ZIRKLE HEADS UP RAIN BIRD MARKETING

AZUSA, Calif. — Matthew A. Zirkle has been named marketing manager for the golf division of Rain Bird Sales, Inc. Zirkle will oversee the marketing and communications functions for the division. Prior to being named marketing manager, Zirkle served as new business development manager in Rain Bird Golf.

RIVERDALE NAMES SCHUTZMAN, PHIPPS

GLENWOOD, Ill. — Riverdale Chemical Co. has named Lendel Schutzman as regional sales manager. His territory.

PEROTTI JOINS JACKLIN SEED

POST FALLS, Idaho — Larry Perotti has joined Jacklin Seed/Simplot Turf & Horticulture as technical service manager. Perotti is responsible for answering questions from Jacklin Seed customers on such subjects as grass species and variety selection, and growth characteristics. Additionally, he provides backup technical and sales services for Jacklin Golf's three outside sales representatives.

NELSON TO LEAD SCOTTS TURF BREEDING

MARYSVILLE, Ohio — The Scotts Co. has hired Dr. Eric K. Nelson to lead its turfgrass breeding efforts at the company's Oregon Field Station. As senior scientist and turfgrass breeder, Nelson will join Scotts' variety development group in its efforts to produce herbicide-resistant grasses and will conduct traditional plant breeding, drawing upon biotech-based gene sources. He will interact with scientists within Scotts and at universities across the country. Nelson most recently served as senior technical agronomist for JacklinGolf, where he provided agronomic assistance and technical communications for golf course architects, builders and superintendents.

J.R. SIMPLOT SET TO EXPAND DEAL, INJECT $20 MILLION INTO ECO SOIL

By ANDREW OVERBECK

LANCO BERNALDO, Calif. — Building on November's marketing and distribution alliance, Eco Soil Systems, Inc. and J.R. Simplot Co. have strengthened their relationship by entering into a multi-faceted letter of intent. Under the agreement, Simplot would acquire $20 million of a new series of Eco Soil preferred stock. Simplot would also agree to commence field trials of Eco Soil's proprietary products in agricultural markets. The deal also grants Simplot the option of acquiring an interest in Eco Soil's Turf Partners subsidiary during the spring of 2001, depending on Turf Partners 2000 financial performance.

"Simplot is investing in the parent company," said Eco Soil President and Chief Executive Officer Bill Adams. "But they retain the option of converting that investment into Turf Partners or putting some additional money into the subsidiary to buy some level of shares. They have to make that decision in the next 12 months.

"We are interested in the Bioject and FreshPack products," said Hiromi Yanagisawa, senior vice president of marketing for J.R. Simplot. "But we need to look at it financially to see if it makes sense.

While a 12-month valuation period is unusual, Adams remains unfazed.

"Simplot is not sure whether they want to be fully invested in a distribution company," he said. "At this stage of the game it doesn't matter to us. We wanted to make sure they made a commitment to us since we had made a distribution commitment to them, and in addition, we have some technology that we wanted to shoehone into their agricultural markets and this was an easy way to do it."

Building a relationship with a vendor also makes a lot of sense to Adams.

"The working capital helps, but the bottom line is that we want to get closer to our major vendors because we have always presented ourselves as a value-added sales force," said Adams. "In the final analysis, it is all about positioning someone's product over someone else's. You have to have favoritism and Simplot is one of them."

Concurrently, Eco Soil will be working to cut costs after losing $11 million in the fourth quarter due to restructuring costs and operating losses in Mexico. While Eco Soil continues to expand its revenues — $22 million in the fourth quarter — it faced overhead expenses of $17 million in 1999. By streamlining operations and using the proceeds of the Simplot investment to retire debts, Eco Soil expects to trim 2001 costs to $9 million.

"When you consolidate all the business on page 62.

Redexim to distribute Carraro tractors

By ANDREW OVERBECK

PITTSTON, Pa. — Redexim Charterhouse has entered into an exclusive marketing and distribution pact with Padova, Italy-based tractor manufacturer Antonio Carraro. Redexim Charterhouse has had a distribution agreement in Europe with Carraro since August 1999.

