BRIEFS

STIRLING JOINS KAVANAUGH

TUCSON, Ariz. — Kenneth Kavanaugh Golf Course Design has hired Blake Stirling as senior designer. Stirling has worked in golf course design and construction for nine years, including seven years as a senior designer with Dye Designs, Inc. of Denver. Leaving Dye, he briefly operated Stirling Design Group. He has been involved in more than 80 golf projects worldwide. Before joining Dye, he was a high-ranking collegiate and amateur golfer in the West and apprenticed with Killian Design Group.

FREAM GETS CALIF. PROJECT

BAKERSFIELD, Calif. — Golfplan-Ron Fream Design Group is designing an 18-hole public golf course in this town in agriculturally endowed San Joaquin Valley. River Ranch will be a par-72, ranging from 4,650 to 6,650 yards, winding through a residential subdivision. Extensive earth-moving will contour the golf holes and raise adjacent building sites to enhance homesite views.

COORE-CRENSHAW IN ARIZONA

SCOTTSDALE, Ariz. — Bill Coore and Ben Crenshaw broke ground in July on a 36-hole daily-fee facility here for the Pima Maricopa Indian Tribe. Called Talking Stick Golf Club, it will be operated by Troon North Golf Management. Coore said the north course will be low-profile with crowned greens and holes of "great latitude where you can pick angles off the tee." Walking will be encouraged on the south course, which will feature the "club look," he said, "more elevation change, more trees and a couple of streams and lakes."

PELICAN BAY ENLARGING GREENS

DAYTONA BEACH, Fla. — Golfers will experience larger greens and more consistent putting surfaces now that a $260,000 greens improvement project has been completed at Pelican Bay Country Club. The Greens Course here is completed later this year. All greens at the 18-hole course were reconfigured and enlarged, and most bunkers and sand traps changed, according to Jerry Broome, regional manager for International Golf Management, which oversaw the project.

Maine busting out of slumber

By MARK LESLIE

ANGOR, Maine — Maine golf course construction, in hibernation for six years, has emerged with a bang, counting 17 new projects or expansions in the last year and another eight in planning.

Not since suburban Portland’s Falmouth Country Club and The Woodlands opened in 1988 and nearby Sable Oaks Golf Club opened in 1989 has any one built an 18-hole golf course in Maine. But this summer, construction began on The Meadows at Litchfield, Belgrade Lakes Golf Club, Felts Brook Country Club in Holden and Dunegrass Country Club in Old Orchard Beach which is expanding from nine to 27 holes.

This is like the shopping center developments back in the ‘80s. Everybody seems to want to build a golf course," said Chuck Kellogg, a project director for the Maine Department of Environmental Protection.

The surge has carried over from 1995 when construction began on several new nine-hole facilities and additions from nine to 18 holes. In this short time second nine have been added at:

- Bridgton Highlands late last year.
- Point Sebago in Naples this summer.
- Bath Country Club last year.

Belgrade Lakes is Clark’s first
American canvas

By MARK LESLIE

BELGRADE LAKES, Maine — Two score and two hundred years ago, Maine — as part of the Commonwealth of Massachusetts — declared independence from England. This summer it reopened relations, welcoming British golf architect Clive Clark to build his first course in America.

The golf hole is marvelous. The stakes are high.

“We hope this will be a catalyst for economic growth,” said co-managing partner John Allford, grandson of Belgrade Lakes Golf Club, Inc. (BLGC) partner Harold Allford. “Central Maine needs a boost and this is it.”

“This will mark the resurgence of Belgrade Lakes as a resort,” agreed co-managing partner Kyle Evans. Evans, former superintendent of Waterville Country Club and now president of BLGC, was referring to the position the Belgrade Lakes Region held among wealthy vacationers until a 1958 fire destroyed the area’s cornerstone hotel, the Belgrade, and its nine-hole golf course.

The 240-acre golf course property sits on very high, wooded ground overlooking Belgrade and Messalonskee lakes and Long and Great ponds. Seven holes, a putting

Colleagues hail Bunker Hill

By MARK LESLIE

PHOENIX, Ariz. — Bill Coore of Coore & Crenshaw calls Dan Proctor and Dave Axland "fantastic." Golf course architect Ron Forse says they are "great to work with, and care intensely about the quality and authenticity of their work."

Sand Hills Golf Club owner Dick Youngscap was so impressed by their work that he cited them in his brochure on the Mullen, Neb., track which was voted Golf Digest’s Best New Private Golf Course in 1995.

Coore, Forse, Youngscap... Even with these endorsements, who in the world are Dan Proctor and Dave Axland? Is the Dave and Dan Show officially called Bunker Hill Golf Course Design and Construction Co. — the best-kept secret in the golf industry?

"I’m probably shooting myself in the foot telling how great these guys are," said Coore, "because if they start getting their own [design and construction] work, we won’t be able to get them."

Proctor and Axland’s work should speak for itself, said Coore, the consummate "minimalist" designer. He cited Delaware Springs Golf Course, a municipal course they designed and built for the city of Burnet, Texas. "It is so good — low-key, strategic, an incredible

Pine Tree State busts out
Continued from page 31
At least a half dozen new second nines are in the midst of construction from southern to western to central Maine. They are:
- Sanford Golf Club.
- Naples Country Club.
- Lake Kezar in Lovell.
- Nonesuch River Golf Club, formerly The Greens at Eagle Brook in South Portland.
- Turner Highlands.
- Hampden Country Club.
New owners of Lucerne Hills, formerly Fineswood, in East Holden redesigned the nine-hole track last year.

You're scheduled to put down herbicides this afternoon... but now there's a thunderstorm 50 miles to the west.

What do you do?

From deciding whether or not to apply chemicals...to turning on the sprinklers... or even scheduling your labor, weather impacts just about every course decision you'll make.

DTN WEATHER CENTER is designed to provide course managers with the time-sensitive - comprehensive - weather information they need to make the most economical and environmental decisions.

At the touch of a finger you'll have instant access to the most current weather maps and data available.

DTN WEATHER CENTER provides:
- "In-motion" radar maps updated every 15 minutes...showing national down to the county level precipitation intensity and movement
- 300 major city forecasts with projections in three hour increments for the next three days
- National lightning location
- Over 100 full color maps in all... updating continually and featuring everything from current conditions to 90 day outlooks.

DTN Weather Center supplies all the equipment you'll need... no computer is needed. And since the information is received through a small satellite dish - not through phone lines - you can use the system for as long and as often as you wish!

of golf? I think balance is a great word in design. The trend over here is to come back from that. Owners and designers are softening their courses quite a bit. I think it went through a phase where people were trying to build something that was more brutal than the last one.

GCN: Have you made a permanent home in La Quinta — a sort of "Americanized Mr. Clark"?
CC: I'm still Mr. England. I have a holiday home here at PGA West. I just love being here. For four or five years I've come over around Christmas time and spent a few weeks here. But this is a transition. Now I live here and will holiday back in England.
GCN: I understand you are working with Ernie Els.
CC: Yes, we will break ground this winter on a course in Cape Town, South Africa. Sometimes we work together and sometimes I work independently.
GCN: Long-time St. Andrews superintendent Walter Woods is working with you as well.
CC: He will be doing some consulting with me over here.
