ST. PETERSBURG, Fla.—Golf Course News will conduct an advertising readership study in conjunction with its September issue, according to Publisher Charles von Brecht. The formal study will be conducted by Baxter Research Inc. of Austin, Texas. Industry firms wishing to participate should contact von Brecht at 1-800-696-7077.

HOT SPRINGS VILLAGE, Ark.—Diamante Golf Course, the longest in Arkansas, is now under construction. Measuring 7,500 yards from the back tees, the 18-hole development will feature a 9,000-square-foot clubhouse, a tennis facility and swimming complex. The course, state for the $7.4 million project is September 1995.

TROY, Ohio — The park board here has approved the expenditure of half the set-aside funding for development of a Miami Shore Golf Course master plan. Up to $18,000 will be spent on the preliminary site plan, which will be prepared by Ferdinand Garbin of Export, Ga.

LAWRENCE, N.Y. — James Henn, an employee of the Lehman Bros. securities firm, is suing the Rockaway Hunting Club and a coworker after being hit by a golf ball on a company outing. Henn alleged ball-striker Alan Greco, the club and its golf pro, Randy Cavanagh in the suit. Henn charges that Cavanagh and the club were negligent for not monitoring the golfers' abilities and actions.

SHOSHONE, Idaho — A proposed municipal golf course here awaits approval from the federal Bureau of Land Management (BLM). The city council has sent a letter to the BLM asking it to designate 480 acres as "disposal," allowing the city to acquire it for municipal use.

HANOL, Vietnam — Vietnam's first modern-era golf development, King's Island Golf Resort and Country Club, has reopened following a roof instigated by the project's construction foreman, who is also a village headman, upset at his suspension for insubordination and poor performance.

American supers witness rioting at Vietnamese course

HANOI, Vietnam — Vietnam's first modern-era golf development, King's Island Golf Resort and Country Club, has reopened following a roof instigated by the project's construction foreman, who is also a village headman, upset at his suspension for insubordination and poor performance.

"The workers just started running around the range, yelling and screaming," and dodging golf balls, according to U.S. project manager Ron Kirby.
"We were told to leave by flashlight after dark. It was pretty hairy."
Following a weekend of sit-down strikes and general disruption — but no damage to the course — the club owner made the decision to immediately shut down the project until the national government agreed to guarantee everyone's safety. With six of 18 holes playable, King's Island has since reopened, though Kirby's villa is protected 24 hours a day by armed guard. Most of the 70 workers involved in the disturbance have been relocated by the Vietnamese government, said Kirby. The headman was suspended for continued insubordination by American construction shaper Scott Fapp the weekend of April 9. According to Japp — who has worked extensively overseas for architect Denis

Field Slow Play
The First and Only Real Yardage Marking System Ever Developed

- Speeds up play — proven to save 30 minutes per round, therefore more income for the course. Installed at many of the World's finest courses - Pebble Beach, Spyglass, the Olympic Club and many more; also at many public courses. The Kirby Marker System can pay for itself with increased revenue in a few short weeks.

- Increases enjoyment of the game - no walking up and down looking for sprinkler heads, posts or bushes and then "pacing" off.

- Obtrusive - does not detract from the beauty of the course. Invention allows markers to depress under mowers and carts.

July 1994 3
Course project softens blow of plant closure

RICHLAND, Wash. — Jobs at the new Horn Rapids Golf Course and Industrial Park may diversify the economy in this atomic town that is expecting to lose its primary employer upon completion of the Hanford nuclear reservation cleanup.

The new golf course and community — located across the street from each other — will attract people who work in the Tri-City area and lure companies like Boeing Co., Microsoft Corp. and Honeywell Inc. to replace the possible loss of 16,500 high-paying jobs from Hanford.

The golf course should play a large role in the city's economic future because city officials envision people who live around the course working at an industrial park across the street.

The Horn Rapid development is the first effort to decrease Richland's dependence on the U.S. Department of Energy and Hanford. It plans to launch other developments near Battelle-Northwest.

