PESTICIDE USE PROGRAM ESTABLISHED
FRESNO, Calif. — Orange Enterprises, Inc. has developed JILL-Urban, a new program for recording pesticide use and preparing the monthly 100 percent Pesticide Use report required by California law.

JILL-Urban is a result of JILL-Agricultural, a program used by hundreds of agricultural firms throughout the state. Implementation of the program will provide the user with a total management program, allowing comprehensive invoicing capability and complete inventory control, as well as detailed cost accounting.

The data-base program was named after Jill Atkinson, a secretary who once spent long hours recording all the information manually in her scrupulous index files. Businesses or applicators expected to use JILL-Urban include landscaping, structural, golf courses, nurseries, maintenance, municipalities, irrigation and school districts, and chemical applicators.
