Ojai reclaims one of world's best par-3s
OJAI, Calif. — An ambitious project to renovate Ojai Valley Inn & Spa's George C. Thomas-designed course will return two signature holes that have been "lost" for over a half-century, including one which was hailed as one of the world's best par-3s.

"We have an extraordinary opportunity to preserve a piece of history," said the inn's director of golf, Mark Greenslit. "Our classic course is reclaiming two of its most unique and beautiful holes."

The terrain of these two holes is so spectacular that PGA Tour great, historian and course designer Ben Crenshaw said, "This shot is going to be once again one of the best shots in golf."

Fully autonomous, 'intelligent' mower tackles turf in Fla.
JACKSONVILLE, Fla. — Engineers at the University of Florida's Mechanical Engineering School have developed a fully automated robotic fairway mower that may very well revolutionize golf course maintenance. The unit, which utilizes a Global Positioning System (GPS), sonar sensors and five onboard pentium computers is truly a "smart mower," according to engineer David Armstrong.

"This has a large platform with a lot of intelligence," said Armstrong. "I've taken it out and let it run for three or four hours and it stays within an inch or two of where we want it to be."

THE NEWSPAPER FOR THE GOLF COURSE INDUSTRY
10 YEARS LATER GCN CONTINUES TO SET THE PACE
YARMOUTH, Maine—From a small town in coastal Maine, Golf Course News has helped set the pace of the golf course industry for the past 10 years. In a special 14-page section, some of the industry's best and brightest weigh in to put the past decade into perspective and share their visions from golf's crystal ball. Above, a copy of GCN's premier issue, February 1989.
