time to sit down and go through the checklist, delegate it to an assistant. That way when he or she moves on they will already be prepared to do them at their new course.

I’m confident that most of you are probably doing 75 percent of the BMPs but it doesn’t do the industry any good unless you are documenting it.

Shane Bass, CGCS
President

I’m confident that most of you are probably doing 75 percent of the BMPs but it doesn’t do the industry any good unless you are documenting it.

To make their case.

We must show them that we practice what we preach and, for the third time I am pressing that we all sit down and do our BMP manuals. A lot of people worked hard to get these done but they are not doing us any good if we are not using them.

If you do not have the time to sit down and go through the checklist, delegate it to an assistant. That way when he or she moves on they will already be prepared to do them at their new course.

I’m confident that most of you are probably doing 75 percent of the BMPs but it doesn’t do the industry any good unless you are documenting it. I promise I this will be the last time you hear me mention the BMPs but I sure would like to say one day that 100 percent of Florida golf courses are in compliance with the BMP manual.

Spring has sprung and soon we’ll be on the summer run. I hope you had a decent golf season.
FGCSA Members Make Headlines at GCSAA Conference and Golf Industry Show

Opening day of the Golf Industry Show in New Orleans looked almost normal, but when the week was over, total numbers were predictably lower than the past few years as the recession took its toll on attendance and participation. Photo by Joel Jackson.

Superintendent Craig Weyandt shared how he organizes and conducts nature walks on his golf course at one of the GCSAA Innovative Superintendent sessions. Photo by Joel Jackson.

GCSAA Champion Seth Strickland, left, from Miami Shores CC, met with U.S. Ryder Cup Captain and Opening Session keynote speaker Paul Azinger before receiving the trophy for his second national championship in a row. Photo by Bruce Mathews. Courtesy of GCSAA.

Tim Hiers, CGCS, left, first president of the Florida GCSA, was recognized with the 2009 GCSAA Excellence in Government Relations Award by GCSAA President David Downing, CGCS during the Opening Session at the Morial Convention Center in New Orleans. GCSAA photo by Bruce Mathews.
We want to sincerely thank this year’s sponsors for stepping up to support the 2009 event during these challenging times.

2009 Calendar of Events

FGCSA Chapter Events

**MAY**
- May 4 or 11 – Treasure Coast GCSA Blue Pearl Tournament, The Medalist Club
- May 7 – FGCSA Spring Board Meeting, Naples Beach Hotel
- May 8 – USGA Workshop/FGCSA Seminar 8 a.m.-Noon, Naples Beach Hotel
- May 8 – GC Horn Endowment Tournament, Naples Grande GC
- May 9 – Poa Annua Golf Tournaments: Classic at Naples Grande GC and Scramble at Naples Beach Hotel GC
- May 9 – Poa Annua Luau Dinner, Naples Beach Hotel 6 p.m.
- May 18 – Central Florida GCSA, Chapter Championship: Orange County National GC
- May 20 – UF/IFAS Turf Field Day, Plant Science Center, Citra
- May 30 – Palm Beach GCSA Fishing Tournament

**JUNE**
- June 4 – Everglades GCSA Vendor Appreciation Day, Wyndermere G.C.
- June 6 – Palm Beach GCSA Future of Golf Tournament, The Falls CC
- June 15 – Central Florida GCSA Meeting, The Legacy Club
- June 18 – Seven Rivers GCSA Annual Meeting, Candler Hills GC

**JULY**
- July 20 – Central Florida GCSA Annual Meeting, Dubsdread GC
- TBA – Everglades GCSA Annual Meeting

**AUGUST**
- Aug 7 – FGCSA Annual Meeting, Disney’s Osprey Ridge GC
- Aug 8 – Central Florida GCSA Larry Kamphaus Crowfoot Open, Reunion Resort
Welcome to the 27th Annual Suncoast Scramble.
We want to thank this year’s sponsors for their support.

Special thanks to Superintendent Darden Nicks and the Laurel Oak C.C. management and staff for hosting our event.

