On Diseases.

New Duosan® WSB is safer and easier to use—you handle only the bag, not the fungicide. And, the pre-measured soluble bags insure accurate applications every time.

Because each soluble bag contains both a contact and systemic fungicide, Duosan WSB is tough on diseases. It's labeled to control a broad spectrum of diseases on turf, trees, shrubs and flowers.

Duosan WSB eliminates the need to purchase and store separate fungicides.

In this domain, the King reigns supreme.

A superior quality of cut makes the Greens King IV® the most popular greens mower in the world. With the lightest footprint in the industry, the Greens King has the best weight distribution between all three wheels to minimize compaction. Exclusive features are standard.

Exclusive, fully floating, pivoting reels steer through turns without scuffing or marking on the clean-up pass. Individual reel control and power backlapping are standard to keep reels sharp with less work. The Jacobsen quality reel sets the standard for fine greens mowing. All this at a competitive price.

New, large capacity grass catchers are easier to attach and remove. For maximum durability and economy, choose the 16½ HP diesel with power steering or choose the 16 HP gas engine.

Greens King performance with the ultimate exclusive: Turf Groomer®

Jacobsen's new, patented Turf Groomer greens conditioner gives a smoother, truer putting surface without grain. The unique design increases green speeds up to 25% without lowering height of cut, producing truer and healthier greens.

Now heavier, larger diameter rollers, higher side frame clearance and improved durability make the Turf Groomer better than ever. Quick-lift levers let you raise the Turf Groomer ¾” to skip conditioning.
