BRIEFS

NEW GM AT ROYAL MELBOURNE
NORTHBOURG, Ill. — W. Paul Blaze has been named to succeed Paul V. Blaze as general manager at Royal Melbourne Country Club in Long Grove, Ill., a Kemper Sports Management golf facility. Blaze is joining Kemper Sports’ home office as vice president of operations. Prior to joining Royal Melbourne, Pearce has been named to succeed Kemper Sports’ home office as general manager of The Meadow Club in Rolling Meadows, Ill. Previously, he served as general manager at English Turn Golf and Country Club in Long Grove, Ill., 111. United States Golf Association. He is a graduate of Austin College and earned his master’s degree at Texas Christian University.

SANTA MONICA, Calif. — National Golf Properties (NGP) has acquired Coyote Lakes Golf Club, an 18-hole, daily-fee facility located in a northwest suburb of Phoenix, for approximately $4.1 million, NGP also sold Crescent Oaks Country Club in Tarpon Springs, Fl., to a local investor for approximately $1.5 million.

NEW COMPANIES ADDED TO VGM MANUFACTURERS LIST
WATERLOO, Iowa — VGM Golf Inc., a major buying alliance for golf courses, has added several new companies to its list of 120 participating manufacturers. Among the new firms are Textron Turf Care and Specialty Products, a manufacturer of golf course maintenance equipment; The VGM Technologies, a telecommunication consulting service; The Kennon Group Audit Co., a utility bill auditing firm based in Stillwater, Okla.; Eco Golf Tee Co., manufacturers of environmentally friendly golf tees; and Maryland U.S. Inc., Group, a quality brand power tool line based in Richmond Wash. The National Golf Foundation and VGM have formed an agreement in which the NGF’s golf facility members can get a discounted membership to VGM, and vice-versa.

Software links courses, travel companies

PHOENIX — More than 400 courses have signed on with GolfSwitch, a recently introduced tee time software system that allows individuals and companies to book tee times at multiple golf courses using a variety of automated reservation systems.

GolfSwitch software enables airlines, central reservation systems, tour operators, hotels, golf vacation companies, travel agents and Internet users to make tee times at any course using one of 16 different automated tee time reservation systems including Computer Golf Systems, T-Links, Smyth Systems, TeeMaster, Fore Reservation Systems and Fairway Systems.

GolfSwitch can be integrated into the tee time reservation system’s software, meaning course owners need not worry about which of the 16 reservation systems they choose.

Likewise, marketing partners such as airlines, hotels and golf vacation packages can easily install GolfSwitch into their operations. America West Golf Vacations, Delta Golf Vacations, PAM’s Golf, Resort Suites of Scottsdale, the Mirage Hotel in Las Vegas and the PGA of America’s PGA.com are among the travel and Internet partners using GolfSwitch software.

GolfSwitch displays up to seven different courses at a time.

Signet extending Southern reach

By PETER BLAIS

ALISBURY, N.C. — Signet Golf Associates has signed a management contract with Crescent Golf Club here, giving the Pinehurst, N.C.-based firm five properties in its growing portfolio. Signet will operate the John LaFoy-designed layout for owner Bill Kubly, president of Landscapes Unlimited, a major golf course construction firm.

“We hope we can do a good job for him,” said Signet principal Peter Dejak, noting that Kubly has an ownership interest in a dozen courses nationwide. “It could mean some future business.”

Dejak and partner Barry Embler founded Pinehurst, N.C.-based Signet in March 1996. The two had worked for Legacy Golf Management, an Atlanta development firm previously located in Pinehurst. Dejak’s background is in agronomy and construction, while Embler’s is in finance and operations.

“We had a lot of in-the-trenches experience and saw a need for a company where the principals were actually doing the work,” Dejak said. “Many companies hire professionals to handle different divisions. What makes us unique is that we handle everything.

Troon adds, promotes key personnel

SCOTTSDALE, Ariz. — Troon Golf has promoted several existing personnel and added additional members to its corporate staff.

Within Troon Golf’s corporate office in Scottsdale, Gloria McKee was promoted from assistant vice president to vice president, human resources. McKee will continue her efforts to support the staff through the development of new systems and resources in order to handle Troon’s continued growth. Prior to joining Troon, McKee was the director of human resources for Robinson’s May department stores.

