COLUMBIA PARCAR HIRES WITHIN
REEDSBURG, Wis.—Columbia ParCar, a manufacturer of golf cars, announced several promotions within its home office. John Cnokrak, vice president of sales and marketing for the past year, has been promoted to executive vice president. Tom Simota has been promoted to vice president of operations. Duke Cramer, a veteran of 26 years with Columbia ParCar, takes over the newly created position, manufacturing manager. Columbia ParCar has also appointed C. Ward Utterbach as its sales/marketing support manager. Utterbach will be responsible for assisting the technical, sales and marketing support groups of Columbia ParCar in order to achieve their long range plans.

KEYSTONE SOUTH EXPANDS IN FLORIDA
ATLANTA — Keystone South, a manufacturer of concrete modular retaining walls, has appointed Sam Riddell as sales representative of Keystone Retaining Wall Systems for Central and Northern Florida. Riddell will be based in Orlando. The company has also established a manufacturing and sales agreement for Keystone Retaining Wall Systems with Florida Rock Industries, Inc. Russ Hinote will be the sales representative covering the greater Tampa Bay-St. Petersburg area.

GROWTH PRODUCTS ADDS HATTORI TO LINEUP
WHITE PLAINS, N.Y.—Growth Products Ltd., a producer of liquid fertilizers, announced the hiring of Kevin Hattori as its new director of public relations. Hattori's responsibilities will include the identification and pursuit of potential publicity opportunities for the company. He will also oversee all copywriting and function as the company's liaison with the media, industry associations, and universities.

KING SAFETY PROMOTES KIRK
ST. CHARLES, Mo.—King Safety Products announced the promotion of Douglas Kirk from sales manager to vice president and product manager. A company veteran, Kirk joined King in 1989 as a sales representative. His 27-year career includes positions in retail sales, market research and advertising. In his new position, Kirk will be responsible for four key areas at King. He will head up research & development for new and existing products, oversee all product testing, give company-wide technical support, and act as liaison with Underwriters Laboratories Inc.

TEXTRON TURF CARE AND SPECIALTY PRODUCTS SPONSORS TURF MANAGERS SEMINAR
RACINE, Wis.—A group of more than 30 top graduating turf students from colleges and universities throughout the U.S., Canada, Australia and New Zealand recently attended Textron Turf Care and Specialty Products' Future Turf Managers Seminar. "These students represent a bright future for the golf course maintenance industry," said president Phil Truetz. "They are knowledgeable, ambitious, and eager to put their education to work on golf courses around the world." The three-day event included presentations and panel discussions dealing with current and future issues of importance to golf course superintendents.

Foley takes Neary
MINNEAPOLIS, Minn.—The Foley Companies, the parent company of sharpening and grinding equipment manufacturer Foley United, has acquired Elk River, Minn.-based Neary Manufacturing Inc. including the Neary turf maintenance equipment division, related patents, manufacturing and distribution.

According to Jim Letourneau, president of Foley United, the deal marks a merger of technologies, yet,logistically, will remain transparent to the customer base.

"Foley Companies owns both of these lines now, which equates to over half of the market share," said Letourneau. "The customer will see no change as far as who they’re dealing with and where they’re calling. Both lines will be marketed in the marketplace through independent distribution and we’re maintaining a Neary sales force and a

EPA to reassess existing pesticide tolerances
LAWRENCE, Kan.—The Golf Course Superintendents Association of America (GCSAA) is seeking relief from the Food Quality Protection Act (FQPA), which changes the method of determining human exposure to chemicals.

The legislation, which became law in August 1996, is to be implemented by the Environmental Protection Agency (EPA). Prior to enactment of FQPA, risk from pesticide use was measured only from residues from dietary exposures. Under FQPA, the EPA must consider the aggregate exposure for each pesticide, including non-dietary means (i.e., residential, lawn and garden uses).

While the previous legislation required a separate evaluation for each pesticide, the law now demands that the evaluation include all those pesticides sharing a common mechanism of toxicity.

Under FQPA, the EPA must reassess all existing pesticide tolerances (more than 9,700) within the next 10 years. Concerns for the golf course maintenance industry include a plan to eliminate all organophosphates (OPs) by August 1999.

By MICHAEL LEVANS

CORVALLIS, Ore.—In the age of the exclusive supplier agreement it’s not just the Big Iron that’s going to reap the benefits.

Seed Research of Oregon (SRO) and golf course management firm O.B. Sports have announced an agreement under which O.B. Sports will purchase its grass seed needs for overseeing and new projects from Seed Research.

According to the companies, the agreement includes superintendent education, help with grass selection and assistance with all aspects of turf management.

“We wanted to make sure, from a ryegrass standpoint, that we could lock into a supply that we would have over the course of three years so we weren’t susceptible to the whims of Mother Nature,” said Bob Marshall, president of northwestern operations for O.B. Sports. “So this not so much based on price as it is to

NEW PRODUCT OF THE MONTH: SMITHCO’S 3-IMPLEMENT GREEN STAR
WAYNE, Pa.—The Green Star RBS System, for the rolling, brushing and spiking of greens and turf, is now available on all Smithco bunker rakes.
