E-Z-GO builds cars that are powerful, quiet and dependable. E-Z-GO cars are packed with innovative technology like a 4-cycle, twin cylinder overhead cam engine in the gas model and a solid state energy control in the electric.

But beyond that, E-Z-GO also offers a variety of flexible financing options that makes it virtually hassle free to put a fleet on your course, and a worldwide service and distribution network that no other manufacturer can match. Plus, E-Z-GO provides you with the widest range of support technology available anywhere in the industry.

In fact, our services extend into almost every aspect of fleet operation. We can help you develop a more profitable and smoother running fleet. We can also give your players a comfortable, roomier, more enjoyable ride. That way, everyone gets what they want.

Which is probably why E-Z-GO is on more of the top 100 U.S. courses than all of our competitors combined.

Call 1-800-241-5855 to find your nearest E-Z-GO representative. Take a car for a test drive. You’ll see we left nothing out.
WITH ALL THAT HAS TO BE DONE TO MAINTAIN A CHALLENGING COURSE, WHO HAS TIME TO NURSE DISEASED TURFGRASS?

Virtually all of the top golf courses in the United States use Banner.

What these course superintendents have discovered is that a preventive turf program that includes Banner is more efficient. Not just because it's effective against a broad spectrum of diseases like Summer Patch, Dollar Spot, and Anthracnose. But because of its low effective rates and long residual.

Which means that when you use Banner, you treat on your own schedule. Not the disease's.
GO WITH THE LEADER.

For over twenty years, Fore-Par accessories have been leading the way on golf courses around the world. Universally recommended by golf course superintendents, Fore-Par combines custom design with unparalleled workmanship, durability and ease of maintenance.

Renowned for the industry leading tubular swivel flag and modular flagpole, Fore-Par’s better known innovations include the classic golf ball on a tee marker, the wedge shaped anti-rebound tee marker, custom cast tee markers, truly distinctive practice green markers and our virtually indestructible elasto signs. For unlimited choices and consistent quality it doesn’t get any better than this.

So equip your golf course with the finest accessories available. Call for your free Fore-Par catalog today!
MORE GOLF COURSES ARE CHOOSING HUNTER

More golf courses are choosing Hunter sprinklers, valves and controllers for reliable performance and innovative technology. Sophisticated and easy-to-use, Hunter irrigation products apply water efficiently and without waste.

Hunter is known as the innovator in low-pressure, low-precipitation irrigation, an approach that conserves water and energy, and often saves money. Directing the Hunter system is the revolutionary ETC (for evapotranspiration control), a programmable controller that calculates and schedules the precise daily water needs of up to 24 stations. It operates as a stand-alone unit, in a network, or as a component in Hunter’s golf management system, GIMS.

Hunter has a golf product for every irrigation need, and they are available at a reasonable price. Please visit us at the GCSA Show in Anaheim.

Hunter golf course irrigation products include sprinklers, valves, the ETC controller and computer software.
Use the Turf Care® Pros for any number of growing problems. 104 to be exact.

Professionals count on the Turf Care Pros. To treat diseases, Daconil 2787® is the cornerstone of your management program. The broadest-spectrum fungicide on the market, it controls 12 major turf and the major ornamental diseases. And there’s never been a documented case of disease resistance to Daconil 2787.

For pre- and postemergent herbicide control of annual grasses and broadleaf weeds, it’s Dacthal® and Daconate 6®. On pesky broadleaf weeds, use 2 Plus 2. And round out your program using Frigate* with Roundup* to control perennial and annual weeds. Together with Daconil, they all create a complete professional management program.

When it comes to turf and ornamental care, count on the Turf Care Pros. And count out diseases and weeds—104 to be exact.

*Roundup is a registered trademark of Monsanto Company.

Always follow label directions carefully when using turf chemicals.