Newly appointed at the corporate office is Charlene Lowry, vice president, procurement. Lowry leaves the Getty’s Group, a Chicago-based design and purchasing company, where she was the director of purchasing. Lowry will be responsible for vendor relations, purchasing initiatives and price negotiations for all Troon facilities.

ClubCorp, Golden Bear team up on Georgia acquisition

Located 27 miles north of Atlanta, Laurel Springs features a Jack Nicklaus Signature Course and an award-winning 8,100-square foot clubhouse. Opened in 1998, the golf club lists 300 members.

“Laurel Springs complements the clubs that we have in the Atlanta area,” said Dave Richey, senior vice president of development of ClubCorp.

Other ClubCorp golf properties in the area include Eagle’s Landing Country Club, Northwood Country Club and Trophy Club of Gwinnett. The company also owns and operates three business clubs in Atlanta: Ravinia Club, Buckhead Club and One Ninety One Club.

Outsourcing
Continued from page 1
example, going to bulk fertilizer applications means that the crew doesn't have to spend time unloading bags and filling up spreaders or putting it out.
Outsourcing not only helps to streamline operations but it also helps keep capital expenses to a minimum. "Instead of paying $10,000 to buy an aerifier, clubs are more than happy to budget $2,000 a year to aerify the greens," said Buchen.
Time is money, according to Tim Anderson, superintendent at Prestwick Country Club in Frankfurt, Ill.
I could buy a Vertidrain and a Hydroject machine and over time and I may save money," said Anderson. "But the bottom line is that the contracting company can come out with three tractors and three Vertidrains and in one day get through the whole course. It would take me a whole week."
Matt Taylor, director of golf course operations at Bonita Bay East in Bonita Springs, Fla., also uses outsourcing to handle several tasks that were at one time eating away at his manpower hours. Taylor employs contract maintenance to handle fire ant bait, mosquito insecticide and fertilizer applications and has been pleased with the results. "It is cost-effective and the efficiency is improved," said Taylor of the aerial fire ant bait and mosquito insecticide applications. "We just started this year with the wall-to-wall fertilizer applications. When I first looked at it I was dead set against it, because I'm already paying for the labor and I've got a 160-gal lon sprayer. But since the bulk fertilizer truck has 40-foot booms and greater capacity, it gets done twice as fast."
For these reasons, bulk fertilizer applications and other specialized services have become more popular.
Elwood, Ill.-based Tyler Enterprises, a manufacturer of customer services, rolled out its first bulk fertilizer application truck this fall and has been overwhelmed by the response from area golf courses.
"We started the service in September and we are fully booked through the end of November," said Bill Davis, sales manager for Tyler Enterprises. "We're already ordering a second truck."
According to Davis, superintendents are getting into bulk fertilizer applications not only because it saves time but because it is more accurate. "We map the course in GPS as we apply, showing exactly how much has been applied and where," said Davis. "At the end we can give the superintendent a read-out of the course. It takes the hit and miss out of the way."
For Anderson this is definitely a plus. "The truck can tell you how much went out where and can correct for mistakes as they ap-

IT GOES FARTHER, LASTS LONGER & IT'S MORE ACCURATE THAN ANY YOU'VE TRIED BEFORE.

Ask the microbes in your soil, they'll tell you.
LiquiGreen® is a slow release, non-burning organic source of nitrogen that is safer to use and delivers more consistent results.

- Thatch is minimized.
- Root mass increases by up to 40%!
- Plants are more resistant to disease.
- Weather and even drought will take less of a toll.

Apply LiquiGreen and immediately, billions of microbes in the soil begin to convert LiquiGreen to available nitrogen. The LiquiGreen slow release formula keeps a consistent level of nitrogen in the soil, longer. More available nitrogen in the soil creates thicker and healthier turf.
Healthy plants stand up better in high traffic areas — like tee boxes, greens and fairway landing areas.
And that adds up to a better looking, better playing golf course for your golfers. Plus, LiquiGreen is as safe to use as it is hard-working.
It does not burn — it has a salt index that's 8-9 times less than other nitrogen sources; you could virtually triple the rate with no adverse effects! It also stays put. There's very little leaching with LiquiGreen; no nitrates will be showing up in the water table.
The end result? LiquiGreen helps you grow consistently, healthier plants that benefit your course as well as the environment!

LiquiGreen helps golfers.
