Mission Accomplished, Again
Survey says: Mission Hills has repeated as the Best Maintained Course on the LPGA Tour.

Fearis joins GCSAA order of ascension
LAS VEGAS — Blue Hills Country Club’s David Fearis, 50, was elected GCSAA secretary/treasurer at the recent annual board of directors election here, meaning the Kansas City (Mo.) superintendent will eventually succeed retiring President Paul McGinnis and Vice President George Renault as leader of the national superintendents’ organization.

Policy-makers hold key to development
WASHINGTON, D.C. — The country’s hotly debated wetlands policies are in turmoil following contradictory developments issued in the early days of 1997: First, Nation Wide Permits for wetlands were tightened, then a court ruling weakened regulations limiting excavation of marshes and swamps.

According to experts, this upheaval may continue for the next two years, until the federal Environmental Protection Agency (EPA) and Army Corps of Engineers install a new set of Nation Wide Permits (NWPs). Golf course developers and others are now dealing with two major changes:

• A revised NWP 26 [GCN, January ’97], which reduces the number of acres a project can affect. In the past, a developer could impact 1 to 10 acres of isolated wetlands or stream headwaters. One acre could be affected without seeking permits. Under the new rules, permits are required for any impact of more than 1/3 of an acre. The 10-acre maximum of wetlands that could be affected has been cut to 3 acres.

• U.S. District Court Judge Stanley S. Harris, who ruled here on Jan. 23, has thrown out the “Tulloch.Businesses meet market-specific needs
DALLAS — Factory stores here in the competitive Texas golf course market have shown how much distribution has changed, while simultaneously re-emphasizing the importance of independent distribution to the selling process.

Citing loss of market share, the Bloomington, Minn.-based Toro Co. has opened three factory stores serving the Dallas-Fort Worth, Houston and San Antonio markets. One of Toro’s major competitors — Racine, Wis.-based Jacobsen Division of Textron — has also opened a factory store in Dallas.

Yet executives at both firms are careful to point out that market-specific factors — not a loss of faith in traditional distribution channels — have prompted creation of these factory stores.

“This is not a trend,” said Eddie Clark, who manages Professional Turf Products’ Toro’s three-pronged Texas distribution operation. “Toro’s expertise is manufacturing and marketing. Distribution is the facilitator that Toro uses to take its products to market. We had lost quite a bit of market share here, so we decided we had to make a transition.”
New officers take their places at helm

41, of Valley View Country Club in Peoria, Ill., from the secretary-treasurer post. If tradition holds, Fearis will become GCSAA president in 1999.

He will be preceded this year by McGinnis, 45, and in 1998 by Renault, 48, both of whom ran unopposed for president and vice president, respectively.

McGinnis, 45, is head superintendent at Moon Valley Country Club in Peoria, Ariz. A 19-year GCSAA member who was first elected to the GCSAA Board of Directors in 1992, McGinnis characterized himself as "a bridge" between the somewhat controversial boards and administrative staff of the early 1990s and the current board, which has emphasized cooperation between regional chapters and national headquarters.

Renault is head superintendent at Burning Tree Club in Bethesda, Md. He is a 19-year GCSAA member who was originally elected to the board in 1993. One of the more important positions he has held is as a member of the Americans with Disabilities Act (ADA) Golf Advisory Commission, which is drafting recommendations that will help the federal government decide how golf courses can meet ADA requirements.

Also re-elected to the board were incumbents Tommy Witt of Wynstone Golf Club in North Barrington, Ill.; Michael Wallace of Hop Meadow Country Club in Simsbury, Conn.; and Samuel Snyder of Hercules Country Club in Wilmington, Del. The other candidate for the board was John Maddern of Elk Ridge Golf Course in Atlanta, Mich.

The recently elected officers and board members will join returning directors Woodhead, Bruce Williams (immediate past president) and Ken Mangum.

The defeated membership diversification bylaw amendment mentioned earlier would have created a new optional C-V class for assistant superintendents. It would have allowed assistant superintendents with at least three years experience virtually the same privileges as Class A and B head superintendents, including the right to vote at annual elections, but not the right to hold office. Those assistants choosing class C-V status would have been required to pay the same dues as head superintendents.

Under the proposal, assistants with three years or more of experience would have had the option of remaining Class C members, paying half dues without the right to vote. The amendment was defeated by just 76 votes, 3,063-2,987.

regulations promote an anti-competitive situation. Our industry is undergoing consolidations and mergers in response to some of these regulations. The little guys with good ideas simply can't play the game because the regulations make it too expensive."

Clift and Richards addressed the ongoing debate over the requirements of the Americans with Disabilities Act. Specific regulations regarding how golf courses will have to be designed to accommodate those with disabilities are still being developed.

"The idea that the disabled are fully a part of society is a relatively new one," Clift said. "But 12 percent of the population is disabled and as the population ages, we'll have to accommodate those people as well. There's a market there and money to be made."

Richards had a slightly different spin on the situation, noting that it may take another two years to finalize ADA regulations regarding golf courses.

"Consultants are covering themselves by a factor of five to avoid getting sued later on," Richards said. "They are recommending we do more than the law will likely ever require us to do. We're being subjected to laws that aren't even written yet."

McLaughlin Group

Visually and maneuverability will increase your productivity.

We're proud to announce powerful new additions to our line-up. Our F-60 Series front mowers with features and pricing that are going to score a lot of points.

These 4WD mowers include many technological breakthroughs for increased turf performance. The Auto Assist 4WD with Dual-Acting-Overrunning clutch system delivers 4WD saving traction. In forward and reverse. It automatically transfers power to all 4 wheels when you need it. So, when the going gets tough, you get traction and reduced turf damage instead of wheel spinning. Or, you can choose to engage 4WD on-the-go.

A durable, independent hydraulic PTO clutch makes it possible to engage and disengage PTO driven implements on the move.

Kubota's E-TVCS diesel engines deliver maximum power while minimizing vibration and noise. And, enhanced combustion efficiency reduces fuel cost and lowers emissions.

The F-60 Series includes 22, 25 and 30 horsepower 4-wheel drive mowers as well as a 25 horsepower 2-wheel drive model.

If you're looking for the ideal combination of comfort, power and efficiency for your team, you've just found a winning line-up.