Dr. Paul Raymer continues to work on developing enhanced paspalum cultivars for a range of fine-turf applications. His primary emphasis is on improving salt tolerance and disease resistance as well as turf quality traits. Currently our Seaisle 1 is in wide use on fairways and roughs, while Seaisle 2000 and Seaisle Supreme have proven themselves as excellent wall-to-wall cultivars. All three exhibit exceptional turf quality and salt tolerance, and are among the best seashore paspalum varieties available on the market today.

**SeaIsle 1**
- Extremely salt-tolerant
- Good choice for fairways, tees, roughs and transition areas
- Low N fertilization requirement
- Bred for multiple environmental stresses and conditions

www.seaisle1.com

**SeaIsle 2000**
- Similar in playability and texture to hybrid bermudas
- Tolerates effluent with very high contamination levels
- Plant wall-to-wall for greens, tees, fairways and roughs

www.seaisle2000.com

**SEA ISLE SUPREME PASPALUM**
- Superior salt tolerance
- Low-growing, rapidly spreading, aggressive semi-dwarf cultivar
- Perfect for greens, tees, fairways, roughs
- Tolerates wide range of mowing heights

www.seaislesupreme.com

**PREMIUM SEASHORE PASPALUM FOR GREENS, TEES, FAIRWAYS AND ROUGHS**

Island in the Stream

By Joel Jackson, CGCS

When Craig Weyandt was 10 years old, his dad taught him how to mow the yard. When he looked back after his first pass with the mower and saw the neatly cut turf, he felt a sense of accomplishment and it felt good. Thirty-three years later, making sure the grass is cut properly is his job, but he has accomplished a whole lot more.

Weyandt is the golf course superintendent in charge of The Moorings Club, a 75-acre, par-64 gem in a tropical setting along the Indian River in Vero Beach. As Weyandt’s turf management experience grew, so did his awareness for his environment. He has become an ambassador for the positive impacts his golf course has made as a wildlife sanctuary and living laboratory for learning about nature. He is a past president of the...

Originally from: Middleburg
Family: Wife Teri, sons Travis (24) and Connor (14)
Education: A.S. in golf operations from Lake City Community College
Professional Affiliations: Member of the GCSAA, FGCSA, USGA, FTGA. Past president of the Treasure Coast GCSA and Florida GCSA. Served on FGCSA, USGA and GCSAA Research committees.
Goals: Get The Moorings Club certified in the Audubon Cooperative Sanctuary Program. Become a Florida Master Naturalist. Compete in an Ironman competition.
Hobbies & Interests: Surfing, running marathons, triathalons and enjoying nature.

Craig Weyandt applies a little dab of The Moorings “magic dust” to ball marks and divots. Photo by Joel Jackson.

Florida GCSA and this past February Weyandt presented an “Innovative Superintendents” session at the GCSAA Conference in New Orleans: How to Organize and Conduct Nature Walks on Your Golf Course.

The Moorings Club is a residential golf community on Orchid Island near the Gulfstream in the Atlantic Ocean. The property is on the eastern shore of the Indian River with most of the front nine comprising a peninsula jutting into the river offering dramatic waterfront views. Because of this sensitive location Weyandt has learned to minimize inputs while maintaining turf quality.

“I definitely do more spot treating than ever before,” he said. “This includes disease management. I would never have thought to apply a fungicide to just a few greens or even just a spot on a green 10 years ago, but I do today. While I can credit being more environmentally conscious as one reason, on-site experience and overall turf management experience count for a lot. While products have improved, old-school methods of mapping, timing treatments and monitoring, I believe, give much better control and keep down costs.”

Being proactive in his management practices means Weyandt must have a good communication plan in place to keep everyone informed of the hows and whys of his programs.

“Most used form of communication is e-mail.” Weyandt said. “I relied on email so much that I switched to a Blackberry phone just so I could send and receive e-mails from anywhere. Before the phone, I would have to sit at the computer and read e-mails for what seemed like hours. Now I can monitor my e-mails 24 hours a day. Like anything else, it is a tool that must be managed. The good thing about having access to my e-mails on demand is that it allows me to take care of something much faster than before. I can read mail as it gets to me, rather than reading 20 or 30 each morning.

“I use e-mails to communicate with staff and other departments in letting them know when the course is ready to open.”
