QGC continues to make inroads into Thailand

By ANDREW OVERBECK

Bangkok, Thailand — Quality Golf Consultants (QGC) has weathered the Asian financial crisis of the past two years, riding a wave of renovation work that is on the rise as the country and the region begin to awaken from their economic slumber.

The company, headed by Tony Taylor, is performing extensive renovation work at Alpine Golf Club and has added to its growing list of clients in 1999, snagging a contract at Rajpruek Club in Bangkok.

Taylor’s work in Thailand began at Thai Country Club, where he has moved from superintendent to consultant. “Getting through the storm has a lot to do with our business management practices,” said Taylor. “But having the Thai Country Club as a model maintenance operation made the whole high end of the golf market sit up and take notice.”

QGC spent much of 1999 working on the Ron Garl-designed Alpine Golf Club. While the original owner spared no expense in constructing the facility and the course, the project was never financially feasible from opening day, Taylor said. “The course deteriorated considerably in the past five years,” said Taylor, who helped prepare it for the 1998 Asian Games.

QGC is now halfway through a two-stage US$2 million renovation project. They are installing 15 km of herringbone drainage and replacing the contaminated Tifdwarf greens with superdwarf Tifgreen.

That’s the beauty of it. More of “the good stuff,” optimum single season availability and a greater return on your fertilizer investment. But that’s not all. With NOVEX, every uncoated particle is a total package of macro and micronutrients. Consistent nutrient availability is guaranteed because every particle has the same release characteristics. Even sliced or broken particles release the way they should. And thanks to its homogeneity and particle size, speckling becomes a thing of the past.

NOVEX is available in greens and fairway-grade particle sizes. Both so small and compact they penetrate even the densest, lowest cut turf canopy. After all, there’s no point in buying quality fertilizer if it’s only going to be thrown away with the clippings.

Think of NOVEX as sophisticated nutrient management. Because that’s exactly what it is. Try it and we know you will agree. This fertilizer may be small, but what it can do for your golf course is huge. To learn more, contact your LESCO professional.
**ASIAN UPDATE**

**JAPAN**
- Tom Johnson Golf Design (TJGD) is busy in Japan, with a new course opening later this year and three renovation projects in the works. TJGD is designing 18 holes in Nagaoka at Green Hill Nagaoka Golf Club and the course is set to open in July.
- TJGD’s renovation work includes: Washu Golf Club in Kurashiki, adding four new greens and ladies’ and seniors’ tees, scheduled to be finished in 2001; AMI Golf Club in Ibaraki, an 18-hole renovation of greens to start in the fall; and

**KOREA**
- MT. KUMGANG — The Hyundai Group is looking for foreign companies to take part in its North Korean resort project at Mt. Kumgang. Hyundai received a 30-year monopoly on the use of the property at the end of October. The group is seeking U.S. companies since the Clinton Administration lifted its business embargo on North Korea in September. Hyundai plans to build a hotel, condominium, ski resort, golf course and airport in the Mt. Kumgang region.

**MALAYSIA**
- E&G Parslow has announced that two of its Malaysian projects will be back on track in 2000. The firm’s course in Karambunai, Sabah for Karambunai Resorts has been reactivated. The course is situated in an area of tropical real estate within the city of Sabah, Kota Kinabalu. Construction is set to begin at mid-year.
- The second course is in coastal Tawau on the east coast of Malaysia. Site clearing has begun under the control of Jason Winter, who has been working to ensure the numerous sites of native grasses were left untouched and the general course routing was adjusted to maximum advantage.

**PHILIPPINES**
- CEBU — In a move to settle the conflict over the redevelopment of the Kang-frog Golf Course here the developer, Kota Golf, Inc. has offered to buy the property from the Philippines Tourism Authority (PTA) for P250 million (US$4.4 million). Development works were put on hold after the Cebu regional trial court issued a temporary restraining order barring the firm from continuing to work on the site.

**MILBERGER TURFGRASS**

TifSport™, continues a tradition of great grasses!

TifSport was developed by the USDA/ARS and the University of Georgia, the same turf genetics group which also developed 419 Tifway, Tifgreen and Tifdwarf. These warm season grasses are highly regarded names on golf courses around the world.

- Superior Cold-Hardiness
- Mole Crickets Do Not Prefer TifSport
- TifSport Offers Genetic Purity
- TifSport is protected by a USDA patent.
- Strong and Flexible Under Pressure

TifSport is available only through Tift 94 Growers Association, Inc.

**TifSport is a superior hybrid bermudagrass that is both cold-hardy and able to thrive in today’s demanding sports turf conditions: Intense cart and foot traffic, lower and more frequent mowings, and the ever-present threat of pest damage.**

Bermudagrass. Taylor’s crew has also placed 4 km of plastic curbing around the lake banks to prevent the build-up of aquatic plant growth and the invasion of torpedo grass.

Alpine has upgraded its maintenance facility and purchased a new fleet of equipment. This year’s work will include working on the back nine and installing a new Toro LTC plus irrigation system.

QGC also signed on with J. Michael Poelot-designed Rajpruek Club and appointed Robert Barnes as the superintendent. So far, Barnes has upgraded the standard of the course without spending any more money.

“They have over 100 people on staff, but simply had no one who knew how to maintain the golf course,” said Taylor. “We have helped to turn that around.”

According to Taylor, renovation and consultant work will continue to be on the rise since many clubs don’t have educated manpower. “We have the technology and we know what works,” said Taylor. “There are still no schools that train for golf operations.”

“The renovation work will continue as the market settles out. Golf courses will simply want to improve conditions and reap the rewards from the massive golfing public.”
