Finding faulty underground power lines

Ditch Witch has introduced a Subsite Fault Finder system for locating faults in communication and power lines. The Fault Finder includes an A-Frame receiver and transmitter unit which detects leakage by measuring voltage differences in the ground.

The transmitter produces an initial 2,500-volt pulse to break down built-up corrosion on the cable. Typical normal voltage is 50 volts, permitting clean fault identification.

For more information, contact Ditch Witch c/o The Charles Machine Works, Inc., P.O. Box 66, Perry, Okla., 73077; or call 405-336-4402.

CIRCLE #301

Pre-fab covered bridges from Rock

James H. Rock along with Industrial Steel Inc. have introduced their pre-engineered, pre-fabricated covered bridge for pedestrian and golf cart traffic. These structures are available in lengths from 30 to 120 feet and a clear usable width of 6 feet. Designed and built with the economic advantages of production fabrication but with the appearance of custom workmanship, these bridges are delivered in one or two sections and are ready to place via crane.

For more information, contact James H. Rock, 324 Bonnie Dr., Warner Robins, Ga., 31088; or call (921) 328-9720.

CIRCLE #302

Low-pressure sprinkler heads from Toro

Toro’s Irrigation Division has announced an addition to its new line of low-pressure, low-precipitation rate large turf sprinkler heads. The 720/750 Series is designed for slower absorbing soils and for operating under a wide range of pressures.

Developed in conjunction with landscape architects and irrigation consultants, the Torr Indi 720 and 750 sprinklers have a 3-inch pop-up to clear tall grasses, color-coded nozzles for easy indentification during installation and a variable stator to maintain constant rotation speeds no matter which nozzle is installed.

For more information, contact Toro’s Irrigation Division, 9252 Jasmine St., Riverside, Calif., 92504-1183; or call (909) 688-9271.

CIRCLE #303

Classen sod cutter

Classen has added the new model SC-18 self-propelled 18-inch sod cutter to its line of turf equipment. The machine is powered by a 5.5 Honda engine and will cut sod up to a 2 1/2" depth. This heavy duty cutter is designed for golf course maintenance, rental cemeteries, and landscapers.

For more information, contact Classen at 1403 Pine Industrial Road, P.O. Box 172, Norfolk, Neb., 68021; or call 402-371-2994.
