"I've Specified Penncross For 33 Years.
Why Mess With Success?"

I've been in business 33 years as a
golf course superintendent,
contractor, consultant and golf course
owner. Of the nearly 500 greens I've
built or rebuilt, 95% have been planted
with Penncross creeping bentgrass.
The customers specified PennLinks on
the others.

As a certified golf course builder,
my company is currently working on
six courses in three states, and all will
have Penncross greens.
Why? Because I believe
Penncross has already
been where all of the other
bents are trying to go.
Penncross can take the
extremes of heat, humidity
and cold we experience
here, plus the daily wear
and tear of spikes, ball marks and
divots. But the real value is in its rapid
establishment. In today's economy, a
golf course must generate revenue
quickly to recoup land, construction
and startup expenses. I can seed
Penncross anytime the soil is warm
enough to germinate and have green
grass in five days. We're then mowing
the greens in 13 to 16 days. This
pleases both investors and owners.

We mow Penncross
between 5/16" and 1/8",
and this is fast enough to
please the most demand-
ing golfer we get.
I plan to specify
Penncross for years to
come. Why would anyone
mess with success?"

Penncross is available from your dealer in the distinctive
burlap bag or 25 pound 'Penn Pail'. Order yours today.

CIRCLE #101 / GCSAA BOOTH #2450
Let’s not mince words – your job’s challenging.
Just think about all the people you have to please.
And about what happens if you don’t. You need confidence. You need security. And you’re not alone. Superintendents at some of the top courses in the country need the same thing. Which is why they use Barricade® preemergence herbicide to keep fairways, tees and roughs weed-free. So can you. Since Barricade has the longest residual of any preemergence herbicide,
it gives you maximum flexibility.
You can apply when it’s most convenient for you.
And have full confidence that you’ll get excellent results.
control of crabgrass,
goosegrass and other tough
weeds. Consistent control that lasts for
up to 26 weeks depending on the rate you
choose. For even more confidence and security,
Barricade keeps golf shoes and everything else
on your course stain-free. And since you’re
applying as little as one-fourth as much active
ingredient, you’ll reduce worker exposure and
lessen the environmental load. What’s more, its
low water solubility means Barricade
will stay right where you put it, even on slopes
and hillsides. Choose from two different
formulations: on-fertilizer and sprayable.
Barricade really can provide the added confidence
and security you need. But only if you apply it.
For more details, talk to your authorized
Barricade distributor, Sandoz sales representative
or call 1-800-248-7763.

Six Years Running

Golf Asia’s strategic location in Singapore, our established track record as a show of world-class standing, and the quality of our visitors and exhibitors alike has built our reputation as the premier golf trade show in the Asia-Pacific region.

The industry continues to grow in Asia. Alongside the emerging markets, are those countries whose maturing status and increased sophistication provide opportunities for the very latest technology and equipment the industry has to offer.

Record Turn-out in ’95

The 1995 Show attracted over 21,000 trade visitors, professionals and golfing enthusiasts from 31 countries. This included those from the Philippines, Vietnam, Myanmar, China and the UAE; emerging markets with some of the highest growth potential.

At Golf Asia ’95, eighty-two percent of participants stated that they had achieved the objectives they set for the exhibition. By the end of the Show, over three quarters of the 212 exhibitors had confirmed their participation in Golf Asia ’96!

Sixth Asia Pacific Golf Conference (APGC)

The APGC, undoubtedly Asia’s most recognised industry forum, will once again be held in conjunction with the exhibition. Complementing both the exhibition and conference, will be a series of educational seminars conducted by the Golf Course Superintendents Association of America (GCSAA). These seminars are traditionally well attended by golf course superintendents from clubs throughout the region.

Golf Asia ’96 promises to continue the success of past exhibitions. All efforts are geared towards attracting more visitors and participants than ever before.

RegalStar® preemergent herbicide, from a single application, provides the ultimate in weed control and quality turfgrass. It not only prevents the common weeds, goosegrass, crowfoot and crabgrass, it also gets the hard to control escape weeds. The Ureaform slow-release nitrogen carrier is sufficient to provide season-long feeding - a special extra benefit for better values.

This superior combination of weed control plus feeding produces turfgrass quality unequaled or unmatched otherways.

Imagine switching from 11-blade reels for greens to 7-blade reels for tees in about 30 seconds. Now imagine doing it without tools.

Jacobsen's new Greens King™ V, with its patented FlashAttach™ system, lets you do just that. You can also switch to verticut reels, spikers or even Jacobsen's own QuickRoll™ greens rolling system—just as quickly. Simply put, the FlashAttach system saves time while increasing productivity. And it's just one of many innovative improvements you'll find on the Greens King V. Improvements that add a new level of operator comfort, plus easier operation and maintenance.

Ask your Jacobsen distributor for a Greens King V demonstration today.

The Professional's Choice on Turf.
