**NEW PRODUCTS**

**Ball picker-upper from Par Car**

The new Ball Picker from Columbia Par Car features an enclosure made of expanded steel with a high carbon tubular steel frame. The cage has easy-to-remove doors, allows high visibility, and is more attractive than competitive models. Also featured on the enclosure is a light colored top with UV stabilizer for sunlight deflection. The Ball Picker enclosure is specifically designed for easy installation on gasoline and electric model Columbia ParCars, Utilitrucks, Utilidumps, and the Utilitruck 2000XB.

For more information, contact Columbia ParCar P.O. Box 30, 350 N. Dewey Ave., Reedsburg, Wis. 53959; or call 908-324-8888.

**CHEYENNE**

That's what you get with Cheyenne... the best grass you ever seed!

Cheyenne turf type bermuda grass gives you the texture and uniformity of sod at a fraction of the cost. It also gives you characteristics like cold tolerance, dwarf-like growth habit, and mowing levels of down to 1/4". Cheyenne performs well under heavy traffic and repairs itself rapidly when damaged. All this in a bermuda grass from seed that greens up significantly earlier than other bermudas and stays green longer after first frost.

Cheyenne's dark green color and uniform texture make it the ideal grass for golf courses, parks, playing fields and lawns.

Write or call us today for more information about this amazing new bermuda grass that will change the way you think about seeded bermudas.

**Kubota unveils tri-plex attachment**

COMPTON, Calif. — The VRT700 Tri-Plex mower has been added to the growing line of attachments designed for Kubota Tractor Corporation's 24-horsepower F3400 front mower.

With impressive mowing, vertical-cutting and core-pulverizing capabilities, the Tri-Plex delivers the versatility and precision performance that turf maintenance operations demand.

Able to perform a variety of turf maintenance tasks, the VRT700 can be easily installed on a rear mower to either a vertical cutter or core pulverizer in a matter of minutes, simply by changing heads.

For more information, contact Kubota at 11775 Wilshire Blvd, Suite 1600, Los Angeles, Calif. 90025; or call 213-444-7000.

**Thatch-O-Matic from Parker Sweeper**

SPRINGFIELD, Ohio — Parker Sweeper is introducing the Thatch-O-Matic Power Rake. Powered by a 5hp Briggs and Stratton engine, this ruggedly built machine cuts a 19-inch path through built-up thatch.

Three reel options are available for a wide range of lawn care applications including: spring tines for dethatching; knives for verticutting and controlling creeping grasses; and flails for heavy thatch removal.

For more information, contact the company at P.O. Box 1728, Springfield, Ohio 45501-1728; or phone 513-722-4901.
