Think of it as a combination bunker rake and steamroller.

Tour Smooth® is the affordable way to rake and smooth sand into perfect playing condition!

The trouble with ordinary bunker rakes is that they leave little ridges in the sand. The trouble with the new breed of "smoothing" rakes is that they're too expensive. Tour Smooth® by Standard Golf solves both problems. It smoothes sand, and it's affordable, too! ♦ Tour Smooth rakes are based on our long-lasting, hard-working Duo-Rake, but feature shorter teeth and a curved 15", high-impact, molded plastic head. As the teeth rake the sand into place, the curved head follows behind, automatically leveling all those little ridges into a "steamroller smooth" playing surface. Add a sturdy 4-1/2 ft. fiberglass or aluminum handle, and you'll have an affordable tool that will last for years — and even float! ♦ Why get trapped with an inferior — or more expensive — rake? Contact your nearby Standard Golf distributor and ask about Tour Smooth. All things considered, it's the smoothest bunker rake in the business.

FORE BEATS 14 TOUGH DISEASES ON NATIONAL TOUR

You didn’t read it in the sports section. But Fore fungicide recently wowed course superintendents in 17 states. Put to the test, Fore showed it was one of the hardest-hitting broad-spectrum fungicides in commercial turf care today. And probably the most economical.

Beats more diseases for the money.

On tees, greens, and fairways, Fore proved it was more than a match for 14 major diseases. Including such well known names as Brown patch, Dollar spot, and Helminthosporium melting-out.

And as superintendents in 17 states discovered, a treatment of Fore costs far less than the leading competitive fungicides.

No resistance after 25 years.

A multi-site enzyme inhibitor, Fore has been defeating turf diseases for over 25 years. And in all that time, not one of those diseases has mustered even the least resistance.

Holler Fore! Even for Pythium.

Spray a reduced rate mixture of Fore and Subdue (or Banol) – and you can also gain improved control of Pythium blight.

So if you’re looking for a proven broad-spectrum fungicide to strengthen your program this year – holler Fore! And duck some of the high cost of turf care at the same time.

*For information on trials and warranty, write: Rohm and Haas, c/o Bob Gordon, Independence Mall West, Philadelphia, PA 19105

**Limited warranty: Fore fungicide is guaranteed to control labeled turf diseases or your purchase price will be refunded.
Carefully monitored trials* in these 17 states showed Fore controlled 14 major turf diseases.

**Versatility & Increased Productivity**

Kubota offers turf equipment for professionals who demand dependable, versatile turf equipment that will increase productivity and yield a precision, quality cut.

Take a look at Kubota’s rugged 2WD and 4WD diesel front mowers, with 20 HP and 24 HP. A wide selection of Performance Matched Implements provide versatility. They include reel, rotary, flail and mulching rear discharge mowers, broom, leaf blower, and front blade. The 3-gang Triplex VR3700’s 25" reels provide an overall cutting width of 70" at 3/8" to 3" cutting heights. Choose 4, 6, or 8-blade hydraulically driven reels, for mowing or change heads for vertical cutting or core pulverizing. This flexible unit is designed for mowing difficult access locations, following the contours of the ground while it delivers a quality cut.

The Kubota Verti-Reel is a lightweight, high production, hydraulic mower that provides a consistent quality cut – 134" with 5-gangs or 186" with 7-gangs. The 5-gang unit converts easily to a vertical cutting unit. A power pack supplies power for driving the motors, while the reels are controlled by a single valve with live PTO power. Direct-drive hydraulics, cutting heights from 3/8" to 3", and a folding frame for easy transport, make Verti-Reel a favorite on Kubota’s VIP turf list.

For more information on Kubota’s versatile turf equipment that can increase your productivity, write to:

PRESENT REVISED FUNGICIDE BUDGET
ADVISE OF MAINT. OVERAGE
Managing a golf course has never been a nine-to-five job.

So the last thing a busy superintendent needs is to find time in an already tight schedule to fight turf disease.

That's why using Banner® makes such good sense. It works systemically, defending your turf from twelve major diseases.

And as little as 2 ounces per thousand square feet can provide up to four weeks' protection.

All of which gives you a big edge on turf disease. And possibly, some much needed rest.
To cut operating costs, take a look at your overhead.

Profit-oriented course managers keep one eye on the bottom line and one eye on their golf car battery chargers. That's why more and more of them are putting the Lestronic II in their car barns.

Lestronic II was designed for today's lighter, more efficient golf cars. It saves money regardless of fleet size by prolonging battery life, delivering more range per charge and reducing energy costs. The Lestronic II:

- **Preserves battery life** due to the patented electronic timer. Get the proper charge every time. There's no overcharging for longer battery life. No undercharging for more range per charge.
- **Uses 10 percent less AC power** to recharge a battery that is 75 percent discharged.
- **Fully automatic**, eliminating operator error—just plug it in.
- **Runs cooler and quieter.**
- **Carries UL and CSA approval.**

Plug into the many benefits for the Lestronic II and watch what happens to your overhead.

Use the Turf Care® Pros for any number of growing problems. 138 to be exact.

Professionals count on the Turf Care Pros. To treat diseases, Daconil 2787® fungicide is the cornerstone of your management program. The broadest-spectrum fungicide on the market, it controls 18 disease-causing organisms on turf and 55 major ornamental diseases. And there’s never been a documented case of disease resistance to Daconil 2787.

