The renovated fairways are highlighted by new landscaping elements throughout the course. This was the second renovation Weitz Golf has performed at Frenchman's Creek, following a total restoration of the course's clubhouse last summer.

Steve used to dread rainy weather. After most storms, he would spend $1,900 to $2,500 on labor, repairing water damage on his bunkers. Steve was looking for answers to his bunker problem and found a solution that works. He turned to an advanced technology from IVI-GOLF. Sandtrapper™ lines the bunker and ends the routine of sand trap maintenance. It prevents washouts and sand contamination while eliminating short renovation cycles.

Steve made the right decision. Now, he spends a lot less money on labor. This keeps the course owners satisfied and leaves room in the budget for a few things he's had his eye on. He's happy to have found the right solution.

Stop dreading rainy weather and short renovation cycles. Take control of your labor budget with Sandtrapper by IVI-GOLF. Call 888-970-5111 today and we'll send you a product information guide to learn more about Sandtrapper.
