The development of creeping bentgrass greens, tees and fairways added a fresh approach to the ancient game of golf: Putting is now faster and truer, bentgrass fairways allow more roll, and along with tees, recover from divot and traffic damage more rapidly. Golfers get around, and today's global players expect bentgrass.

Now, more architects and designers incorporate the 'Penn Pals' from Tee-2-Green into their courses with outstanding results. Our bents contrast well when perennial ryegrass, Kentucky bluegrass or fine fescues are used in short and tall rough areas. It's no wonder today's turf professionals count on the 'Penn Pals' to make their courses picture perfect.

In 1955 Professor Burt Musser, assisted by Dr. Joe Duich, released Penncross creeping bentgrass as a seeded bent for golf course greens. For more than 40 years Penncross has been specified for greens around the world and extended the boundaries of bentgrass adaptability.

Exceptional heat and wear tolerance plus recuperative ability are Penncross strong points. Forgiving nature and management latitude are more reasons for Penncross' long life, reputation and continued popularity.

Superintendents know Penncross will always rise to the challenge and perform flawlessly...like in the 97 Ryder Cup at Valderrama.

Penncross is one of the 'PennPals'™ available in the sealed tamper proof "Penn Pail" marketed by Tee-2-Green®. Call today for the distributor nearest you.

TEE-2-GREEN®

Think Of It As The Swiss Army Knife Of Utility Vehicles.

The new E-Z-GO Workhorse™ does it all. Hauls plants and fertilizer. Carries sand, gravel, bales of straw, building materials. And all your tools from shovels and hoes to mowers and blowers. It comes with lots of standard features like an 11h.p. 350cc engine, a 1200lb. payload capacity and an exclusive heavy duty bed liner. With options like a larger cargo bed and power dump, you can get an E-Z-GO utility vehicle that comes with just about anything — except a corkscrew. Looks sharp, too.
Good news: Public-access golf is the future of the game.  

Bad news: your competition is growing as a result.  

They’re getting tougher. Breathing down your neck.  

It’s no longer enough to simply maintain your operation. These days, you need aggressive marketing and management strategies to make your course stand out.

If you want to get—and keep—your competitive edge, make plans now to attend Public Golf Forum '97. Sponsored by Golf Course News, this national conference is tailored to the needs of owners, managers and superintendents of public-access golf courses who are feeling the pinch of the crowded market.

Attend Public Golf Forum '97 if you want to:

• Add the kind of value and prestige to your course that will let you increase your green fees—and your clientele.
• Find new products, equipment and technology to help you cut costs, maximize efficiency, and maintain quality throughout your operation.
• Learn how to position your course successfully against new and aggressive competition.
• Use market-savvy strategies to broaden your customer base, target new demographics, and increase your rounds.
• Ensure an emphasis on customer service.
• Plan and strategize for results, make better business management decisions, and advance your own career.

RESERVE YOUR PLACE TODAY AND SAVE!

Register by October 1, and the first registration from your company is only $395. Each additional registration, only $199—save 50%! (includes FREE admission to Public Golf Forum '97 Vendor Exhibits.) After October 1, first registration $495, each additional registration $249.

Two Full Days of In-Depth Seminars

Don’t just survive! THRIVE in this dynamic marketplace. Find out all you need to groom your operation for success at Public Golf Forum ‘97.
As sure as the seasons change, you can count on Pursell’s POLYON® fertilizers. They are the most reliable controlled release fertilizers you can buy, because temperature is the only factor that affects their release of nutrients. Our patented POLYON coating is extremely durable and very safe. It ensures against early release which can cause excessive clippings or even injury to your turf. POLYON fertilizers gradually meter out nutrients, feeding your turf...
PREDICTABLE

each day as needed. In fact, Pursell's POLYON technology is so dependable, we can use our exclusive PolyGraph™ computer program to predict how your turf will respond months after application.

You can count on POLYON fertilizers year in and year out to give you greener turf for a longer period of time. Call 1 800 422-4248 for more information.
BE ON TARGET
WITH SINGAPURE'S GOLF ASIA
FOR TODAY'S REAL BUSINESS OPPORTUNITIES.

CONSIDER THESE FACTS:

• Located in Singapore, GOLF ASIA is right in the
centre of the fastest growth region in the world,
from India to Japan, China to New Zealand.

• Since 1991, GOLF ASIA has played host to
more visitors from around the world and provided
more exhibitors greater business opportunities
than any other show in the region.

