Pierson met architect Geoffrey Cornish. After it hosted that year's PGA Championship. While at Stockbridge, Pierson met architect Geoffrey Cornish. They would later collaborate on restorations of both Canterbury and Cherry Hills. Things to look for: "We started our restoration project back in 1988," said Pierson, a self-described fan of old designs like Cherry Hills. "We've been trying to bring the bunkers back to their original Willie Flynn design (1922). They would later collaborate on restorations of both Canterbury and Cherry Hills. Things to look for: "We started our restoration project back in 1988," said Pierson, a self-described fan of old designs like Cherry Hills. "We've been trying to bring the bunkers back to their original Willie Flynn design (1922). Over the years there's been a migration of the bunker edges. Before we addressed the problem, they used to run right into the greens, which was a real maintenance problem. You couldn't even turn mowers around." Pierson explained the original bunker boundaries have been restored, under the direction of the and Cornish. "Mr. Cornish and I really see things the same way. I basically oversaw the whole thing and had more than a small hand in the design aspect. But from a political standpoint, you always want the membership to feel the architect is really involved. Things to look for: Like Eagle Creek, Crooked Stick - site of the 1991 PGA Championship - is a Pete Dye design. "Pete and the previous superintendent made a lot of changes to the course in 1989 and '90, prior to the PGA," Hague explained. "For the women this year, we extended the tee on no. 8 about 10 yards. We also extended tee areas on no. 10 and no. 14. The course will play about 6,300 yards for the women. It played about 7,300 for the men." For those who remember John Daly's romp through Crooked Stick in '91, there are some changes. "We now have close to 60 acres of natural rough, tall fescues and bluegrass, that we let go natural," said Hague. "It'll be low cut around the greens. And the way the bunkers are designed - the fine-cut turf goes right to the edge of the bunkers. There isn't any long, shaggy look around the..."
New Brunswick, N.J. — Applications are being accepted for the two-year Rutgers Professional Golf Turf Management School. The course is presented in two 10-week sessions over two years and requires two seasons of supervised field experience where students apply skills developed in the classroom.

Students learn technical skills required of all superintendents such as turfgrass establishment, maintenance of greens and tees, plant pathology, entomology, weed identification, as well as management and communication skills all managers should master.

The course is recommended for golf course superintendents, assistant superintendents, greenkeepers, irrigation technicians and mechanics who have a minimum of two years experience working in turf management.

The fall session will be held Oct. 4 to Dec. 10, and the winter session will be held Jan. 3 to March 11, 1994. Applications are due on Aug. 6 and Oct. 20, respectively.

To request a brochure and application or for more information, contact the Office of Continuing Professional Education, Cook College, P.O. Box 231, New Brunswick, N.J. 08903; telephone 908-932-9271.

Think of it as a combination bunker rake and steamroller.

Tour Smooth® is the affordable way to rake and smooth sand into perfect playing condition!

The trouble with ordinary bunker rakes is that they leave little ridges in the sand. The trouble with the new breed of ‘smoothing’ rakes is that they're too expensive. Tour Smooth® by Standard Golf solves both problems. It smoothes sand, and it's affordable, too!

Tour Smooth® rakes are based on our long-lasting, hard-working Duo-Rake, but feature shorter teeth and a curved 15°, high-impact, molded plastic head.

As the teeth rake the sand into place, the curved head follows behind, automatically leveling all those little ridges into a ‘steamroller smooth’ playing surface. Add a sturdy 4-1/2 ft. fiberglass or aluminum handle, and you'll have an affordable tool that will last for years — and even float! 🌟 Why get trapped with an inferior — or more expensive — rake? Contact your nearby Standard Golf distributor and ask about Tour Smooth®. All things considered, it’s the smoothest bunker rake in the business.

Rutgers opens two-year turf school to applicants
