Mangilao: Then ... and Now

By PETER BLAIS

CANMORE, Alberta, Canada — Officials of the multi-million-dollar Three Sisters Resort project near Banff National Park have received permission from provincial officials to begin construction of three golf courses.

While pleased with the approval, the company is disappointed the National Resources Conservation Board forbade development of a fourth track in the environmentally significant Wind Valley area.

"It's a very unique piece of property," said Three Sisters President Rick Melchin of the 525 acres the NRCB said must remain forever wild. "The province said it will compensate us financially. But we've lost a treasure."

The Wind Valley restriction forced developers to scale back the resort component slightly to about 1,000 hotel rooms, Melchin said.

Construction will resume on the first course this spring, the company official said.

The Scott Miller-designed layout was just 10 percent complete last spring when the government slapped a stop-work order on the project while the NRCB debated the resort's fate.

Weather permitting, he expects the first course to open in summer 1994 and the second perhaps a year later. Miller is designing both.

"We want to build the first 36 holes as soon as possible and see what happens from there," Melchin said.

Barry Gunn, a reporter following Three Sisters for the Canmore Ledger, said making Wind Valley off limits to development silenced the project's most vocal critics.

Gunn said local residents and officials are relieved the controversy is behind them and expects the project to receive local permits with little difficulty.

Stuart Cohen of Environmental & Turf Services Inc., who was retained by Three Sisters to conduct an environmental assessment, said that while they did not get everything they wanted, developers were still fortunate to receive permission to build.

A Myrtle Beach original: Hamm

By MARK LESLIE

Combine a love of art and mechanical drawing with pro-caliber golfing abilities and the result can be a rare talent.

In the case of Gene Hamm, the result was the pioneer of a phenomenon of the 1980s: The PGA Tour player/designer.

The 69-year-old Hamm, who earned his Tour card in 1958, has designed some 80 golf courses, including a dozen of Myrtle Beach, S.C.'s 70 courses.

The career designing golf courses wasn't planned. The PGA Tour was. Indeed, Hamm played in the first medal play, won by Dow Finsterwald in 1958.

But that was the same year pro and friend Al Smith approached Hamm to help rebuild greens, tees and bunkers at the Country Club of Danville.
Hamm — a marquee commodity at famed Myrtle Beach

Continued from page 24

Goodbye Tour. Hello, golf course architecture. (Since then his victories include the North Carolina Open in 1966 and the North Carolina Senior Open in 1978 and 1979.)

Word spread about Hamm and his abilities and, before he knew it, he had remodeled and added nine holes at Forest Oaks in Martinsville, Va., and designed nine holes at Spoon Creek outside Martinsville.

After doing a half dozen golf courses on his own, Hamm began what became a long relationship with Myrtle Beach developers in 1966.

At that time only seven courses graced the Myrtle Beach. Hamm was about to put his fingerprint on it. Namely, Sea Gulf Golf Course at Pawley's Island, Quail Creek, 36 holes at Burning Ridge, Eagle Nest, Beachwood Golf Club, Azalia Sands, Indian Wells, Pineland Country Club and Raccoon Run. His latest — in 1986-87 — was River Oaks.

No one alive or dead has had such an impact on golf design in this golf mecca.

"I shaped every green on my courses at Myrtle Beach. On 10 golf courses that's a lot of greens."

— Gene Hamm

According to Hamm, "I've done all kinds," he said, adding that budget and the site dictate a design's emphasis.

"You have to basically follow whatever topography and terrain you have to work with. After that, I try to do greens that have enough contour to keep them interesting and not get too severe," he said.

"Generally, you do what folks want you to do. If they don't have enough money, you build what they have the money for."

Hamm said developers in the last decade have spent more money on golf courses, and that means "you can design in a lot more mounds, larger sand traps, things like cross ties and landscaping."

"When we started years ago, there was no such thing as doing landscaping because the money wouldn't last that long. Now you can build amenities that make the course more picturesque. And you find a lot of landscapers working with golf courses, keeping the courses in flowers all year long. That wasn't done years ago."

A major improvement in golf, Hamm said, was development of the first hybrid Bermudagrass (328), which was used on the Duke course in 1956. Although it couldn't stand the cold winters, it led to more plant breeding and, shortly thereafter, introduction of Penncross bentgrass, a pioneering bentgrass for the South.

"The future, Hamm said, includes son Gary "working with me in some areas. He has worked with me on four or five golf courses."

Textron Financial Corporation is the best approach to financing and maintaining a championship quality golf course. From the driveway to the fairway, TFC can chip in with attractive and innovative golf-related financing.

Our competitive rates and low monthly payments can put some of the most popular and durable golf course equipment to work for you. E-Z-GO golf cars, Jacobsen turf equipment and Rainbird computerized irrigation systems are all teed up and ready to play through TFC.

TFC offers participating first mortgages (based on operating cash flow) for existing courses and takeout commitments for new or to-be-built courses. Private courses with annual membership, semi-private, daily fee and resort golf courses are all eligible to link up with TFC.

Don't waste strokes out in the rough. We can structure a finance package to fit your needs. For the most complete golf-related financing programs, TFC is the best approach to the green.
