In Case Of Pythium
Break Open This Case.

Koban® turf fungicide kills Pythium instantly—on contact. Keep Koban on hand because, left untreated, Pythium can spread like wildfire.

Koban is the most effective Pythium control available. In over 20 years of use, there's never been a reported case of resistance. It's the brand more and more superintendents are using, because they know they can trust it, completely.

Koban is available in two convenient formulations—30% wettable powder or 1.3% granular. You can spot apply the granular without interrupting play. And increase the effectiveness of your systemic preventive program by rotating in either formulation at low rates.

Call your Grace-Sierra distributor today. Or for more information call us toll-free at 1-800-492-8255.

And get a case or two of Koban right now. Keep it handy, just like you do a fire extinguisher.

Just in case...
If you manage a public golf course, you shouldn't miss Public Golf '93—The premier national conference for managers of daily fee, municipal, semi private and resort courses—sponsored by Golf Course News

We're dedicated to your success. Just take a look at this great agenda loaded with practical ways to help you profitably manage, maintain and market the public course:

  • Audubon Conservation
2:15-3:30 p.m.
Marketing and Tournaments Ideas That Make Dollars and Sense

November 14-17
Wild Dunes Resort
Charleston
SC
With the two new Jacobsen Aero King aerators, you get the widest selection of hole spacings on the market to handle changing aeration needs quickly and easily. Simply shift gears to select just the right pattern for the job.

**Most convenient controls in the industry.** Unlike competitive units, the self-propelled T1224 puts all controls at the operator’s fingertips for easier operation and increased productivity.

**Lower overall maintenance costs.** Our virtually unplugable tines last up to three times longer than competitive tines. So you get more consistent hole depth throughout your course, while spending less time and money changing tines. What’s more, the Aero Kings' simple, durable designs are easier and more economical to maintain than gear-driven units. They also cover more ground in an hour than competitors, giving you the best overall aerator value.

The tractor mounted PT2448, with its 48” width, is small enough for greens but big enough for fairways and tees. The PT2448 features a storage frame and castors for fast, easy hook-up to an 18+ hp tractor.

To see just how much a single aerator can do, ask your Jacobsen distributor for a demonstration today.

**THE PROFESSIONAL'S CHOICE ON TURF.**

**NOW, CHANGING HOLE PATTERNS IS AS EASY AS 1, 2, 3, 4, 5.**
