Penncross greens are found from elite prestigious private courses to the most played public courses. It is still the most specified creeping bentgrass ever, and from all indications, it will remain the first choice of golf course superintendents, designers and architects the world over.

Developed by Professor H. B. Musser and Dr. Joe Duich and introduced in the fall of 1955 as an elite seeded creeping bentgrass for putting greens, Penncross' popularity was immediate and long-lasting. Penncross' reputation for rapid establishment and quick recovery from damage has made it a popular choice of developers who must open their courses in a timely manner as well as savvy superintendents who utilize it for tees and approaches where divot repair is necessary.

Over time Penncross has proved it can take the heat, the wear of 65,000 annual rounds and verbal potshots from envious competitors.

Penncross is grown to the same critical standards set by Professor Musser, and you can be assured we'll provide the world's most recognized creeping bentgrass as long as you demand it.

Penncross 1955-1995

Lots of people know that Primo® regulates the growth of grass. But not as many understand how.

Primo doesn’t stunt turf. Instead, it redirects the grass’s growth.

Unlike other growth regulators, which actually stop cell division, grass treated with Primo will still be actively growing, producing the same amount of new cells. Only now the cells will be smaller. Smaller cells mean a more compact plant.

Nutrients that otherwise would be needed above ground are now channeled into the roots, giving you a thicker stand, and up to 25% more root mass. So the grass can more efficiently take up water and nutrients.

And Primo is foliar-absorbed, so there’s less risk of inconsistent uptake. The result? The easiest-to-manage, best-looking turf you can imagine. It’s easy to see why all roads lead to Primo.

©1995 Ciba-Geigy Corporation, Turf and Ornamental Products supports the “DON’T BAG IT” program. Always read and follow label directions.
For some, perfection is a goal. For Jack Nicklaus and his crew, it's merely a starting point.
As one of golf's legendary players and course designers, Jack Nicklaus sets the pace for quality play. To maintain his courses and his reputation, he chooses turf equipment that does the same. Jacobsen.

Take Jacobsen greens mowers for example. A complete family of walk-behind greens mowers offers the selection to match individual green terrain and conditions for precise cutting and striping.

The one and only patented Jacobsen Turf Groomer® turf conditioner creates healthier greens with improved playability.

And the Greens King™ IV with steerable reels cuts smoother and cleaner than anything on wheels.

Jacobsen equipment makes a noticeable difference. It's one reason Muirfield Village Golf Club is consistently rated #1 by the pros as the best maintained course they play on the PGA tour. And Desert Mountain, another Nicklaus-designed course, is #1 on the Seniors tour.

In fact, Nicklaus recommends Jacobsen to help keep all 131 of the courses he designed at the top of their game...and at the top of "best course" lists around the world.

THE PROFESSIONAL'S CHOICE ON TURF.

Jacobsen Division of Textron Inc.
NEW

The Best Fungicide On The Course

Longest Control • Best Performance • Lowest Rates

The confidence to win against Brown Patch, Dollar Spot, Summer Patch and 11 other turf diseases.
THE BEST PREVENTIVE CONTROL
Increase your confidence with just one application of Sentinel. It gives you systemic control of a broad spectrum of 14 damaging turf diseases. It's the most effective way ever to reduce your worry about disease control.

THE LONGEST CONTROL
- Ranges of expected length of control for Brown Patch and Dollar Spot under comparable conditions.
- Comparisons with other systemic fungicides based on eight years of research and EUP trials.

LONGER CONTROL THAN THE PRODUCT YOU'RE USING NOW
Only Sentinel delivers this level of extended disease protection. In 8 years and more than 400 tests, Sentinel has consistently delivered the longest control of any fungicide. '93 EUP results averaged 20 to 35% longer, with even more dramatic results in many trials.

PROVEN FROM TEE TO GREEN
Sentinel has proven its longest control in trials in 25 states on 12 different varieties of turf. It's effective on tees, greens and on fairways, and its quick absorption means it won't wash away with rain or standard irrigation practices.

A LITTLE GOES A LONG WAY
Good news for you and for the environment. Sentinel is effective at the lowest rates of any available fungicide on the market. You apply less, store less, have a lower seasonal load and still get the longest length of control.

EASY TO USE
Sentinel comes in convenient 3.6 oz. water soluble packets. These easy-to-use packets mean no pouring or messy measuring. Just toss in the tank and you're ready to apply.