ISK Biotech Corporation, Turf & Specialty Products Division, 5966 Heisley Road, P.O. Box 8000, Mentor, OH 44061-8000.
We've made cultiva

Good cultivation takes the right traction unit and the right implement. That's why most bunker rakes don't cultivate as well as the John Deere 1200. They simply don't measure up.

The 1200's mid-mount cultivator features 10 deep-penetrating blades that can be locked into five different positions.

A high-torque 10-hp engine powers the 1200 while a gear-driven transaxle puts that power to work with an impressive gear reduction of 164:1. Combined, they deliver tremendous pulling power.

The result: A combination of power and depth control that results in a cleaner, more consistent playing surface than you
tinter a deep subject

get with other machines.
You get better bunkers, happier players.
For the name of your nearest distributor, or free literature, call 1-800-544-2122. Or write John Deere, Dept. 956, Moline, IL 61265.

NOTHING RUNS LIKE A DEERE®

CIRCLE #330/GCSAA BOOTH #2612
America's Number One
Natural Organic Fertilizer

Milorganite is the fertilizer golf courses have been using since 1926.

- Many of the finest golf courses in America are fertilized with Milorganite.
- Non-burning, cost effective, turf fertilizer.
- Supplies humus and improves water holding capacity of soils.
- 90% Water Insoluble Nitrogen (W.I.N.), slow release nitrogen promotes vigorous growth.
- Rich in organic iron — 4% minimum guaranteed.

CONTACT YOUR NEAREST MILORGANITE DISTRIBUTOR
Introducing a fertilizer to help avoid a more serious water hazard.

For every bag of 18-3-18 you buy, we’ll donate 50¢ to research on groundwater quality.

Maintaining the quality of our groundwater is an effort we can’t afford to make compromises on.

That’s why we’re donating 50¢ on every bag of Country Club® 18-3-18 to the GCSAA Scholarship & Research Fund, for research on groundwater quality.

Of course, there are other reasons to buy 18-3-18. Including its balanced, one-to-one nitrogen/potassium ratio. And homogeneous granules for
even nutrient distribution.

When you use 18-3-18, a slow-release methylene urea product, you’re also being kinder to the environment.

For information on Country Club 18-3-18, contact your local Country Club distributor. Or call Lebanon Turf Products at 1-800-233-0628.

Because while it might be fun to play over a water hazard, we don’t want our groundwater becoming one.
Concrete Golf Cart Paths

Mid-South Concrete Path Paving offers the best quality cart paths available, giving you concrete cart paths at prices that are comparable to — if not less — than you might expect to pay for asphalt.

Price, though, is not the only benefit we offer. As members of The American Concrete Institute and The American Society for Concrete Construction, we follow all recommended practices to make sure that your cart paths will provide you years of attractive and maintenance-free service.

With our expertise in concrete technology combined with our experience in golf course construction, we are uniquely qualified to give you cart paths that will enhance and compliment the unique design of any course.

Why Choose Mid-South Concrete Paving?

COST:
• Usually less expensive than asphalt or other concrete contractors.
  average of: $4.70/l.f. for 6' path  $5.20/l.f. for 7' path
  $5.80/l.f. for 8' path  $7.65/l.f. for 10' path
  (includes concrete & installation; grading not included)

QUALITY:
• Specially designed concrete mix includes Master Builder’s® Polyheed® when available.
• Installed by concrete craftsmen.
• 3,500 or 4,000 PSI concrete.
• Specially designed “roll over” edges to reduce chipping and cracking Master Builder’s ConFilm finishing agent used to reduce chance of plastic shrinkage cracks.

INSTALLATION:
• Average of 2,000 l.f. per day (4,700 l.f. record day)
• Minimal disruption of play at existing courses.

WARRANTY:
• 1 year on all workmanship.
• 2 or 5 years available at additional cost.

Options Available

POLYFLEX® FIBER REINFORCEMENT
• Reduces plastic shrinkage cracking.
• Increases abrasion resistance.
• Doubles impact resistance.
• Conforms to ASTM C-1116.

