Did You Know You Have Four More Reasons To Use TERRANEB SP?

You know all about the four major turf diseases and how they can destroy all of your hard work in a matter of days. You know about Pythium. How it attacks all cool season turfgrass and grass seedlings. You know how Gray Snow Mold develops under snow cover, attacks foliage and infects deep into the crown area, completely destroying the grass plant. You know about Sclerotium or Southern Blight. How the fungus spreads from soil and debris to attack annual bluegrass during hot, humid weather. And, you know about Brown Patch, the most common of turf diseases, and how it can destroy a stand of bentgrass within a few days. These common turf destroyers are well known to everyone involved in turf care management.

And, by now, you probably also know about TERRANEB SP Turf Fungicide. How it’s fast acting formula works systematically, through the root system, to stop all four of the major turf diseases in their tracks. You know that one application of TERRANEB SP can last up to two to three weeks to stop the spreading and return of all “Big Four” turf diseases while other, contact type, fungicides give you only 24 hour relief.

But, did you know that we’ve developed TERRANEB SP Turf Fungicide with another four in mind. The foursome that play your course, walk your fairways, divot your tees, and scuff your greens all day long. TERRANEB SP does more than give them the best looking surface possible. It’s low toxic, biodegradable formula allows you to apply TERRANEB SP in the evening and have your course ready for 6:30 A.M. tee off.

So be prepared for the “Big Four” in turf diseases and your first four of the day with Time-Tested TERRANEB SP Turf Fungicide.

For All The Best Reasons.
