NEWS IN BRIEF

ORLANDO, Fla. — Arnold Palmer Golf Management Co., an international golf facility management firm, has moved its corporate offices to Palmer's Bay Hill Club here. Part of the Bay Hill Lodge was converted into offices for the APGMC staff.

MARSHALL COUNTY, Iowa — Proposals for two nine-hole golf courses will proceed now that they have won unanimous approval for special-use permits from the Marshall County Board of Adjustment. Local resident William Dewell said he hopes to open Country Drive GC by late summer or fall. Mike Eckhart, treasurer of the West Marshall Golf Course Association, said Lincoln Valley GC will open by June 1994.

CHANDLER, Ariz. — Construction of UDC Home's Foothills Club West GC resumed in January, and will be completed this summer. The course, designed by Kenneth M. Kavarnah of Tucson, is scheduled to open next winter. Kavarnah has also begun an extensive course renovation for the city of Tucson's Randolph South Municipal GC. Construction is scheduled to be completed in the summer of 1994.

FLOYDS KNOBS, Ind. — Not far from his Southern Indiana home, Fuzzy Zoeller is watching his eighth course come to life. Zoeller owns 51 percent of Covered Bridge GC, a $7.5 million course and housing development he designed on 350 acres. It's scheduled to open by spring of 1994.

ST. LOUIS — Monsanto Co. has announced it has signed a letter of intent with Chevron Chemical Co. to purchase the assets of that firm's Ortho Consumer Products Division. Monsanto officials indicated the purchase price will be approximately $400 million, including working capital employed in the business.

Suppressing Poa Annua Seedhead...

No other soil wetting agent suppresses Poa annua seedhead emergence while it helps to move water deeply and uniformly throughout the rootzone. Isn't it time you give AquaGro® a try?

Dye says Indianapolis Speedway course might be his final stadium design

By MARK LESLIE

INDIANAPOLIS, Ind. — His renovation of the Indianapolis Speedway Golf Course is perhaps Pete Dye's final adventure into designing courses with stadium-type mounding.

Resting in the Dominican Republic after putting the finishing touches to the Indy layout, Dye said: "I don't want any more stadium courses... I want to do the dead opposite."

The Speedway course is seeded and expected to open in June.

"It is the biggest stadium course ever built — the biggest people-mover in the world," Dye said. "We built spectator mounds around the golf course 40 to 60 feet high and they go forever."

The 27-hole facility was turned into an 18-hole course and a mammoth driving range. Four holes are inside the oval track and 14 outside.

In the past, cars have been parked on the golf course inside the track, but Dye said lakes have been dug around those holes, making them inaccessible to vehicles.

Despite the course being the largest stadium facility on the planet, Dye said: "We could have 60,000 spectators at a tournament and the parking lot attendant could go to sleep. They're used to 700,000 people for the Indy 500."

Homestead dispute

Continued from page 3

City Supervisor Ben Whitfield thinks the chances are good and that the course will eventually get local permits, especially since city voters approved a rezoning to accommodate the course by a 285-209 count in a 1987 referendum.

But that was long before the state Department of Natural Resources approved the course, the district Environmental Protection Agency was reportedly ready to reject it, the national EPA office approved it and a district court overturned the EPA's approval.

The June 1992 court ruling said the U.S. Army Corps of Engineers, rather than the EPA, had jurisdiction over the wetlands issue. That blocked Kuras' plans to finally start construction. The EPA is awaiting a decision on its appeal to the 6th U.S. Circuit Court in Cincinnati. The next judicial step would be the U.S. Supreme Court.

Both sides have vowed to take their cases that far, if necessary.

Also possibly affecting the eventual fate of the Homestead course is the appointment of Carol Browner as President Clinton's new EPA director. Browner, Florida's former state environmental chief, is seen as more pro-environment and less a property rights advocate than her predecessor, William Reilly. She could choose to drop the EPA's appeal and let the district court's decision stand.

Kuras first proposed the course more than six years ago and estimates his costs at $3.7 million.

Membership has its advantages. Kubota offers the most reliable mowing and vertical cutting unit on earth — the Verti-Reel.

Built for total turf maintenance whether you have golf courses, sports fields, sod farms or commercial mowing applications, the Verti-Reel provides vertical cutting and mowing in one proven unit.

Verticut 18 holes in less than a day. Outcuts tripless mowers. Easy mowing/verticuting head changeover. Power pack mounted conveniently on tractor's three-point hitch. Direct drive hydraulics for consistent cutting speed.

How your tractor performs can have a significant impact on the efficiency of your operations. Kubota excels with direct-injection diesel engines in both the M4030SU Turf Special and L3250F Turf Special for greater power, performance and economy.

The advantages of Turf Club membership are numerous. To find out more, write Kubota Tractor Corp., P.O. Box 7020-T, Compton, CA 90224-7020.
