Island putting greens are indeed a beautiful, yet intimidating, sight to behold with some very unique shapes and features. They’re also meant to challenge golfers. Once a player has carried the water hazard and landed on the green, he should be rewarded for his efforts. That’s why, in most cases, the putting surface is one of the ‘Penn Pals’... icing on the cake, so to speak.

We haven’t seen the last of island greens. Now that one floats, what’s next? Whatever the configuration, your Tee-2-Green distributor has the ideal creeping bentgrass for each application: Penncross... the world standard for putting greens since 1955. Penneagle... the salt tolerant grass for greens and fairways, plus PennLinks, the new choice for greens around the world.

And now, the exciting next generation of low mowing creeping bentgrasses... PENN A-1, PENN A-2, PENN A-4, PENN G-1, PENN G-2 and PENN G-6 will add a new dimension to green performance.

So, even when a player’s short irons are erratic, and his putting’s unpredictable, he can always count on the quality and consistency of ‘Penn Pals’ greens as he tours the islands.

FROM THE DESK OF HAL PHILLIPS
As a reader of Golf Course News, it's no secret that public-access golf courses have been the focus of a lot of attention in our pages over the past few years. The reason is simple: Your courses are growing in numbers, your facilities are expanding to meet demand and competition, and your role in the golf industry is taking on added importance.

Let's face facts. Public-access golf facilities represent 70% of the nation's course stock!

That's why Golf Course News is sponsoring the Public Golf Forum—to help you meet the business challenges you face every day. It's an educational conference but even more, a chance to connect with your peers and colleagues, exchange information, solve your problems, and meet with vendors who can help your business grow.
