Software links courses, travel companies

PHOENIX — More than 400 courses have signed on with GolfSwitch, a recently introduced tee time software system that allows individuals and companies to book tee times at multiple golf courses using a variety of automated reservation systems.

GolfSwitch software enables airlines, central reservation systems, tour operators, hotels, golf vacation companies, travel agents and Internet users to make tee times at any course using one of 16 different automated tee time reservation systems including Computer Golf Systems, T-Links, Snymsy, TEE Master, Fonw Res eration Systems and Fairway Systems.

GolfSwitch can be integrated into the tee time reservation system's software, meaning course owners need not worry about which of the 16 reservation systems they choose.

Likewise, marketing partners such as airlines, hotels and golf vacation packages can easily install GolfSwitch into their operations. America West Golf Vacations, Delta Golf Vacations, Pam's Golf, Resort Systems of Scottsdale, the Mirage Hotel in Las Vegas and the PGA of America's PGA.com are among the travel and Internet partners using GolfSwitch software.

GolfSwitch displays up to seven different courses at a time.
