LONGWOOD, Fla.—Diamond Players Club (DPC), a golf management company headed by Arizona Diamondbacks pitcher Todd Stottlemyre, has acquired Sweetwater Country Club and Wekiva Golf Club, located within two miles of each other in Longwood. Sweetwater Country Club will remain private. Wekiva is a semi-private course. DPC also has two courses under construction in Florida: Diamond Players Club at Orlando, in Clermont, and Diamond Players Club at Destin, in Freeport, both of which will open in mid-to-late 1999.

As a golf course professional, it's your responsibility to make the right choices. Right for the turf, and for the people who enjoy it. One way to meet that responsibility is with Dimension® turf herbicide. We're not the only ones who think so. In a recent GCSAA survey, more golf course superintendents rated Dimension higher than any other preemergence herbicide.*

Dimension provides season-long control of crabgrass, goosegrass, psa annua, and about 20 other tough weeds and grasses. Dimension doesn't stain, and it's labeled for use both on established turf and on ornamentals.

Dimension's low use rates and favorable environmental profile add up to less worry for you. The active ingredient is practically non-toxic to animals, birds, and insects. And it bonds to soil particles instead of leaching into groundwater. Dimension offers the widest application window—6 weeks more than other preemergence products. So you can delay application for optimum control of goosegrass and other weeds. And split application can stretch control even further for areas with long growing seasons.

All in all, it adds up to a herbicide you can live with. And weeds just can't. Call 1-800-987-0467 or visit us at www.dimensionpro.com to learn more.