NEW RIVERSIDE OCHRE® COLOR
• Adds a natural buff color to your new cart paths.
• Surprisingly affordable enhancement.

“WHITETOPPING”
Cover up your asphalt problems for good with concrete. Stop repairing, patching and coating asphalt cart paths by choosing a concrete overlay.

What has dimples and a colorful personality?

Our famous Dimple-Ts are already the most popular markers on tees around the world. And now we’re making them even better — personalizing them with your own club logo or easy-to-read hole numbers. ♦ The durable plastic markers won’t chip, dent or split under normal use. What’s more, they’re available in colors to suit any tee configuration — red, white, blue, yellow and even black for your “monster” tees. All are 5-inches in diameter and feature molded-in galvanized steel spikes for easy placement and removal. ♦ For more information, contact your nearby Standard Golf distributor and ask about Dimple-Ts.

Classically plain, clearly numbered or colorfully personalized, they’ll get each hole off to a beautiful start.

The Standard of Excellence

CIRCLE #110/GCSAA BOOTH #1504
Before you buy a fairway mower, have your Toro dealer take this test.

1. Can the Toro 450-D perform on hilly terrain?
   **The Ransomes 350D can.** Because the engine is over the drive wheels, the 2-wheel drive Ransomes 350D is surefooted enough to tackle challenging terrain. For the ultimate in traction, there’s the 4-wheel drive model that gives new meaning to the words rugged performer.

2. Can the Toro 450-D cutting heads be adjusted by hand?
   **The Ransomes 350D can.** Reel/bed knife and cutting height adjustment is easily made with a simple twist of a knob. No tools are required. What could be easier?

3. Can the Toro 450-D operator visually monitor cutting performance while mowing?
   **The Ransomes 350D operator can.** All cutting units are located in front of the operator. The Toro 450-D wing units are positioned behind the operator, limiting visibility.

4. Can the Toro 450-D be transported at an efficient speed?
   **The Ransomes 350D can.** It offers 15.5 mph transport, while the Toro 450-D lags behind at 12.5 mph.

5. Can the Toro 450-D mow in wet conditions without footprinting?
   **The Ransomes 350D can.** It doesn’t leave its mark — even on wet ground. The 350D is designed to evenly distribute weight to reduce the ground pressure which causes footprinting.

* Toro® is a registered trademark of The Toro Company.

The Toro 450-D has met its match — and then some — in the Ransomes 350D. So go ahead. Ask your Toro dealer these five questions, and your next question will be: how soon can I get a Ransomes 350D?

Call 1-800-228-4444 for a free on-site demonstration.
WITH EXHIBIT, YOU NO LONGER HAVE TO BE AFRAID OF THE WATER.

Because of a heightened sense of concern about our environment these days, you're probably leery of using certain pest control products near water or wooded areas.

It's in these areas you should use Exhibit.™ While harmless to wildlife and beneficial insects that thrive on your course, the beneficial nematodes in Exhibit are quite deadly to the cutworms, billbugs, and sod webworms that destroy it.

Due to their parasitic nature, the nematodes in Exhibit are driven to seek out these harmful pest larvae. They infect the pest with a deadly bacteria, feed on the remains, then reproduce.

The offspring continue to hunt it's in these areas healthier turf. Not to mention peace of mind.

To learn more about our natural larvicide, just call your distributor, or call Ciba-Geigy Turf & Ornamental Department at 1-800-934-CIBA.

You’re Looking at a Product That Will Replace the Golf Tee!

Dirty clubs are a part of golf. But, cleaning clubs with a tee is fast becoming a thing of the past. Why? Because players have discovered club washers. More players are asking for them every day, so why not give them the best... the fast, effective one from Par Aide.

It's the one club washer:
- That you can quickly mount on virtually any vertical or horizontal surface.
- That actually takes just seconds to clean and fill.
- With simple, quality construction for years of service.
- With over 4 years of field-proven player satisfaction.

