SOUTH LAKE TAK, Fla. — GN-1, the new fairway Bermudagrass from Greg Norman Turf Co., has not been university-tested. It went straight from the test plot to the marketplace. "The people at Sugarloaf chose it because it has better cold tolerance than 419. "We're not cutting corners. We really feel this grass is an improvement on the norm."

Why take chances when Scotts preemergent herbicides offer more than 11 years of proven performance?

For over a decade, on thousands of courses, Scotts pendimethalin products have set the industry standard for broad spectrum weed control, effectiveness and season-long performance.

**Formulation is the key.** No one has more formulation experience with pendimethalin products than Scotts, and no other preemergent can offer better, more cost-effective particle coverage. With Scotts, pendimethalin is distributed evenly over every particle for more consistent preemergent coverage. Constant particle size monitoring results in smaller, more consistently sized particles than typical products — resulting in up to 3 times the