For pre- and post-emergent herbicide control of annual grasses and broadleaf weeds, it’s Dacthal® and Daconate® 6. On pesky broadleaf weeds, use 2 Plus 2. And round out your program using Frigate® with Roundup® to control perennial and annual weeds. Together with Daconil 2787, they all create a complete professional management program.

When it comes to turf and ornamental care, count on the Turf Care Pros. And count out labeled diseases and weeds — 138 to be exact.

The good news

Last year's good news just got better. Introduced first as a sprayer, the John Deere 1800 Utility Vehicle can now be used as a spreader as well.

The new Befco spreader combines with the hydrostatic advantages of the 1800 to deliver performance traditional systems don't.

At high-idle, slow ground speed, and high rate-of-flow the 1800 can put down a uniform 5%-inch-deep layer of material for heavy top-dressing. Increase ground speed and decrease the rate-of-flow and you have the perfect machine for light top-dressing.

When you consider the 2-person bench seat, easy-on
is spreading

easy-off mounting, and all the sprayer and utility bed attachments—you begin to see the versatility of the 1800 system.

For the name of your nearest distributor, or free literature, call 1-800-544-2122. Or write John Deere, Dept. 956, Moline, IL 61265.
Show 'em Where to Stick It . . . With "Trash Mates" Recyclers.

You're looking at the most convenient, cost efficient, environmentally friendly way to handle player-generated waste on your course. Trash Mates get players to separate their cans right on the course — so you don’t have to later — thanks to the restricted opening in the snap-on, "Cans Only" lid. A second Trash Mate handles the rest of the trash — over 9 gallons of it. And, they accept common bag liners for quick, no-mess emptying.

Contact your Par Aide dealer today. Order Trash Mates for your course. They'll enhance your image as a conscientious turf manager and a friend of the environment.
For some, beautiful drives down the fairway occur long before the first tee time.
While golfers sleep, you don't. Because a superintendent doesn't just work from nine to five. Your course is a 24 hour concern.

We see things your way. So we don't measure the performance of Toro equipment solely in terms of horsepower and rpms. We measure it in your terms. Consistently superb quality of cut.

For example, we know that your climate, terrain and turf are unique. That's why Toro offers a complete range of fairway mowers. So you can choose the one that best keeps your fairways strikingly beautiful and eminently playable.

No better way to enjoy your morning drive.

CIRCLE #200
Next to well cut greens, you demand well groomed bunkers.
Golfers try to avoid bunkers, but superintendents don’t. Because you know that well groomed bunkers go hand in hand with well cut greens.

That’s precisely why we introduced the Toro Sand Pro® two decades ago. And now offer three models, including our new Sand Pro® 3000, which gives Toro a complete line to master every kind of bunker condition.

Sand Pro® 5000 offers a 16 hp engine with 3 wheel or optional 2 wheel drive.

Sand Pro® 2000 offers 14 hp, 3 wheel drive and greater ground clearance.

Sand Pro® 2000 offers 12 hp, 3 wheel drive and greater ground clearance.

Each Sand Pro® quietly provides consistently fine grooming as well as maximum operator comfort and performance.

The Toro Sand Pro® Another innovation based on our 60 year partnership with golf course superintendents. Working together to create the ultimate in playability.

Not to mention a well groomed appearance.

The Cœur d'Alene Resort Golf Course, Coeur d'Alene, Idaho.

7" diameter, 10-blade reels deliver the high torque to handle all kinds of grasses and conditions beautifully. Plus, 26" balanced reels and our unique rear roller down pressure system produce tournament quality results at production mowing speeds, hugging undulations other machines would scalp.

Accessibility you'll flip over.
The entire operator platform and rear hood flip up, completely out of the way, for easy access to all key components. Also, the center cutting unit slides back, for quick, easy adjustments.

Comforting news for operators.
The LF-3810 is loaded with operator comfort features, including: full suspension seat with armrests; 5-position tilt, power steering; easier two-pedal hydrostatic drive; full instrumentation; even holders for their favorite soft drink and personal items.

Transverse engine mounting helps you handle slopes with confidence.
This up-front automotive design produces surprising traction and excellent climbing ability in a 2-wheel drive unit.

Finally, a quality lightweight with plenty of mowing muscle.
At less than 10 PSI ground pressure, the all-new Jacobsen LF-3810 treads lightly on the most delicate fairways. Yet its 5 heavy-duty

Exclusive SynchroLift control—Cross cutting at its easiest & most productive.
A simple push or pull of the synchronized lift levers is all it takes with this system. The machine automatically raises the reels to turning height, then lowers them for nimble, flawless cross cutting.

Maintain a spotless reputation on the fairway with GreenSentry™
Our advanced oil leak detection system is standard, to give you every advantage possible on the fairway.

The list goes on and on.
Variable-speed, power backlapping; 3, 4 or 5 gang operation; heavy-duty hydraulic system; a 38 hp, liquid-cooled Kubota diesel... the quality features just never seem to quit.

For a complete list of features and benefits, as well as a complete demonstration, contact your Jacobsen dealer today.

The Professionals Choice on Turf.
