It's No Longer Fair To Compare.
Introducing Fleet Classic.

It's first class transportation. And, thanks again to Yamaha innovation, the new Fleet Classic is the first in a class by itself. • The Fleet Classic's breakthrough design features the Yamaha UltraPath 3-Link Rear Suspension that delivers a remarkably smooth ride. Choose the electric model and Yamaha's PaceSetter Solid-State Speed Controller comes standard, making it the most economical car of its kind. The gas model holds up to the rigors of more rounds because it's powered by our proven OHV 4-stroke engine, designed exclusively for golf cars. • However, the Fleet Classic's distinctions extend beyond unmatched performance. Its high-grade painted Metlon body is as stylish as it is rugged. Plush wide seats and generous legroom add to the passenger comforts. • So once more, Yamaha's turned golf car luxuries into standards. But nobody ever said we had to play fair. • Call 1-800-447-4700 for your dealer.

YAMAHA USA
Better in the long run.
Take the turf test you can’t fail.
1. How much 8-4-24 fertilizer would need to be applied to get \( \frac{1}{2} \) lb. of K. per 1,000 sq. ft?
   a. 1.66
   b. 1.05
   c. 2.00

2. What is one of the advantages of using Sulfate of Potash over Muriate of Potash?
   a. Faster release
   b. Better root development
   c. Lower burn potential
   d. All of the above

   a. Acclaim
   b. Bensulide
   c. DCPA

Correct answers on back.
You’ll always make the grade on your toughest turf tests when you choose Lebanon.

When you’ve got Lebanon Total Turf Care on your side, you’ve got all the right products, all the expertise and all the answers you need to keep your course in top condition.

Our premium quality Country Club and Greenskeeper homogeneous fertilizers are formulated with time-proven methylene ureas and sized uniformly for greens or fairways. So every granule delivers a constant, predictable release of plant food—giving you quick green-up, consistent growth and color and a residual base you can build on year after year.

Lebanon quality also delivers one of the most efficient cost-per thousand figures in the industry. So you’re assured of dependable product performance at an exceptional value.

And nobody offers a wider selection of products for your course—granular or liquid, straight or in cost-effective control combinations.

All our Country Club and Greenskeeper products are backed by a coast-to-coast distributor network of experts who can help you select the right products for your unique course conditions. Respond to changing inventory needs. And provide you with absolutely the latest information on product application and timing.

That’s why even the toughest turf problems can be solved with Lebanon quality and know-how on your side.

For more information on our complete line of Country Club and Greenskeeper Turf Care Products—along with the professionals who stand behind them—contact your local distributor or call our Greenline today, at 1-800-233-0628 or 717-273-1685.

The price you pay for waiting.

New Cushman® GA60 with Turf-Truckster®

$21,900*

If you waited for the new Cushman GA60 large area aerator, your patience is about to be well rewarded.

The GA60 has proven to be the most effective reciprocating fairway aerator available. Features such as twin GA30 aerating heads, its own Cushman 327 liquid-cooled power source, a unique 5th wheel configuration, and an exclusive ground speed governor place the GA60 well ahead of the competition in terms of technology and performance.

It also has a price tag that will save you thousands of dollars if you act now. Order before April 1, 1990, (for delivery this year), and you can own a GA60 plus a Cushman 222-powered Turf-Truckster at the introductory price of $21,900, or a GA60 alone for just $15,400.* We are also offering an exceptional leasing program with up to 6 months deferred payment.

Nothing can deliver greens-caliber aeration over a larger area for as little money as the new Cushman GA60. It will definitely be worth your wait in gold. For all the details, contact your Cushman dealer.

*Does not include sales tax, freight, dealer prep or delivery charges; suggested price listed in U.S. dollars. Prices may vary with region. Delivery subject to availability.
Do any of these tough problems need fixing on your course today?

- How to permanently stop soil, rock and weeds from mixing with sand in traps and bunkers?
- How to construct all-weather cart paths and walkways that don’t trap water and stay free of mud and weeds?
- How to prevent silt, mud and weeds from invading around timbers, ties, pavers, and stepping stones.
- How to build permanent erosion control into steep hills and slopes?
- How to get both immediate and long term erosion control for swales and drainage canals.

Fix them for good... with Warren's® TerraBond® and this set of 5 FREE Construction Guides.

Comparison of each manufacturer's own specifications for 10 geotextile fabrics prove Warren's® TerraBond® is your best choice for course improvement work.

1. Up to 441% thicker, 137% heavier.
2. Up to 100 times better vertical water flow.
3. Up to 300% better air flow.
4. Up to 100% greater ultraviolet resistance.
5. Up to 354% higher tear strength.

Call 1 800 828-8873 Toll Free (8 a.m. to 4 p.m. Pacific time) and Warren's will rush a set of these handy TerraBond Construction Guides to you by return mail, absolutely FREE.

Hyundai. Driven to perfection.

Let's face it, most golf cars look the same. At Hyundai, we focused our resources and research on high performance, low maintenance and longer life. Hyundai Golf Cars were not created in a vacuum, but rather from lessons learned on the golf course. Round after round after round, Hyundais were driven to perfection.

That's why we're proud to introduce the most innovative golf cars on the market today. Our efficient, powerful electric and gas golf cars ensure continuous, trouble-free operation.

A unique suspension system and a wider wheelbase smooth out any terrain and offer a much safer, more comfortable ride.

A body constructed of lightweight impact resistant polypropylene and a frame made with high tensile tubular steel and electrostatically applied paint keep maintenance to a minimum.

More leg room, thickly padded seats, newly designed drink cup holders and spacious storage compartments take care of all the creature comforts.

And yes, Hyundai Golf Cars look great too, especially on the bottom line. A lasting investment that will make a lasting impression on your profit picture. Now that's perfection.

HYUNDAI

NO OTHER PLAYER APPROACHES THE GREEN WITH AS MUCH SKILL OR EXPERIENCE.

And nobody matches Jacobsen greens mowers for precision cut, balance or durability.

Over 65 years of powered greens care experience and innovation make Jacobsen walk-behind greens mowers the industry's standard. And they keep getting better.

The new front roller and no-rust aluminum drive roller are precisely machined to ensure mowing accuracy. With the recognized superiority of the Jacobsen designed reel and bedknife combination, this system delivers the smoothest, truest cut, down to \( \frac{1}{2} \)".

And only Jacobsen uses a 2-cycle engine for longer life, less maintenance and reduced vibration. This smoother running engine is positioned for side-to-side, fore-and-aft balance, for the most precise cut possible.

Choose the 22" unit for the finest tournament-quality cut. Or select the 19" Championship greens mower for an unmatched cut on highly undulating greens. Attach the exclusive Turf Groomer™ for faster, truer, healthier greens.

Team either Jacobsen greens mower with the Turf Groomer greens conditioner for the finest greens grooming system available.

Proven on tournament-play courses across the country, this system increases putting speeds up to 20% without lowering your height of cut. And it cuts those horizontal grasses and surface runners other mowers miss, to reduce grain. For healthier, better looking greens. Greater uniformity from green to green. And truer putting.

Ask your Jacobsen distributor for a free demonstration. Attractive lease and finance plans available. Or contact: Jacobsen Division of Textron Inc., Racine, WI 53403.