PLAY TO WIN WITH THE MOST CONFIDENCE
Sentinel gives you the best shots: longest control, broad spectrum and lowest rates on the course. To tee off against turf disease with new Sentinel 40WG, contact your distributor or call Sandoz at 1-800-435-TURF for more information.

CIRCLE #119
Introducing Eagle fungicide
When it comes to maintaining healthy golf courses and long-term playability, new Eagle® soars above other systemic fungicides.

Eagle gives you unbeatable control against tough diseases, like brown patch and dollar spot. Long-lasting performance. Low use rates. And exceptional turf safety. So you can give golfers high-quality greens.

Fits 14-day schedules
For preventive or curative control, Eagle provides great results. You’ll find the best performance, though, with a 14-day protectant schedule.

Even during July and August — when temperatures and humidity rise and disease pressure is highest — Eagle doesn’t quit. Eagle offers another big advantage over other systemics...turf safety. You won’t see weakened roots, leaf damage or coarse turf blades.
LANDED.

So greens always look and play their best.

Other benefits
Eagle brings good news for applicators, too. Just six tenths of an ounce per 1,000 square feet gives you all the control you need. And mixing couldn't be easier. That's because Eagle comes in premeasured, water-soluble pouches you can toss right in the tank. There's no measuring, no mess and minimal worker exposure.

To find out more, see your local Rohm and Haas distributor. But don't wait long; Eagle is taking off fast. For top-flight performance.

ALWAYS READ AND FOLLOW LABEL DIRECTIONS FOR EAGLE FUNGICIDE.

Eagle® is a registered trademark of Rohm and Haas Company.

CIRCLE #138
Golf Course Expo Means Business

The public-access golf industry comes together at Golf Course Expo—the only national trade show and conference for superintendents, managers, owners, operators, and developers of public-access facilities—daily-fee, semi-private, resort, and municipal courses.

- Save money by pinpointing exhibitors on the trade show floor.
- Get up to speed on new products and services.
- Participate in special show events—like Shop Talks—where you'll learn about products and services that impact your bottom line.
- Solve problems by attending the multi-tracked conference program.

Bring the Management Team

Golf Course Expo is a must-attend for superintendents, managers, owners, operators, general managers, golf administrators, directors of parks and recreation, builders, architects, and developers. This is a great chance for everyone at your course who makes buying decisions to find key products and services that will help your facility operate more effectively and efficiently.

And because it's sponsored by Golf Course News, Golf Course Expo means business for you!

Circle November 9 and 10 On Your Calendar Now to be Part of This National Event for Key Professionals at Public-Access Golf Facilities

"Very interesting information. Being new in the business, this is very informative and interesting."
Mark Clark, Food and Beverage Manager, Sandy Ridge Golf Course, Midland, MI

"This was a very worthwhile experience. It's always great to get people together who are in the same business."
Craig Immel, Director of Golf, Aberdeen Golf Club, Cleveland, OH

They don't worry about *Sclerotinia*, *Rhizoctonia* or the damaging effects of summer stress complex.

With Fore®, neither will you.

Most golfers couldn't even guess what *Sclerotinia* is. Or *Helminthosporium*. But they know a disease outbreak when they see one. With Fore® fungicide, you can make sure they never will.

Fore gives you exceptional control against a broad spectrum of turf diseases (even the hard-to-pronounce ones). It won't injure sensitive turf. You'll get consistent performance, too. That's because Fore has been protecting greens for more than 25 years...without any record of resistance.

Plus, Fore gives you a new way to fight back against summer stress complex: a tank mix of Fore+Aliette®. Even during the hottest days, Fore+Aliette stops summer stress cold. So you'll see healthy, green turf. And happier golfers.

To learn more about Fore — and forget about disease worries — see your local Rohm and Haas distributor.
At superfine cutting heights, the turf isn't the only thing that can come up short.

Every aspect of your mower's performance is accentuated. For better or worse. And the same goes for greens play.

That's why Jacobsen puts so much into every Greens King™ walk-behind greens mower. Only Jacobsen has the patented Turf Groomer® greens conditioner, which produces faster, truer and healthier greens than any other system.

Plus, our mowers feature exceptional side-to-side, front-to-rear balance and a compact roller base for immaculate cutting.

When it comes to performance—when it comes to results—no other greens mower family can make this cut. For more information, and a complete demonstration, contact your Jacobsen distributor today.

Our 500 series walk-behind greens mower family includes 18", 22" and 26" models to handle everything from severely undulating greens, to tee boxes and collars, flawlessly.

THE PROFESSIONAL'S CHOICE ON TURF.