When it's time to look at club washers, make sure your dealer shows you the one designed with your needs in mind, the one your players will thank you for... the one from Par Aide.
You're a firm believer that rough should be its name, not its condition.
Roughs can be beautiful.
And playable. If you’ve got the time. Toro’s Groundsmaster® 455-D cuts that time in half.
Because it’s the first rotary mower designed specifically for golf course roughs.
Extremely maneuverable, it gives you a consistently superb quality of cut at higher heights. Even around trees, bunkers and other obstacles. That means you have more time to spend on other areas of your course.
It’s one more way Toro has worked with golf course superintendents for well over half a century. To provide you with all the precision engineered tools you need.
Especially when the going gets rough.

Toro.

On a golf course a bad score should be the only thing that stinks.

Foul odors, algae and sludge in golf course ponds are enough to ruin anyone’s game. The results of poor water management can be unsightly, smelly and costly.

Now Otterbine has developed CONCEPT2, the new high-technology surface aerators that can revolutionize your approach to water quality management.

CONCEPT2 High Volume aerators are built to last, made of stainless steel and tough, versatile thermoplastics, with a rugged, custom built motor and a virtually unbreakable stainless steel prop designed to handle large volumes of water.

And CONCEPT2 offers almost unlimited versatility, with easily installed, totally interchangeable spray patterns.

SUNBURST2 in Otterbine’s CONCEPT2 line answers the challenge of producing a sparkling water display with minimal effect on pumping rates.

CONCEPT2 and SUNBURST2 fulfill the Otterbine tradition of scientifically designed, highly efficient, compact, self-contained aeration systems. They are simple to install and economical to operate.

They need no foundation, external pumps, or other costly plumbing fixtures. All Otterbine Aerators are safety tested and approved by the Electrical Testing Laboratory.

Call or write, today, to find out how CONCEPT2 can help you keep your water quality up to par.

In 1992, Golf Asia attracted 223 exhibitors and a staggering total sales of S$61 million in just 4 days, Golf Asia '93 promises to be yet another hole-in-one for your business.

Golf Asia '92 created a whole new ball game of opportunities for participants with its overwhelming success. 223 exhibitors and agents from 20 countries. 21,300 visitors from 22 countries. An overall exhibition space of 100,000 sq ft. A total sales of S$61 million in just 4 days. And a projection of S$130 million worth of sales for the following 12 months.

Golf Asia '93 promises to be bigger. And cover a lot more golfing business ground.

In addition, the 3rd Asia Pacific Golf Conference will be held in conjunction with the exhibition at the Pan Pacific Hotel, Singapore, from 23 to 25 March '93. It will be the region's most important golf forum. An opportunity for you to learn what's new in the golfing fraternity and meet up with specialists and decision makers in the business.

So don't miss the easy putt towards business par excellence. Send your coupon to us today.
Over 90% of variable speed pumping system purchasers who visit both a Flowtronex and a competitor's operating VFD pump station purchase Flowtronex. There is a difference in VFD pump stations. But you don't have to take our word for it. Come see for yourself. You'll be glad you did... And so will we!

I-800-PUMP STATION
1-800-786-7782

Now for a limited time, visit an operating Flowtronex VFD station for a demonstration, and we'll credit you with $500.00 on your Flowtronex VFD pump station purchase. Call for details!
In Japan, golf is an obsession. Their courses attest to this fact. And so does their leading import — the Jacobsen Greens King IV™.

Uncompromising quality is what it’s all about. In the cut. And in the equipment.

The Greens King IV has the lightest footprint in the industry to minimize compaction. Its exclusive, fully floating, pivoting reels steer through turns without scuffing or marking on the clean-up pass. Individual reel control and power backlapping keep reels sharp with less work. Plus, Jacobsen’s quality reel, and unique Turf Groomer® option continue to set the standard for fine greens mowing...in Japan...and around the world.

To see why the Greens King IV is Japan’s number one golf import, ask your Jacobsen dealer for a demonstration.

THE PROFESSIONAL'S CHOICE ON TURF.
