Penn A-4 creeping bentgrass succeeds at Cypress Lakes

“We just couldn’t keep grass on this green before. I’d worry about keeping the players happy, but now I sleep better at night with Penn A-4 bentgrass.”

“We planted Penn A-4 in the fall of 1994, ’95 and ’96. We faced very poor grow-in conditions, including two hurricanes, and were still able to open for play eight weeks after seeding all three years. Willie and I have a very limited budget to work with, and have heard the hype about increased expense and labor involved with managing newer bent varieties. With Penn A-4, we’ve found this simply isn’t true. The exceptional putting surface we have obtained here at Cypress Lakes more than outweighs any additional effort on our part. It’s a relief to know we have superior heat tolerance working for us in the south, and on this green in particular where nothing seemed to grow next to our namesake cypress lake. We maintain a 0.125” cut throughout the summer, which makes for a truly consistent year-round putting surface with no adverse affect on plant health. We believe that Penn A-4 will continue to perform for our 18 greens here at Cypress Lakes, and we thank the team at Tee-2-Green for introducing it to us.”

Willie McGeachy, Superintendent

CIRCLE #111 / GCSAA BOOTH #5001
Every season your course endures the same stresses as a major tournament course.
Shouldn't it have the same protection?
Primo® used for Pre-Stress Conditioning helps keep 120 major tournament courses in championship condition.

Pre-Stress Conditioning with Primo helps prepare your course in advance for an entire season of wear and weather. Which is why 120 tournament courses depend on Primo.

Primo helps create denser, healthier turf for a beautiful, better-playing golf course. By using Primo, you'll help protect your course from the extremes of heat, rain, drought, and heavy traffic; improve your disease control program and even speed divot recovery. That's because Pre-Stress Conditioning with Primo actually gives your turf bigger root systems and increased lateral stem development. All of which results in increased food reserves, more efficient water use, and thicker, healthier turf better able to withstand stresses throughout the season.

Your course undergoes the same stress as a leading tournament course, so why not give it the same protection. Use Primo for Pre-Stress Conditioning. To learn more about Primo, call 800-395-TURF for the name of your Novartis Sales Representative. Or visit our website at www.cp.us.novartis.com.

Ever notice how more fans always follow one foursome?

Some pairings just naturally draw more attention than others. Maybe that’s why the buzz around the world is about the new Textron Turf Care And Specialty Products team. Cushman, Jacobsen, Ransomes and Ryan—four great names, each built upon legendary performance, together as one foursome. The unbeatable team.

Easy to do business with. First in innovation. Dependable quality. And, the experience and know-how to get the job done. It’s good for the industry. It’s good for the game. It’s even better for you.

To make the most of your turf maintenance investment, follow the leader. Call 1-888-922-TURF. It’s where the action is.
State-of-the-Art.

HERITAGE®. There's Never Been Another Fungicide Quite Like It—And Never Will Be.

HERITAGE fungicide masters the art of disease control. With its distinctly different, state-of-the-art chemistry, HERITAGE is unlike any other fungicide. Not only does it act both preventatively and curatively against turfgrass disease, it also exhibits other important advantages, including:

- **Controls Most Turfgrass Diseases**
  Controls most destructive diseases, including Pythium, take-all patch, summer patch, anthracnose, and snow mold.

- **Novel Mode of Action**
  Only strobilurin chemistry available that delivers highly effective systemic activity.

- **Reduced Risk Fungicide**
  Displays a low-risk toxicological profile for reduced risk to environmental resources.

- **Extended Spray Intervals**
  Applied at low use rates with longer spray intervals.

- **Improves Turf Quality**
  Enhances the thickness and color of turf without stunting or plant growth regulator effect.

**Turf Quality (Index 0 – 10)**

Most all golf course superintendents puzzle over the right combination of disease control products for their turfgrass management program. Put an end to this dilemma with HERITAGE and DACONIL, the two broad-spectrum fungicides that fit your program perfectly. Together, HERITAGE and DACONIL bring just the right complement of advantages to your tees, greens, and fairways.

**HERITAGE FUNGICIDE**
- Exhibits both preventative and curative activity
- Only strobilurin chemistry with systemic activity
- Controls most turfgrass diseases, including Pythium, take-all patch, summer patch, anthracnose, and snow mold
- Reduced risk to environmental resources
- Extended spray intervals with low use rates
- Improves turf quality with no stunting or growth regulator effect

**DACONIL FUNGICIDE**
- Multi-site mode of action
- Sticks and stays for maximum protection against fungal diseases
- Controls 14 diseases, including dollar spot, leaf spot, melting out, rust, and red thread
- Three flexible formulations—Ultrex®, Weather Stik®, and Zn

When putting your turfgrass disease management program together, pick up HERITAGE and DACONIL fungicides—they're the perfect fit.

Don't Play Around With What They Play On.

Increased root mass and root depth. Optimal plant utilization. Health and vigor. Focus and Launch pair up to deliver the kind of results that get your golf course noticed by top players ... again and again.

Launch new sod or seed, and you'll see results within days.

Focus on distressed areas, and you'll be amazed at how fast they recover.

Test results prove Focus™ and Launch™ are on course as the premium biostimulants

Turf grasses become more vigorous. Your course becomes more wealthy. And everyone will know you're wise.

FOCUS has been applied in cooperative studies across the country. Soil profile cores are taken periodically to compare root growth. Washed root samples are lab-evaluated for increased root mass.

Get out of the rough and onto the green with Focus™ and Launch™.

The Next Generation Cushman® Turf-Truckster®

In 1964, we created the world’s first Cushman Turf-Truckster…and a whole new class of vehicles. Imitators soon followed. But none with the same soul. The new Cushman Turf-Truckster features a truckload of improvements including the only fully automatic transmission in a heavy duty work vehicle. With the same rugged dependability as the original, the Turf-Truckster remains, as it began, in a class by itself. Call 1-888-922-TURF and drive the new Turf-Truckster today!
