CMAA elects new slate of officers

ORLANDO, Fla. — John A. Jordan, general manager of Cherokee Town and Country Club in Atlanta, was elected president of the Club Managers Association of America (CMAA) at its World Conference on Club Management held here.

Jordan has been serving as the general manager of the Cherokee Town and Country Club since 1967. Prior to this appointment, he was the country club manager of Cherokee.

He joined CMAA in 1965 and was first elected to the board of directors in 1990. During his tenure, Jordan has served on several national committees including the Budget and Finance, Executive, Strategic Planning, Bylaws, Club Management Institute, Chapter Services and Conference committees.

Willmoore H. Kendall, general manager of Woodmont Country Club in Rockville, Md., was elected vice president of the CMAA.

Paul K. Skelton, vice president, Golf & Club Operations, Desert Troon Companies and Hassayampa Golf Club in Prescott, Ariz., was elected the association’s secretary-treasurer.

Also elected to the board were Dennis R. Ahearn, secretary-general manager of The Country Club of Orlando; Warren L. Arseneaux, general manager of the Founta Lake Club in Greenville, S.C.; Henry Waddington, general manager of Piedmont Driving Club in Atlanta; and Gordon Foster Welch, general manager of the Oaks Country Club in Tulsa, Okla.

EPA to get tough on underground storage tanks

WASHINGTON, D.C. — The federal Environmental Protection Agency (EPA) has planned an aggressive underground storage tank initiative.

This spring EPA will kick off a national effort to ensure operators of underground tanks are in full compliance with regulations which dictate storage tanks must be upgraded, replaced or closed by December 1998. EPA officials have indicated they have no intention of extending the December 1998 deadline. Accordingly, the agency will begin an outreach effort to encourage tank operators to take appropriate action.

ONE CRAB WE CONTROL.
The OTHER ONE’S UP TO YOU.

In your business two types of crabs are a fact of life. New Acclaim® Extra Herbicide provides excellent control of the crabgrass escape type. Even more concentrated than the original Acclaim, Acclaim Extra is 14% stronger. So lower rates give you the same dependable spot treatment control without damaging your existing turf.

Plus, Acclaim Extra also lets you reseed fescue and ryegrass immediately after the spray dries. It can also still be used on bluegrass, ryegrass, zoysiagrass, fine fescue and tall fescue. And Acclaim Extra controls crabgrass escapes from the 1-leaf stage right up to just before seed head formation.

No preemergence herbicide is perfect, so make postemergence Acclaim Extra a part of your season-long crabgrass control program. As for that other type of crab... sorry, but you’re on your own.
