BEST OVERSEEDING GRASSES ON THE PUTTING GREEN WERE SABRE AND CYPRESS® CULTIVARS OF POA TRIVIALIS

Cypress will provide the finest dark green putting surface with no interruption in play. Cypress is tolerant to shade and damp soils. This unique prostrate growing variety thrives in cool weather and will survive cold weather that will damage turf-type ryegrasses and Cypress will maintain its dark green color all winter long.

As the weather turns hot in the spring, Cypress will die out naturally as your Bermudagrass begins to grow. Cypress will not choke out your Bermudagrass in the spring as some heat tolerant perennial ryegrasses do. Cypress is available alone or in blends.

Private and university trials have shown Cypress to be a premier overseeding grass.

Cypress Poa trivialis establishes fast and can be cut close immediately, even after overseeding. As your Bermudagrass grows dormant, Cypress will provide the finest dark green putting surface with no interruption in play.