Richland also owns 5,000 to 6,000 acres, thousand acre tracts and single lots, that they plan to use in the future development of the area, said Bill King, deputy city manager for community development.

HILTON HEAD, S.C. — Construction has begun here on the retirement community of Sun City which will feature three golf courses, homes and recreation buildings. The developer, Del Webb, plans to have most of the clearing finished for the first golf course by March of 1995.

LAS VEGAS, Nev. — Mt. Charleston Alpine Golf Resort is awaiting county approval to begin grading for a new 18-hole golf course. The $35 million project calls for a future 150-suite hotel, an alpine village, skiing, retail and retail space. The course will be constructed by the resort's parent company and is scheduled to be completed later this year.

BRADENTON, Fla. — Lakewood Ranch, the facility being developed here by owners of the Schlitz Brewing Co., will include two golf courses, a hotel, an alpine village, city services and retail space. The course will be constructed by the developer's parent company and is scheduled to be completed later this year.

GREENVILLE, Mich. — Glenkerry Golf Course is scheduled to open its first nine holes by July of 1996. The developers, David and Kathy Probst, owners of local businessman Gary Probst, Chestnut Hills golf course and the sister village, Greenbrook, will sport an 18-hole public golf course.

ABOITE TOWNSHIP, Ind. — Chestnut Hills, an $18.5 million development featuring a Fuzzy Zoeller golf course, will soon bridge the Aboite River here. The development will be built on 435 acres containing woods, a creek, a river and five lakes. Owned by local businessman Gary Probst, Chestnut Hills will be a public golf course, with memberships available.

Booming Arkansas village eyes sixth course

HOT SPRINGS VILLAGE, Ark. — The Hot Springs Village Property Owners Association (HSVPOA) Board of Directors has approved an amended offer for the future development of the village's sixth golf course.

The board, by a five-to-one vote, accepted developer Cooper Communities Inc.'s offer of 450 acres of land on which to build the course, architectural services worth $50,000, and a four-year, interest-free, loan of $1 million to meet construction costs.

In the HSVPOA is to provide water and sewer services to certain Hot Spring Village subdivisions.

The amended version was completed Tuesday in last-minute negotiations.

*People asked 'Why the hurry? But the fact is that there is no hurry now,' board member Ed Hearn told The Sentinel-Record. "We've secured the financing, but we're under no obligation to build the new golf course now or ever."

The association negotiating committee — Keith Brown, Hearn and Keith Endquist — had been hindered by dissent among the villagers because of cost.

Those in favor cited the growing demand for golf and decreased availability of tee times, as the retirement-based boomtown continues to grow by an estimated 1,000 residents a year.

Former vice president of HSVPOA Sam Harris told The Sentinel-Record he personally hoped the board would delay the action on the new course.

KUBOTA’S VIP TURF EQUIPMENT

Kubota's precision-cutting turf equipment cuts through your turf chores in less time, with less fuel, while delivering more power and versatility.

The heavy-duty, 2WD M4030SU turf/utility tractor is powered by a Kubota 51 horsepower liquid-cooled diesel engine. With standard features such as "creep speed" transmission (16 forward/16 reverse), hydrostatic power steering, wet disc brakes and an independent hydraulic system, this powerful special turf tractor can lift and move heavier loads and quickly attach/detach a variety of implements.

For the ultimate in maneuverability and versatility, the Kubota diesel front mower F-Series offers you hydrostatic transmission for quick, smooth operation. The 24HP F2400 and 20HP F2400 come with four-wheel drive and a front differential lock. The fuel-efficient, 2WD 20HP F2100E offers excellent visibility and power. And, the F22100 and F22400 with 20HP and 24HP offer the exclusive combination of Zero Diameter Turn (ZDT) and Auto Assist Differential (AAD) 4-wheel drive.

Kubota has a wide selection of Kubota performance-matched implements such as rotary, flail and real discharge mulching mowers.

Cut through your turf chores with a Kubota.
