In search of the better idea

By TERRY BUCHEN

BELTON, Mo. — Nels Lindgren, CGCS, golf course superintendent here at the Loch Lloyd Country Club, grew in this tournament-caliber golf course in 1989 and hosted a Senior PGA Tour event just 13 months after it opened for initial play. Quite a feat, to say the least.

The course, just south of Kansas City, was designed by Don Sechrest and built by Wadsworth Golf Construction Co. I like to tour other superintendents' maintenance buildings that was not cut with a torch. The rack is 16 feet high. It is used for palleted storage for tournament supplies, irrigation pipe, electric switches, which operate the marker, are located on the dash board and the 12-volt electrical is hooked up to a space fuse.

REINDERS HOSTS TURF SHOW AND CLINIC

ELM GROVE, Wis. — Reinders, Inc., will host its 12th Turf Conference, Equipment Show and Service Clinic on March 15 and 16, here at the Waukesha Expo Center. The clinic is the largest show of its kind in Wisconsin and has been held every year since 1973. More than 1,400 people are expected to attend.

When his personnel fertilize wheel track to wheel track, a foam spot is left in-between each wheel mark. For added insurance, a green dye could be added just in case the foam disappears during a hot, sunny day while the spreader is being filled up with material.

Electric switches, which operate the marker, are located on the dash board and the 12-volt electrical is hooked up to a space fuse.

AQUATROLS INVENTED SOIL WETTING AGENTS 40 YEARS AGO!

We felt it was time to offer the turf industry something new...
