As Maine goes... One-stop permitting is here!

By Mark Leslie

UGUSTA, Maine—When Dick and Ron Foster applied for a permit to build a golf course on 112 acres in Litchfield, the process took seven weeks. Some 3,000 miles away, California has opened nine Permit Assistance Centers (PACs), bringing together permitting authorities from state and local government to simplify the process.

States from Maine to California are taking innovative steps toward regulatory reform and improved customer service, slashing huge amounts of time and paperwork off the quagmire of the permitting process. Their aim: to invigorate their economies while maintaining a quality environment.

The seven weeks to get approval for the Fosters' project is a shocking speed in many states. But it may become more commonplace as time passes.

"There are a lot of innovative programs going on in all the [New England] states right now," said Brooke Barnes, director of policy development and implementation for the Maine DEP, which is the state's "pinnacle of licensing and permitting," he added.

"The EPA [Federal Environmental Protection Agency] is allowing more experimentation in different ways to approach regulating the environment — not just command-and-control stuff," Barnes said.

"In just the issue of processing, the agencies are always trying to reduce the time and still hold the line on their mission. Our mission is to protect the environment. We want to be customer-Continued on page 36

Riviera does a double at 10

By Mark Leslie

PACIFIC PALISADES, Calif. — Riviera Country Club's 10th hole may be the best short par-4 in the country. So it was with trepidation that the powers that be at the club decided something needed to be done to save the little green from the pounding of 60,000 rounds a year.

In late July, course officials will unveil the results of their decision: Instead of enlarging the 3,000-square-foot 10th green, they added a second, permanent part-time green, also about 3,000 square feet in size, to be used certain days of the week.

"It's a unique concept and an intriguing project," said course architect Ron Forse of Uniontown, Pa. "At first, I didn't want to take it. I didn't want to be part of ruining what may be the most unique hole in [architect] George Thomas' masterpiece."

But Forse saw that the second green could be added and still maintain the strategic integrity of the hole.

"Thomas had that extra fairway bunker off to the right and with the same backslope as the original green. So we hid the new green behind the existing bunker just like the original green," he said. "Also, the new green has the same slope as the original. And the same type of strategy works for the new green as well."

QA North and Packard become popular team

Below, Andy North, right, and Roger Packard look over construction work on one of their projects. At left is a shot of Trappers Turn, a course they designed in 1991 in Wisconsin Dells, Wis.

Roger Packard and Andy North are among the more successful architects to golf course design teams operating today. Packard entered the business with his father Larry in 1970 and emerged from his father's shadow with such widely acclaimed layouts as Cantigny outside his native Chicago and Sweetwater Country Club in Houston. North is a three-time PGA Tour winner, including two U.S. Open victories. Together they have designed Trappers Turn in Wisconsin Dells (Wis.), nine holes at Spring Green near Madison, Wis., Northern Pines at Kalispell, Mont., and The General at Eagle Ridge in Galena, Ill., which is set to open in August.

Golf Course News: How did the two of you team up?

Roger Packard: Andy was talking to a mutual friend of ours and expressed interest in getting into the design field. Dad (Larry) had retired at that point so I was open to having a pro partner. Andy liked my design style and the courses I had done, and I wanted a partner who would be actively involved.

Our personalities clicked and we started on Trapper's Turn.

GCN: What does the two of you contribute individually to a Packard/North design?

RP: Basically we blend our areas of expertise to build the best course possible. I've been around golf all my life and in the design business for 26 years. Andy brings

BRIEFS

RYANGOLF HIRES ALLEN

DEERFIELD BEACH, Fla. — Ryangolf, a division of Ryan Inc. East, has added Tracy Allen to its golf course construction team. Allen brings many years of relationships within the golf industry. He sits on the board of directors of The Florida State Golf Association, and is a former director of The Southern Golf Association, as well as a former member of the editorial board of Links Magazine.

ARCHITECTS ENDORSE PRINCIPLES

PINEHURST, N.C. — The American Society of Golf Course Architects (ASGCA) has endorsed the Environmental Principles for Golf Courses in the United States "because we believe it is good for golf ... and for the communities in which we live and work," said ASGCA President Denis Griffiths.

BARDOOM FACELIFT BEGINS

LARGO, Fla. — Bardmoor Golf Club began a $500,000 renovation of its 18-hole championship golf course in June. The course is expected to reopen July 27. Greens are being expanded from 3,000 square feet to 90,000 square feet and will be surfaced with Tifdwarf Bermudagrass. A new process of sodding called Rapid-Turf will accelerate the process. More than five miles of 8-foot-wide cart paths throughout the course will be resurfaced with asphalt. The tee areas will also be enlarged, regraded and re-sodded.

ENGH, ROBINSON MOVE

CASTLE ROCK, Colo. — The golf course design firms of Jim Engh and Cabell R. Robinson have both moved. Jim Engh and his Global Golf Design (GGD) President Lane Collins, bringing together permitting authorities from state and local government to simplify the process. More than five miles of 8-foot-wide cart paths throughout the course will be resurfaced with asphalt. The tee areas will also be enlarged, regraded and re-sodded.

 colinS builds two

PALM BEACH GARDENS, Fla. — Golf Buildings Development, Inc. (GBD) has been awarded the contract to design two golf maintenance facilities in Massachusetts. Widow's Walk Golf Course in Scituate and Bridgewater Golf Club are under construction and the maintenance facilities will be completed this fall, according to GBD President Lane Collins.
