Gill acquired by Woods Equipment

OREGON, III. — Woods Equipment Co. has acquired the assets of Gill Manufacturing Co., L.P. Terms of the agreement were not disclosed.

Based in Charlotte, N.C., Gill is a manufacturer and marketer of landscaping products to dealers primarily located in the Eastern and Southeastern regions of the U.S. Core products include pulverizers, turf renovators, seeders, core plug aerators, landscape rakes, and spreaders. The integration of these products broadens the spectrum of Woods’ Turf and Grounds Care Business.

As the third acquisition for Woods in the past twelve months, Gill joins the ranks of other brands that comprise the Woods product offering. In July 1994, Woods expanded into the industrial/construction attachment market with the acquisition of Gannon Manufacturing.

The addition of Alloway Manufacturing in November 1994 reinforced the commitment to provide agricultural dealers with a brand of specialty agricultural attachments.

Netlon secures Minn. distributor

BLAINE, Minn. — The Glen Rehbein Companies, headquartered here, have joined the Netlon Limited North America distributor network. The network centers on providing the patented Netlon Advanced Turf system, which incorporates small, interlocking polypropylene mesh elements with a free-draining rootzone medium covered by natural grass. The system is designed to relieve surface pressure.

The Glen Rehbein Companies include Glen Rehbein Excavating, which handles golf course construction, and Glen Rehbein Farms. The integration of these products broadens the spectrum of Woods’ Turf and Grounds Care Business.

They come in all sizes, shapes and locations. But every green challenges you to maintain a consistently superb quality of cut.

You gladly accept that challenge. And Toro offers a complete family of riding and walk greens mowers to help you succeed.

Like our Greensmaster® 3100. With fully floating reels, in 2 or 3 wheel drive. The softest footprint of all. A quieter engine.

And Turf Guardian® leak detector.

No wonder more riding greens mowers bear the name Toro than any other.

Because ours are products of Toro’s partnership with golf course superintendents for 80 years. To design exactly what you need to create beauty and playability of tournament caliber.

We like challenges, too.

Helping You Put Quality Into Play.

Insecticide coop

RH-0345 is a diacylhydrazine insecticide that controls grubs and other soil-borne pests on golf courses, industrial parks, home lawns, and other turf applications. This compound (benzoic acid, 4-chloro-2-benzyloxy-1-(1,1-dimethylethyl) hydrazide) has a unique mode of action that interferes with the normal molting process of grubs and caterpillars.

RH-0345 can be applied at low use rates, without harm to earthworms, honeybees or other beneficial insects.
