"Penn A-4 is picture perfect for our Wooden Sticks greens."

"The Wooden Sticks experience has golfers of all skill levels arm pumping, cursing, and coming back for more. Eight holes on this unique course draw inspiration from well-known tracks worldwide, and our greens range in size from the 3,000 square foot 'Postage Stamp' at Troon to a 25,000 square foot likeness of the finishing hole at St Andrews, complete with upfront swale.

"Number 2 hole is a truly unique design with bunkers surrounding the green. From the elevated tee, it's possible to land on the target with a well-placed shot, but to miss short or right could mean a day at the beach.

"Penn A-4 is just right for our greens at Wooden Sticks. With the variety of putting surface sizes, shapes, and contours we have, Penn A-4 is asked to do a lot of things including: grow in deep shade, adapt to our severe climate changes, repair scuff and ball marks resulting from public play, and to be the reward at the end of some challenging approaches.

"The new Penn A-4 creeping bentgrass does it beautifully."

Milorganite Greens Grade offers all the benefits of an organic fertilizer – a nonburning formula with slow-release nitrogen – only in smaller particles. Which means it won’t disrupt putts after it’s applied. It settles into the turf canopy virtually unnoticed.

But the results won’t be. As for three or four putts? Who or what is blamed is anyone’s guess. But it certainly won’t be the fertilizer.

There are thousands of reasons golfers miss putts. (One less if you use Greens Grade.)
