Tank Program leads other Midwest Agency's Leaking Underground Storage

**MINNESOTA CLEANUP IN FRONT**

The Minnesota Pollution Control Agency's Leaking Underground Storage Tank Program leads other Midwest states in cleaning up tank leaks, according to figures released by the Environmental Protection Agency (EPA). The EPA reported that in Minnesota, more than 42 percent, or 1,837 of the 4,337 confirmed leaks had been cleaned up by the end of the 1993 fiscal year. That compares with 25 percent in all the EPA's Midwest states. Those figures do not include tanks with less than 1,100-gallon capacity.