"The success of the European joint venture led us to roll out U.S. operations," said Philip Threadgold, executive vice president of Redexim Charterhouse. "Carraro was looking to get into the U.S. market and we offered the distribution."

The tractors will be distributed in

Golfsat plans to be one-stop online source for supers

By ANDREW OVERBECK

NEW ORLEANS — Looking to fill the Internet gap that exists in the golf course maintenance industry, Golfsat has launched its website (www.golfsat.com) and industry portal to golf course superintendents.

Golfsat Chief Executive Officer Mike Scott equates the site's unveiling to the Oklahoma land rush.

"Everyone is running to the Internet and is not sure where they are going," said Scott.

"The Internet has embraced this industry. There are a lot of manufacturer and distributor websites. But by and large there has not been a formation of e-commerce or a virtual community for superintendents. That is what we are creating at Golfsat." Scott said.

Scott aims to get superintendents online, create a high-speed industry network and design and develop industry-specific software and content.

CONTENTS

Registered Golfsat users can use the Golfsat search engine to locate information on turfgrasses and cultivars, diseases and insects, biological and chemical

By adding Carraro turf tractors to its existing product line-up of seeding and aeration attachments, Redexim expects to boost its market share.

"We can’t compete head to head with the larger U.S. companies," said David Jenkins, managing director for Redexim Charterhouse. "We think the way to go is to find a niche and exploit it."

Carraro’s tractors offer several unique design characteristics that make them highly specialized and versatile machines. The tractors are high-powered units that combine horsepower (hp) with a trim design and high maneuverability. The tractors offer a number of technical innovations useful to turf professionals including ergonomic systems that permit the driver’s entire control system — seat, steering wheel and all controls — to be reversed. This allows the tractors to convert to either push or pull attachments in just five seconds.

The turf series tractors include a small hydrostatic model, the medium-sized compact version and the large two-faced hydrostatic-mechanical machine. Engines range from 21 to 70 hp.

“The integration of their tractors with attachments designed in-house by Antonio Carraro, and interchangeable among machines in the same series enables them to perform an incredibly broad range of maintenance duties," said Threadgold.

**CONSISTENT RESULTS FOR AN INCONSISTENT WORLD.**

Consistent performance, consistent results. A regular program, ConSyst is even fungistatic to pythium diseases. ConSyst is one fungicide with such a broad spectrum of disease control, it’s become the "all-purpose fungicide" for turf and ornamentals. If you want consistent protection, you want ConSyst from Regal Chemical Company.

**ABT**

Continued from page 59

Brett has delisted the company's stock which last closed at $2.31 per share, having fallen from its 52-week high of $10.81. The stock peaked at $29.50 in June 1998.

At the crux of the bankruptcy filing is ABT’s failed negotiations with creditor GE Capital. ABT was unable raise $15 million in unsecured loans as required by GE Capital as a condition to providing a $135-million revolving line of credit.

All members of the company's board of directors and all of its officers have resigned and U.S. Bankruptcy Court has approved the appointment of William A. Brandt as the person responsible for the day-to-day operations of the company. To assist Brandt in reorganizing ABT, the court has also approved the company's retention of Development Specialists Inc. (DSI).

Brandt, together with DSI and ABT's other professionals, have determined that it is in the best interest of the company's estates to sell the assets in one or more going-concern sales as efficiently and expeditiously as possible, provided that sufficient financing for an orderly sale process exists. The company is in the process of preparing a bid-solicitation package.

ABT's arrangements for interim operating funds with its current lending group, led by Bank of America N.A., expired on Feb. 25 and a debtor-in-possession loan agreement is being negotiated from the same group of lenders.

**Consolidation**

Continued from page 65

Efforts by distributors to combine their product lines, however, will create some interesting situations.

"Eco Soil is a distributor of ours," said Anderson. "When you consolidate the lines between competitors things get a little blurred. Are you competitor, or a partner? These are the dynamics that are playing out in real time."

Nonetheless, Anderson is up to the challenges that consolidation represents.

"This is great opportunity. We see it and we want to be a player and not on the sidelines," said Anderson.
