Brassie and COPM management firms join forces
New company will be second-largest publicly held manager
By Peter Blais
ST. LOUIS — The merger of Brassie Golf Corp. with Club Operations and Property Management/Resort Golf Clubs International has created the third-largest management company in the U.S. golf industry and second-largest among publicly held firms. Operating under the Brassie name, the new firm’s portfolio includes 50 owned and managed golf courses in 15 states and five courses in Mexico. The company’s newest 18-hole course opened April 15 in Stafford County, Va. Plans are to add six to eight new properties every year.

“Tt’s a pretty exciting time,” understated Pat Fister, Brassie’s vice president of business developments.

Under the terms of the recently revised agreement, Brassie will acquire all of the outstanding shares of COPM in exchange for 1,075 million shares of newly issued Brassie common stock, 375,000 shares of newly issued subordinated redeemable preferred stock, 500,000 five-year warrants exercisable at $2.50 per share for the first three years and $2.25 for the next two years, and $500,000 in cash.

In exchange, Brassie will assume control COPM’s management-only portfolio of 41 facilities, which includes 32 golf courses and nine city/yacht clubs. William Horne founded Tallahassee, Fla.-based COPM in 1982. COPM subsidiary Resort Golf Clubs International is involved in golf course design. Continued on page 38

New foundation helps communities obtain financing
CHICAGO — Local governments looking to develop, acquire or improve community golf courses have a new resource for financing and managing projects.

The Public Golf Foundation of America (PGFA) — recently established as a tax-exempt, non-profit corporation — can provide complete financing, development and management assistance for new or existing golf projects, according to PGFA Executive Director William Hardy. Hardy also heads North American Golf Inc. (NAG), a Chicago-based management company.

Internal Revenue Service designation as a tax-exempt organization means the Foundation can be a vehicle for tax-exempt bond financing, Hardy said.

“As long as a qualified municipal agency acts as a conduit for the issuance of the bonds, the Foundation can secure financing for sound projects,” Hardy said. This approach eliminates the need for a municipal body to pledge its credit or tax revenues toward the bonds, he added.

Expertise in golf development and operations management will come from industry sources, Hardy said. NAG helped develop PGFA and will provide professional and technical support for projects sponsored by the Foundation. However, Hardy said, the Foundation is available to work with any qualified golf company that is involved in community golf.

Hardy said PGFA expects to be involved in several types of projects:
• Construction of new community golf courses where the land is owned by municipalities, counties, airport authorities or similar agencies.
• Courses developed as part of new residential communities, where the pri-
