Adul...golfers play in excess of 25 rounds a year. According to the National Golf Foundation (NGF) figures, Avid golfers increased in number by approximately 650,000 from 1986 to 1996, a net gain of 14 percent. By comparison, Moderate golfers (8-24 rounds annually) grew by close to 21 percent and Occasional golfers (1-7 rounds annually) by 32 percent. Juniors increased at an annual rate of 2.3 percent, a net gain of approximately 26 percent over 1986.

Lohmann announces name change

Sand Barrens Golf Course, New Jersey

When your greens are seeded with L-93, golfers will go through almost anything to reach them.

At Sand Barrens Golf Club, you'll find 25 acres of sandy waste standing between you and the greens. But once you get past the sand, you're rewarded with the greenest, most uniform putting surfaces ever created. These clones were selected from 1500 plants based on texture, color and number of seedheads. The selection of the five clones which showed improved dollar spot resistance also showed uniform appearance in color and texture. For more information, contact SR at 800-253-5766.

Seed Research ready with SR 1119

SR 1119 is the newest in the line of bentgrasses developed by Seed Research of Oregon. This new variety is the culmination of nine years of extensive testing and evaluation. SR 1119 is derived from the progeny of the five clones of Providence germplasm which have been in trial at the University of Rhode Island since the 1960's.

These clones were selected from 1500 plants based on texture, color and number of seedheads. The selection of the five clones which showed improved dollar spot resistance also showed uniform appearance in color and texture. For more information, contact SR at 800-253-5766.

SGD to introduce Range Boss

SGD Company has introduced its new Range Boss ball washer, the XL-21. SGD said that the new XL-21 is designed with stainless steel construction for lifetime durability and good looks. It offers an easy-out nylon brush for removal of broken balls or stones along with a snap-in and snap-out washer belting which provides for gentle cleaning of golf balls. The unique "ball jogger" provides no jam ball feeding, eliminating the need for a maintenance person to stay near the machine. This new ball washer also features easy service to the washing cylinder simply by lifting polymer hood. A large 2" drain provides for fast elimination of dirty water and mud.

For more information, contact SGD at 1-800-321-3411.

Schreiner gets wired for design

Two years ago, Graig Schreiner Golf Architects made the decision to invest in computerizing its office. Prior to that, the company had not used computers as a design-and-plan production tool. Today, Craig Schreiner Golf Architects utilizes state-of-the-art computer technology as a tool in design and preparation of construction documents.

Digital terrain modeling capabilities allow thorough exploration of golf course routing scenarios as well as 3-D "concept perspective sketches" and "fly-through" animation based on actual existing and proposed golf course grading.

The company has also found that plan revisions can be made quickly and the accuracy of quantity take-offs is tremendous. The company said it continues to design and problem solve "the old-fashioned way.

For more information, contact Graig Schreiner at 847-487-5313.

Lofts Seed
Where Great Grass Begins

L-93 features improved resistance to numerous turfgrass diseases such as dollar spot, gray snow mold and brown patch. So it requires less fungicide in certain conditions than most other creeping bentgrasses. Its upright vertical growth and aggressive establishment helps prevent spike marks. And it's been ranked #1 overall best performance in the past two years.

So the next time your greens, tees or fairways need seeding, give L-93 a try. You won’t believe how many golfers will come out to watch it perform.

"L-93's grow-in performance surpassed all of my expectations. Its quickness of establishment and upright growth habit are quite impressive."

Steve Malikowski, Golf Course Superintendent
The Sand Barrens
Clementon, NJ
