BUFFALO, N.Y. — On March 9, the New York State Turfgrass Association (NYSTA) will present its Western Regional Conference, a one-day seminar designed to share with grounds managers the latest information, research, and techniques.

In addition to the educational sessions, this one-day conference will include a trade show with vendors representing various interests.

Seminars will include:
• General Session — Weather or Not, Stan Levine, National Weather Service Forecaster; Using Weather Conditions to Predict Pest Outbreaks, Dr. Michael Raupp, University of Maryland.

• Build Your Skills — Basic Turf Soil Management, Joann Gruttadaurio, Cornell University; Turfgrass IPM, Kevin Trotta, North Rockland CSD; Weed Identification and Control, Joann Gruttadaurio, Cornell University.

Conference hours are from 8 a.m. to 3:30 p.m., with registration beginning at 7 a.m. For more information, call NYSTA at 800-873-8873, 518-783-1229.

If it's on it, the best is in it.

Now it’s easy to know whether you have the best turfgrass mixtures and blends available. Just look for the Jacklin Genetics label.

The Jacklin Genetics label on the bag says you’re planting turf seed varieties with:
• the industry’s leading private research and breeding program behind them
• a wealth of innovation that has led the world in turfgrass development for nearly seven decades
• proven performance that combines unsurpassed color, turf quality and disease resistance with higher seed yields

You never have to wonder if the best is in the bag when the Jacklin name is on it. So ask for Jacklin Seed. And if you don’t see the Jacklin Genetics label on the blends and mixes you’re considering, ask “why not?”