• GOLF ASIA is the only golf exhibition with a
Conference that is the most authoritative in the
region.

• A series of educational seminars conducted by
the Golf Course Superintendents Association of
America (GCSAA) will complement the exhibition
and conference. These seminars are traditionally
well attended by golf superintendents from clubs
throughout the region.

• Organised jointly by Connex and IMG, the
world's leading sports management and
marketing group.

Stop fantasizing! If it is TODAY'S real business
opportunities you are after, then GOLF ASIA '98 in
Singapore is your obvious choice.

Claim your stake today!

CIRCLE #130
The Most Economical Way to Eliminate Poa Annua

“We’ve used Bensumec™ 4LF for four years making split applications in the spring, and sometimes a fall application, too. I am more comfortable with this preemerge than with PGRs for our greens and tees. And we’ve had excellent control of Poa as well as crabgrass and other weeds.”

Stuart Cagle, CGCS
Old Oakland Golf Course
Indianapolis, IN

The One That Gets Them All’ For Fall Renovation – Trimec® Plus

Trimec Plus Post-emergent Grass and Broadleaf Herbicide is the only single product that controls unwanted grasses, nutsedge PLUS broadleaf weeds in turf.

“Weed problems were very severe in 1990 when I took charge of this 4 year old course. Relying heavily on Trimec Plus, we achieved complete clean-up in just a couple of years. We still use Trimec Plus, but mainly for goosegrass escapes now.”

James M. Taylor, CGCS
Hatsuho International Country Club – Dededo, Guam

The best overcoat you’ll buy this winter

Protect your valuable plants with the best winter overcoat you can buy – Transfilm Antitranspirant.

* Overcoat trees and ornamentals to protect from winter dessication.

* Overcoat fall transplanted trees and shrubs for sure success.

* Overcoat fungicide applications on greens, tees and other highly managed turf sites.

“During the construction of this course in 1989-90, our owner bought a nearby tree farm, a spade truck and enough Transfilm for 2,700 Scotch pines 6 to 15 feet tall. Also, over 700 deciduous trees were planted. We were told to expect losses of around 300 trees, but thanks in part to Transfilm, our replacements totaled less than a hundred.”

Frank Moran, GCS
Beaver Run Golf Course
Grimes, IA

A “Thank You” to our Golf Course Customers...

The first gallon of Trimec sold was applied on a golf course. Since that time, PBI/Gordon has specialized in providing quality products to the professional turf manager, and we would like to say thank you.

In honor of our 50th Anniversary Year, we will donate an amount equal to 3% of Gordon’s products purchased for use on golf courses during 1997 to

The GCSAA Foundation
ROBERT TRENT JONES ENDOWMENT FUND

for scholarships and turfgrass research - in your name.

A list of all participating superintendents will be provided to The GCSAA Foundation when the donation is presented at the 1998 Conference and Show.

For participation certificates, or for further information on this unique program, call The GCSAA Foundation, or call us direct 1-800-821-7925.
When readership is what you're buying with your advertising dollars, Golf Course News delivers. Cover-to-cover, Golf Course News has the news your customers need to know.

Whatever your financial needs, let FMAC help you achieve your goal. FMAC Golf Finance Group is staffed by experienced professionals who really understand your business. We offer fixed rate loans with terms of up to 20 years. Our floating rate loans feature interest ceilings that protect you from runaway inflation and interest rates. We lend and lease to all types of golf course facilities, from daily-fee courses to member-owned clubs and long-term leaseholders. When we arrange a loan, it's based on the cash flow of your business—personal guarantees are often not required. Our legal and appraisal process keeps our fees far below those of other lenders. Simply provide us with the financial data for your facility and we’ll provide an estimate of its value and the equity available to you.

Call Mike DeMita in Atlanta; Doug Brodie in Los Angeles; Ed Boyle or Ralph Little in Greenwich and find out how we take the hazards out of golf financing.
Around greens, you’ll want the Jacobsen Greens King 526. Its 26” width offers high productivity on surrounds, aprons and tees. The Greens King 522, 522T and PGM 22 — each 22” wide — offer superior quality of cut and high productivity across a variety of terrain. And at 18”, the Greens King 518 is just what you need to go up and over severely undulating greens. All Jacobsen Walk-Behind Greens Mowers offer the patented Turf Groomer® for faster, truer, healthier greens. Plus, a comfortable OPC is standard. See your Jacobsen distributor for a demonstration today.
